Rupees 14,26,000 but taking into consideration the probability of an increase in other districts the Board fixed the rate at 12½ lacs. The loss in 1876-77 was estimated at 4 lacs with reference to the risk falling due within the last three months of the Fauti due allowances being made for the possibility of a recovery of a portion of the estimated loss for 1875-76 but for which the loss would have been estimated at 6¼ lacs. The result is that if the Board's predictions are fulfilled the sum of 16½ lacs will be absolutely irrecoverable.

2. The Collectors of the Districts named in the margin will be requested to telegraph to this office on the 1st March, the Local Revenue Collections up to date, and the probable Collections in March - and state how far the Board's estimate

Board's estimate for 1877

Chudapah	19,50,000
Bellary	25,50,000
Kurnool	14,92,000

North Arcot	24,50,000
South Arcot	32,00,000
Tinnevely	29,00,000
Salem	22,54,000

for 1876-77 is likely to be affected by the adverse season during the current year.

3. The results of the report of the Collectors will be duly communicated to Government.
