Earthquakes.

Read the following paper :—

No. 148. From S. OTTMANN, Esq., Sub-Engineer in charge of Northern Division,
to the District Engineer, Nellore, dated 22nd January 1878, No. 300.

I have the honor to report that on Sunday afternoon last, about 2 P.M., a very smart shock of earthquake was felt at Ongole. I may mention that several slight shocks have been felt the last few months which I did not consider of great importance to report. The shocks are always in the same direction, north-east to south-west. On the present occasion the shock was attended with a loud report as of thunder.
