GOVERNMENT OF MADRAS.

POLITICAL DEPARTMENT.

8th February 1878, No. 75.

Boundaries.

Read the following papers:—

No. 19. *Telegram from the Collector of Godavery, to the Chief Secretary to Government, dated Rajahmundry, 18th January 1878.*

Mullins and Beatty recommend three Surveyors to go with me to Badrachalam—one Trigonometrical, two Traverse; also proportionate number of lascars; or could small party of Revenue Survey come up? Please let me know soon.

No. 20. *From Lieutenant-Colonel A. de C. SCOTT, R.E., Acting Superintendent of Revenue Survey, to the Chief Secretary to Government, dated Chepauk, 4th February 1878, No. 371-15.*

With reference to your endorsement of the 21st instant on telegram from the Collector of Godavery, dated 18th (herewith returned), I have the honor to report that two Surveyors and three Field Surveyors have been ordered to report themselves to the Collector of Godavery for employment under his orders on the boundary between Badrachalam Taluq and Bustar Feudatory Estate.

2. One Surveyor will have reported himself by this time to the Collector as a telegram was sent on receipt of G. O., No. 37, of the 18th instant, to the Sub-Assistant in charge of the Godavery Party instructing him to place a Surveyor (Mr. A. P. Smith) at the disposal of the Collector of Godavery. The other Surveyor with the three Field Surveyors will leave this day.

3. I believe that the men of the Public Works Department employed in the unhealthy tracts of the Godavery District receive higher rates of pay than those working in the more salubrious parts. I would recommend that the men now detailed for this special and arduous duty be allowed 50 per cent. on their present pay and allowances.

4. It will be necessary to provide tents or huts for the Surveyors and men during their stay in Godavery. I would suggest that huts be built at intervals along the boundary. The floors should be raised from the ground; miasmatic influences have not apparently such baneful effects on those sleeping well above the earth as it has on those sleeping on or near the ground. Sheds such as were run up during the survey of the Nellamboor teak forests would answer well for the present work.

5. Mr. A. P. Smith was employed in the Survey of these forests, and will consequently be able to inform the Collector as to what is required for hutting purposes.

No. 21. *ORDER THEREON, 8th February 1878, No. 75.*

Orders have been separately issued regarding the employment of additional lascars and for the erection of huts for the Survey Party.

2. The Collector's attention will be invited to the suggestion contained in paragraph 4 of the letter from the Superintendent of Revenue Survey.

(True Extract.)

To the Collector of the Godavery District.
