I, C. A. Andrews Surgeon
Major, Medical Officer of Coor-
poration and in Charge of Nottingham
do hereby certify that Mr. R. V.
Mayer and Director of
Revenue is in a bad
state of health, and I sincerely
declare, according to the best
of my judgment, the Circumstances
of his Case are such as to render
an extension of leave on the Hills
until the 1st June 1878 absolutely
necessary.

Mr. Mayer was sent to the Hills on two months Sick Certificate with the following summary of Case, "Suffered from Sun which he has occasionally incurred since period after moderate exposure to Sun. recommended leave to the New York Hills for 2 months".

The patient has derived considerable benefit from the change but a week ago he went out shooting, and the exposure brought on one of his usual attacks, which was characterized by a semi-conscious condition alternating with violent delirium, intense pain in the head & pyrexia, he was much relieved by an emetic, and next day was nearly well, but he is in no condition to return to his duty just as the hot weather is commencing in the unhealthy District of Cumbria where his work lies, and

the Head of his Department has
 misadvised to employ him
 relatively cool but his
 June, I think it is probable that
 should remain on leave till
 ten. I do not for a moment consider
 to Hills a proper person for the case
 & Dunstoke, notwithstanding his
 residence in a temporary
 office for that, but the
 of the patient are such that it is al-
 most impossible for him to go home
 at present and the next thing for
 him is to remain here during the
 hottest months of the year and I
 recommend leave of absence till
 the 1st June 1878
