No. 7. Read the following Proceedings of the Board of Revenue, dated 20th May 1876, Miscellaneous No. 4,181 :—

Read the following letter from J. H. MASTER, Esq., Collector of Bellary, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated Ramandrug, 16th May 1876, No. 147.

With reference to the Proceedings of the Board of Revenue, No. 957, dated 8th April last, I have the honor to forward herewith a list of Relief Works proposed for execution, should necessity arise in the taluqs of this district.

ENCLOSURE No. 1.

List of Relief Works proposed to be put in execution in the Taluqs of the Bellary District in case of Distress.

Name of Taluq.	Description of Works.
Bellary	1. Road from Bellary to Siraguppa from about the beginning of the third mile to the end of the ninth mile. Most of this portion is over very soft, black soil. The road should be metalled to a depth of nine inches with stones collected from the adjacent fields, and a layer of broken stone, four inches thick, placed on the surface with just sufficient gravel intermixed to bind the stone together. The gravel, within reasonable distance, is very inferior and unfit to be placed over the metal. 2. The roads to Dharwar, to Bangalore, and Gutti, might profitably have the first five miles out of Bellary re-made with metalling, consisting of stone collected from the fields and broken to one and a quarter inch cubes. The collecting, breaking, laying of the stone, and binding with gravel, will afford employment for large number of people. 3. Road to Anantapur, via Rupanagudi. This road was commenced during the famine before last, and about three miles of it partially finished. It could be resumed and completed up to Kamar-chid, opposite to Rupanagudi. 4. Road from Bellary to Adoni, via Korlagundi, Handihall, and Talur. This is one of the roads proposed by the Consulting Engineer as a railway feeder, and would be a suitable one to undertake as a famine work.

1st June 1876.

List of Relief Works proposed to be put in execution in the Taluqs of the Bellary District in case of Distress.—(Continued.)

Name of Taluq.	Description of Works.
Bellary.—(Conld.)	5. A reservoir in the big tank at Bellary, measuring 200 yards each way 40,000 square yards to be dug out to a depth of 6 yards. This might be dug at a distance of about 50 yards from the bund. The excavated earth (to save expense of carrying away) to be heaped up into a bund all round the reservoir and connected with the bund of the tank. A masonry culvert and gate through the bund of the reservoir would, of course, be necessary to allow of the water entering. This reservoir would contain, when the tank had dried up, 240,000 cubic yards of water, or nearly one and a-half million of gallons; and allowing one and a-half cubic yards per man's daily work for both digging and lifting to and from the bund, it would afford employment for 1,000 men for nearly six months. If the dimensions were increased to 400 yards in length and breadth, the capacity would be increased four times, and a proportionally larger number would find employment. 6. A small tank could be formed about two miles east of Bellary by bunding up the Gonhall nullah. 7. A road from Kurgode to Bellary, via Somasamudram, about eleven and a-half miles in length, joining the Siruguppa road near fifth mile.
Anantapur ...	1. A branch road to Tadmurry from the Kadary road, via Yerrayapully and Malayavantom. 2. A branch road to Dumpetla from Dhurmavaram and Tadpatri road, via Bondaluvada, Tadmurry, and Maravapully Agraharam. 3. A road from Anantapur to Brahmanayaleir, via Almoor. 4. A road to Atmakur from Anantapur, via Koorogootla and Pampanur. 5. A branch road to Singanamala from the Gooty and Bangalore road, via Garladinna, Chennayurum, and Goorogootla. 6. A branch road to Singanamala from the Anantapur and Tadpatri road, via the calingulah of the Singanamala tank.
Tadpatri ...	1. A branch road from the high road near Vandalpad to Yadky. 2. A road between Daditota and Goodoomurry. 3. A road from Tadpatri to Allur Kona. 4. Repairing the following roads by putting red gravel of good kind:— Cuddapah and Gooty road. Anantapur road and Rayalchervu and Yadky road.
Alloor ...	1. Completing the Alloor and Siruguppa road. 2. Completing the Alloor and Halgoonda road.
Adoni ...	A branch road to Kotesul from the Adoni and Emmiganur road. 3. A metalled road to Chinna Toombalum from the Adoni and Hyderabad road, and a bridge over the surplus channel of the tank. 4. Road between Emmiganur and Goodikul with tunnels and roads in the latter village. 5. Road between Kosigly and Kowtalum.

Proceedings of the Madras Government, Revenue Department,
1st June 1876.

List of Relief Works proposed to be put in execution in the Taluqs of the Bellary District in case of Distress.—(Continued.)

Name of Taluq.	Description of Works.
Adoni.—(Conld.)	6. A branch road from the main road near Emmiganur to the road in the same village, and another one to the new cutcherry. 7. A road between Emmiganur and Ralludoddy. 8. A road to the main road near Chinna Toombalum, via Emmiganur and Jalavady. 9. A road between Adoni, Kowtal to join the high road. 10. Do. Kowtal and Siruguppa. 11. Do. Halvy and Kowtal. 12. Do. Hacholly and Kowtal.
Gooty ...	1. A road between Bellary and Ooravakondah, via Ilavaghy and Pultoor up to the limits of the Gooty Taluq. 2. Repairing the Coontas in the following villages:— 1 Velpamadgoo, 2 Ooravakondah, and 3 Havalghy.
Madakserah ...	1. Repairing a hole in the tank bund at Madoody, strengthening it otherwise, repairing in chunam one of the calingulahs, its body walls, and wing walls. Widening the supply channel of the same tank. 2. Repairing the calingulah and wing walls of the tank at Ravady with chunam and strengthening the bund with earth. 3. Repairing the tank-bund at Dasagondanahully and widening the supply channel. 4. Repairing the tank-bund in many places at Harasamudram. 5. Constructing a head sluice to the supply channel at Gowdanakunta, widening and deepening the latter. 6. Repairing tank-bund, sluice, and calingulah at Temmadihully and Comaranahully. 7. Constructing a new sluice and calingulah to the tank and repairing the bund at Buradanacoonta. 8. Improving bandy-tracks from Agali to Madbody, a distance of three and a-half miles. 9. Improving bandy-tracks from Agali to Maddigera as far as the Mysore frontier, a distance of six miles. 10. Improving bandy-tracks from Agali to Rolla, a distance of five miles. 11. Improving bandy-tracks from Agali to Mysore frontier towards Serra, a distance of ten miles. 12. Constructing a new tank to the west of Begarhully, hamlet of Madakserah. 13. Constructing a well for drinking purposes at Harasamudram.
Dhurmavaram ...	1. Repairing the supply channel of the tank at Regatipully. 2. Raising and repairing the calingulah of the tank at Kunimaddi, raising the bund, and repairing the tunnel of the sluice. 3. Repairing the sluice of the tank at Ravalachervoo. 4. Repairing the supply channel of the tank at Kana-mookala. 5. Repairing the Chitravaty channel of Valudurty. 6. Repairing the bund and calingulah of the tank at Nyamooddala, and repairing the tunnel of the sluice.

Proceedings of the Madras Government, Revenue Department,
1st June 1876.

List of Relief Works proposed to be put in execution in the Taluqs of the Bellary District in case of Distress.—(Continued.)

Name of Taluq.	Description of Works.
Dhurmavaram— (Concluded.)	- Opening and rebuilding the calingulahs at Mustikovila. - Repairing the tunnel of the sluice at Aparachervoo. - Do. do. and river revetment of the bund of the tank at Togaracoonta. - Repairing the sluice and bund of the tank at Gollapully. - Repairing the calingulah and do. at Kundurpi. - Repairing the tunnel of the tank sluice at Maliganur. - Do. do. at Basapuram and the tank-bund. - Repairing the band of the tank at Brahmanapully. - Repairing the tunnel of the tank sluice at Garudapuram. - Improving bandy-track from Dhurmavaram to Anantapur via Chigacheria as far as Anantapur Taluq frontier, a distance of six miles. - Improving bandy-track from Cumbadoor to Mulakaladu, a distance of twenty miles. - Improving bandy-track from Culliandrug to Golla, a distance of eight miles. - Improving bandy-track from Bhanukotah to Pairoor, a distance of eight miles. - Improving bandy-track from Dhurmavaram to Cuddapah frontier towards Kandapur railway station, a distance of twelve miles. - Improving the village of Chennacottapully by filling up pits and levelling the ground. - Improving the village of Kanaganapully by filling up pits and levelling the ground. - Improving the village of Nootimadugu do. do. - Do. Pairoor do. do. - Do. Mulakaladu do. do. - Do. Sanappah do. do. - Do. Ramgiri do. do. - Do. Cambadoor do. do. - Do. Gollah do. do. - Do. Culliandrug do. do. - Do. Mulakanoor do. do. - Do. Koondurpet do. do. - Constructing a chuttrum at Mamillapully. - Do. do. Kanaganapully. - Do. do. Nootimadooga.
Hindupur ...	- Constructing the sanctioned road from Somandapully to Chouloor, via Hindupur. - Constructing the remaining portion of the road from Hindupur to Maddigara as far as the Mysore frontier, a distance of three miles. - Do. do. from Hindupur to Toomkur as far as Mysore frontier, a distance of three miles. - Repairing the supply channel of the Sogoor tank. - Constructing a chuttrum at Hindupur, as both the old ones are totally out of order. - Repairing the roads and side channels in the town of Hindupur. - Repairing the calingulah at Bachaganapully.

Proceedings of the Madras Government, Revenue Department,
1st June 1876.

List of Relief Works proposed to be put in execution in the Taluqs of the Bellary District in case of Distress.—(Continued.)

Name of Taluq.	Description of Works.
Hindupur— (Concluded.)	- Repairing the supply channel of the tank at Poppanapully. - Repairing the calingulah of the tank at Mullapully. - Repairing the supply channel of the tank at Kirikera. - Repairing the calingulah of the tank at Somaghatta. - Repairing a fresh water well of much public utility at Bisalamanapully. - Constructing a road in the village of Kodikondah.
Pennakondah ...	- Repairing the tank sluice at Somundepully. - Repairing the calingulah to the tank at Velidadakola. - Do. cusba tank sluice at Brahmasamoodram. - Do. Pudmalapur tank-bund at Brahmasamoodram. - Do. supply channel at Kulpi. - Do. calingulah to Seshapur tank at Kulpi. - Do. tank sluice at Koghira. - Do. do. at Cholemary. - Raising tank-bund at Reddipully. - Repairing the tank at Agraharam. - Do. the supply channel at Mungalamadaka. - Do. the channel to the sluice of the tank at Poddapully. - Repairing the supply channel at Yenumalapully. - Do. the calingulah to the tank at Yengalummachervu. - Repairing the sluice to the tank at Malarnarla Locheela. - Filling up gullies under tank-bund at Rampur. - Repairing the tank at Mylasamudram. - Repairing Mootyalachervoo at Kottachervu. - Repairing Bhogasamoodramchervoo at Pennakondah.
Huvinhadgali ...	- Road from Huvinhadgali to Holagundy, four and a half miles. - Road from Magalam village to Toongabudra river. - Sinking a well at Togaricutti. - Do. Hoolicutta. - Repairing a fresh water well at Huvinhadgali in the Moondragi road. - Sinking a well on the road between Mullanakerry and Humpasagar for the use of the passengers. - Sinking a well near Kanakapa temple on the road between Magalam and Horai Hadagully. - Repairing an old well at Mylar. - Repairing a coonta at Veerapuram.
Hospett ...	Laying a road from Gadiganur, via Vuddu and Cadul to Anantapur, a distance of ten miles.
Raidrug ...	- A tank in the village of Hanacanahall to retain the waters of the jungle stream of that village. - A road between Raidrug and Settoor, a distance of twenty miles.
Kudlighi ...	The road from Oojiny through Kottoor of Kudlighi Taluq to Ettigy of Huvinhadgali Taluq.

(Signed) J. H. MASTER,
Collector.

SUBMITTED for the information of Government with reference to G.O., Revenue Department, dated 3rd April 1876, No. 462.

2. A sketch map showing the works proposed for execution was called for in Board's Proceedings, dated 17th May 1876, No. —, with reference to the remark of Government on the list furnished for the Chiddapah District.

(True Copies and Extract.)

(Signed) C. A. GALTON,
Acting Secretary.

No. 8.

ORDER THEREON, 1st June 1876, No. 738.

Miscellaneous.

So far as geographical distribution of works, this list seems complete. As respects their character too, it is satisfactory. Upwards of three-fourths of the work are road-work of a suitable kind, and the majority of the rest are earth-work on tank-banks and supply channels, digging wells and the like, such as requires merely reasonably well-directed manual labor. These works are sanctioned, should recourse to them be necessary. On the other hand, the repair of sluices, sluice-tunnels, and caingunds are unsuitable for famine works, and should not be proposed, except in special cases where professional supervision is directly available.

2. Nothing is said as to whether estimates have been prepared or sanctioned for the works included in the list; what the probable cost will be, &c., &c., which is unsatisfactory.

3. The mode in which these papers are submitted from different districts shows want of uniformity, &c. The Board will be requested to issue forms to the Collectors to be used by them. The forms should contain heads which would elicit

*Proceedings of the Madras Government, Revenue Department,
1st June 1876.*

all particulars; and there should always be submitted a sketch map with the position of the works indicated thereon.

(True Extract.)
