Dated 3-7-1876 ~~196~~ .

Proceedings of the Madras Government, Revenue Department,
3rd July 1876.

No. 32. Read the following Proceedings of the Board of Revenue, dated 31st May 1876, No. 1,433 :—

Read the following letters :—

From C. T. LONGLEY, Esq., Collector of Salem, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated Haroor, 7th April 1876, No. 81.

I HAVE the honor to forward the enclosed scheme (with its enclosures) prepared by the Sub-Collector for the revision of Village Establishment of the Oossoor Taluq, and to request that the necessary sanction may be obtained for the same.

ENCLOSURE No. 1.

From F. WILKINSON, Esq., Acting Sub-Collector of Salem, to C. T. LONGLEY, Esq., Collector of Salem, dated Oossoor, 31st March 1876, No. 192.

I HAVE the honor to submit a scheme for the revision of the village establishment of the Oossoor Taluq drawn upon the model of that approved by Government for Trichengode Taluq.

2. The Oossoor Taluq contains 502 villages at present grouped into 77 tarafs. Of these villages, thirteen are villages only in name having no population nor beriz nor cultivated area. Of the rest, fifty-six villages have no population and a beriz of only a few Rupees. In the scheme now submitted, the 502 villages are grouped into 100 tarafs. The present grouping is most inconvenient, many of the tarafs being unwieldy and very extensive, while one taraf consists of one village which has no population and no beriz. Great care has been taken in the grouping which, as the accompanying list shows, is not excessive :—

2	Tarafs	contain	2 villages.
24	„	„	3 „
15	„	„	4 „
26	„	„	5 „
13	„	„	6 „
6	„	„	7 „
10	„	„	8 „
4	„	„	9 „

The present arrangement is as follows :—

2	Tarafs	contain	17	Villages.	6	Tarafs	contain	8 Villages.
3	„	„	16	„	4	„	„	7 „
2	„	„	14	„	8	„	„	6 „
2	„	„	13	„	10	„	„	5 „
1	„	„	12	„	12	„	„	4 „
4	„	„	11	„	9	„	„	3 „
2	„	„	10	„	5	„	„	2 „
3	„	„	9	„	4	„	„	1 „

3. There are at present seventy-three Curnams, seventy-four Karidars and Munsifs, sixty-six Udaris, and 389 Toties, now paid in ready money Rupees 12,258-7-5 per annum.

4. In the proposed scheme there are 100 Curnams, 100 Munsifs, 17 Monigars, 93 Taliaries and 124 Vettiyans. In fourteen tarafs, the same person will have to perform the office of Taliari and Vettiyan, as the available assets do not permit of the entertainment of two individuals.

5. At present, the Toties perform both revenue and magisterial duties, the Udari being merely a Head Toty. With reference to the large number of Toties at present borne on the establishment, I should state that they do not all do work at the same time but by turns, an objectionable system which is universally condemned.

6. The service-cess at 1 Anna per Rupee of assessment will yield Rupees 11,972-2-1, which with the equivalent of the ready-money allowances now paid by Government in lieu of resumed Inams, *viz.*, Rupees 12,258-7-5, will more than suffice to pay the proposed establishment the

cost of which will be Rupees 22,692 per annum, leaving a sum of Rupees 1,610-7-9, the proceeds of resumed Service Inams, to be carried to the credit of the General Fund.

7. In six tarafs, the available assets of cess and ready-money allowances are insufficient to pay the establishment needed, and they have been supplemented from the General Fund to the amount of Rupees 71-4-3 per annum.

8. In no taraf is the service-cess alone sufficient to maintain a decent establishment, as happened to be the case in Trichengode, a richer taluq than Oossoor and one in which the clubbing of villages had been carried out to a far greater extent than has been attempted here. I have therefore allotted to each taraf an establishment such as is required for the work of the taraf, and such as can be paid for from the available assets of cess and ready-money allowances. There are ten classes of establishment as shown in the accompanying list, in accordance with which the establishment has been fixed both in this and the other two taluqs of the Sub-division. It was found preferable to proceed on some system such as this rather than to allot establishments at random according to the available assets alone. The service-cess raised in each taraf will be expended in the taraf in which it is collected.

9. *No.* 1 *in Map.*—Commencing from the north of the taluq :—Morasur with two hamlets ; area 1,229 acres, population 636, has a beriz of Rupees 2,680-9-0. The cess being Rupees 167-9-4 and ready-money allowances Rupees 122-12-2, total Rupees 290-5-6, the following establishment may be maintained :—

of which Rupees 11-2-8 must come from the General Fund.

Proceedings of the Madras Government, Revenue Department, 3rd July 1876.

898

109. I have numbered the tarafs in the surveyed portion of the taluq in the accompanying map so as to correspond with the tarafs as given in the letter. I am unable to enter in each of the new tarafs of the present establishment because the whole taluq has been rearranged as stated above, and no entry that could be made would be accurate. I have however, in paragraphs 3 and 4, contrasted the present and proposed establishment which will I trust suffice.

(Signed) F. WILKINSON,
Acting Sub-Collector.

31st March 1876.

ENCLOSURES Nos. 3 and 4.—Statements.

ENCLOSURE No. 5.—Map.

From C. T. LONGLEY, Esq., Collector of Salem, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated 21st April 1876, No. 90:—

IN continuation of my letter No. 81, dated the 7th instant, I have the honor to forward the schemes for the revision of the Village Establishments for the taluqs of Darampuri and Krishnagheri submitted by the Sub-Collector. They are based on the same principle as that adopted for the Ossoor Taluq.

ENCLOSURE No. 1.

From F. WILKINSON, Esq., Acting Sub-Collector of Salem, to C. T. LONGLEY, Esq., Collector of Salem, dated 9th March 1876, No. 139.

I have the honor to forward a scheme for the revision of the village establishment of Krishnagheri Taluq drawn up on the model of that prepared by Mr. Puckle for Trichengode.

2. The reclubbing of villages, which in Trichengode Mr. Puckle found done for him by the Settlement Department (who clubbed 384 villages into 104 tarafs), I have had to carry out here, and it has been d--- with the greatest care.

3. There are 316 villages in the Krishnagheri Taluq at present clubbed into sixty-five tarafs. In the revised scheme now submitted there are sixty-four tarafs.

4. It was found impossible to adhere to the present arrangement. Out of the sixty-five tarafs, eleven tarafs consist of a single village, which is too small to maintain an establishment. For example, the beriz of Krishnagheri, at present a taraf by itself, is Rupees 85; the beriz of Anigodi Rupees 491; of Transfer Gollahalli Rupees 204, and so on. These tarafs have no establishment at present, but are supposed to be looked after by a Curnam who has ample duties in his own taraf.

5. Moreover, the present clubbing of villages is most inconvenient. To give only one example—Naralapalli, which belongs to the Mekalachinnampalli Taraf, is separated from that taraf by all the villages of the Maharajagaddi Taraf. Such inconsistencies have now been rectified

6. The clubbing has been carried out on the principle that each taraf should have, where possible, an independent and sufficient establishment, paid entirely from the assets of the service-cess, and the equivalent of the ready-money allowances. That the clubbing is not excessive is shown by the fact that the proposed number of tarafs is only one less that at present, and by the following analysis of the number of villages in the respective tarafs:—

1 Taraf contains	8	Villages,	two of	which are uninhabited, and the rest small, and close together.
3 Tarafs	„	7	„	Some of these are uninhabited.
17 „	„	6	„	
24 „	„	5	„	
11 „	„	4	„	
5 „	„	3	„	
3 „	„	2	„	
Total 64 Tarafs.				

896/13

7. The accompanying map exhibits each taraf with the villages of which it will be composed. In only four cases is any village more than two miles from the other village. In these four cases this was unavoidable, as the villages are at a distance rom other Government villages, and are too small to afford an establishment.

The map is on a very large scale.

8. The service-cess at 1 Anna per Rupee of assessment will yield Rupees 8,732-4-5. The ready-money allowances now paid by Government amount to Rupees 9,246-2-2. The cost of the proposed establishment is Rupees 16,830. There will thus be an annual saving of Rupees 1,148-6-7 to be carried to the credit of the General Fund.

9. The present number of Curnams is 56, of Karidars 117, of Toties 172, and of Udaris 21.* Under the proposed arrangement there will be 64 Curnams, 64 Munsifs, 26 Monigars, 69 Taliaries and 103 Vettiyans. In one village the same man will have to do the work of Taliari and Vettiyan

* There is no distinction between Toties and Udaris. The Udari is a Head Toty and the Toties do both Revenue and Police work.

10. I have apportioned the pay of establishment in each village with reference to its aggregate assets, including service-cess and ready-money allowances, so that each village may, where possible, be self-supporting. The entire cess raised in each village will in every case be spent on establishment, and there is no balance of service-cess to the credit of any village. There is, however, an unappropriated balance of resumed ready-money allowances, amounting to Rupees 1,148-6-7, to be carried to the credit of the General Fund. In the two tarafs where the cess and ready-money allowances combined are insufficient to pay an establishment, the assets have been supplemented from the General Fund to the extent of Rupees 173-9-7.

11. The highest amount of cess in any taraf is only Rupees 249, which is insufficient for the pay of an adequate establishment.

12. *No.* 1 *in Map.*—Beginning from the north of the taluq:—Maharajagaddi with five hamlets; area 1,730 acres, population 1,688, beriz Rupees 1,684-8-0. The cess being Rupees 105-4-0 and ready-money allowances Rupees 127-9-6, total Rupees 232-13-6, the following establishment may be maintained:—

of which Rupees 109-6-7 will have to be paid from the General Fund.

ENCLOSURE No. 2.

From F. WILKINSON, Esq., Acting Sub-Collector of Salem, to C. T. LONGLEY, Esq., Collector of Salem, dated 9th March 1876, No. 140.

I HAVE the honor to forward a scheme for the revision of the village establishment of the Darampury Taluq on the model of that drawn up by Mr. Puckle for the Trichengode Taluq.

2. The Darampury Taluq contains 536 villages, at present grouped in 75 tarafs. The present grouping is most inconvenient and objectionable. In one taraf there are 24 villages and in 6 tarafs only one village, in not one of which are the assets of cess and ready-money allowances sufficient to maintain a separate establishment. In only 5 of the present tarafs are the villages composing the taraf at all contiguous, in all other cases the villages are scattered about and separated by villages of other tarafs from the cusbah of the taraf and from each other. The village officers have in many cases to travel 12 and 15 miles in order to visit all the villages in their taraf.

3. In the scheme now submitted, the 536 villages are grouped into 91 tarafs, which, as will be seen from the accompanying map, are as compact as possible, the central village having been, wherever its population and beriz permitted, taken as the cusbah. The greatest care has been taken in grouping the villages, which, from the poverty, &c., of many of them, is no easy task. There are 84 villages in the taluq uninhabited and 17 villages which have no population and no beriz. Of the 536 villages, 41 have not been surveyed. The southern portion of the taluq is jungly, and, if the tarafs on that side appear large, a reference to the paragraphs relating to them will show how small is their population and beriz.

898/20

4. Mr. Price proposed to group the 536 villages into 50 tarafs only, and, in the accompanying statement, the number of tarafs with the number of villages of which they are composed is shown :—

Present arrangement.	Mr. Price's Scheme.	Proposed Scheme.
1 Taraf of 24 Villages.	1 Taraf of 25 Villages.	3 Tarafs of 11 Villages.
3 do. of 15 do.	1 do. of 18 do.	5 do. of 9 do.
1 do. of 14 do.	2 do. of 16 do.	9 do. of 8 do.
4 do. of 13 do.	4 do. of 15 do.	8 do. of 7 do.
3 do. of 12 do.	4 do. of 14 do.	21 do. of 6 do.
8 do. of 11 do.	3 do. of 13 do.	29 do. of 5 do.
3 do. of 10 do.	4 do. of 12 do.	11 do. of 4 do.
2 do. of 9 do.	5 do. of 11 do.	5 do. of 3 do.
10 do. of 8 do.	4 do. of 10 do.	
5 do. of 7 do.	10 do. of 9 do.	
4 do. of 6 do.	6 do. of 8 do.	
5 do. of 5 do.	1 do. of 7 do.	
8 do. of 4 do.	1 do. of 6 do.	
5 do. of 3 do.	3 do. of 5 do.	
6 do. of 2 do.	1 do. of 2 do.	
6 do. of 1 do.		

You will observe that in the proposed scheme, the majority of tarafs contain only six or five villages, a very average charge for Curnam and Munsif.

5. There are at present 55 Curnams, 147 Karidars and Munsifs, 251 Toties and 6 Udaris paid in ready-money Rupees 11,695-8-7 per annum.

6. In the proposed scheme, there are 91 Curnams, 91 Munsifs, 28 Monigars, 87 Taliaries, 122 Vettiyans, and 13 persons will do the work of Taliari and Vettiyan jointly, the assets of 13 villages being too small to allow of a Taliari and a Vettiyan; each taraf will have its own Curnam and Munsif. The cost of the proposed establishment is Rupees 21,978 per annum.

7. The cess at 1 Anna per rupee of assessment will yield Rupees 11,464-0-10, which, with the equivalent of the ready-money allowances, *viz.*, Rupees 11,695-8-7 now paid by Government, making a total of Rupees 23,159-9-5, will more than suffice to pay the proposed establishment.

8. The highest cess in any taraf is Rupees 238 only, which is an insufficient sum for the pay of a full establishment. I have therefore allotted to each taraf an establishment such as is required and such as can be paid for from the assets. In every case, the whole cess raised will be expended in the taraf in which it is collected, but there will be a sum of Rupees 1,578-10-6, proceeds of resumed service Inams, to be carried to the credit of the General Fund.

9. In ten tarafs, the total assets of the service cess and ready-money allowances are insufficient for the pay of an establishment, and they will require to be supplemented from the General Fund to the amount of Rupees 397-1-1 per annum.

10. I trust early orders may be passed on this scheme, as, if it is sanctioned, I should be able during the Jamabandi of the taluq, which will take place in June next, to make the necessary arrangements for its introduction from the commencement of Fasli 1286.

11. Beginning at the north of the taluq.

No. 1 *in Map.*—Mallapuram with five hamlets, two of which are uninhabited ; area 2,057 acres, population 2,249, beriz Rupees 3,229-2-0. The cess being Rupees 201-13-2 and ready-money allowances Rupees 151-7-4, total Rupees 353-4-6, the following establishment may be maintained :—

	RS.	A.	P.

of which Rupees 52-10-8 must come from the General Fund.

(Signed) F. WILKINSON,
Acting Sub-Collector.

ENCLOSURES Nos. 3 to 6.—Statements.

ENCLOSURES Nos. 7 and 8.—Maps.

WITH the foregoing letters the Collector of Salem submits schemes for the revision of village establishments in the sub-division taluqs of Oossoor, Darampuri, and Kristnagiri. The schemes have been very carefully drawn up by the Sub-Collector on the model of that prepared by Mr. Puckle for the Trichengode Taluq with such modifications as local circumstances required. Mr. Puckle recognized the fact that a scheme suited to the richer taluqs would not be applicable to the more wild and thinly-inhabited tracts, and this fact must be

borne in mind in considering Mr. Wilkinson's proposals. The nature of the country has necessitated more extensive grouping than was requisite in Trichengode, and the insufficiency of the assets has prevented the allotment of separate establishments of munsifs, taliaris, &c., to the villages, as they now stand, which was one of the features of Mr. Puckle's scheme, the establishment of Curnams being calculated with reference to the number of the Vattams specially formed, whilst the village unit was the guide in determining the strength of the establishment as regards the other village officers. It has been found impossible to adhere to this principle in revising the establishments in the sub-division, and the staff has therefore been, in the majority of cases, restricted to one servant of each class for each *group* of villages. The grouping has, however, been very carefully considered, and has not, in the Board's opinion, been carried too far. The statement at paragraph 8 of the Sub-Collector's letter of the 31st March, to the effect that the clubbing of villages had been carried out to a far greater extent in Trichengode than has been attempted in Oossoor, does not appear to be strictly correct as the following figures show. In Trichengode the Settlement Department clubbed 384 villages into 104 Tarafs. Mr. Puckle further reduced the number to 82 groups for Curnams, but the reduction did not affect the distribution of the rest of the establishment. The following statement shows the extent to which clubbing has been carried out in the four taluqs :—

Taluqs.	Number of Villages previous to Grouping.	Number of Groups formed.	Ratio of Columns 2 to 3.
Trichengode	384	82 for Curnams.	4·7 to 1
		102 for the other Servants.	3·7 to 1
Oossoor	502	100	5 to 1
Darampuri	536	91	5·9 to 1
Kristnagiri	316	64	4·9 to 1

Mr. Wilkinson's remark possibly refers to the area of the new villages as grouped in Oossoor and Trichengode respectively. The areas of the old and new villages for the four taluqs are shown below :—

Taluqs.	Total Area in Acres.	As at Present.		As Proposed.	
		Number of Villages.	Average Area in Acres.	Number of Villages.	Average Area in Square Miles.
Trichengode	208,932	384	544	102	2,048
Oossoor	120,029	502	239	100	1,201
Darampuri	147,259	536	274	91	1,618
Kistnagiri	121,858	316	385	64	1,904

Owing to the insufficiency of the service cess, the maximum standard of pay and establishment has been fixed with reference to the proceeds of the service cess and ready money allowances combined, and ten classes of establishment have been framed; the strength for each group being determined with reference to the available funds appertaining to it. In other respects the proposals are based on the model approved by Government.

2. The Oossoor Taluq contains 502 villages, of which thirteen have no population, beriz, or cultivated area, and fifty-six have no population and a beriz of only a few Rupees. These 502 villages are now grouped into seventy-seven Tarafs, and it is proposed to re-arrange them in 100 groups, the existing grouping being very inconvenient; in no case will the new groups comprise more than nine villages, and the majority will contain from three to six villages. The present staff consists of 73 Curnams, 74 Karedars and Munsifs, 66 Uddaries (inferior revenue servants), and 389 Toties who perform both revenue and police duties, their large number being accounted for by the fact that they do duty in turns. The proposed scheme substitutes 100 Curnams, 100 Munsifs, 17 Monegars, 93* Taliaris, and 124 Vettiyans, revenue and police duties being performed by the same individual in fourteen Tarafs, where the available assets do not suffice for the employment of separate servants. The cost of the present establishment is Rupees 12,258 per annum, and the cost of that proposed Rupees 22,692; the available assets are Rupees 24,231, and suffice to cover the increase. The details of the assets have not been given in column 3 of Statement I, but it is stated that the service cess will be expended in the Tarafs in which it is raised, and the surplus is therefore available to meet the deficit occuring in six tarafs.

* 100 Taliaris and 131 Vettiyans according to Statement No. II.

3. The report is accompanied by a sketch map, on which the new groups are clearly shown, and the Sub-Collector gives details of area, population, and beriz with the available assets and establishment recommended for each group in order. The following statement shows the distribution of villages with reference to the several classes of establishment and the average area, beriz, and population :—

Class.	Villages.	Average Area of each Village.	Average Population of each Village.	Average Beriz of each Village.
1	1	1,857	7,054	3,755
2	1	1,641	4,979	3,793
3-A	7	1,475	1,694	2,770
B...	4	1,962	2,093	3,246
4	4	1,184	1,217	2,666
5	19	1,281	1,204	2,162
6	21	1,224	1,083	1,848
7	10	1,043	900	1,643
8	10	1,063	861	1,540
9	9	1,009	925	1,382
10	14	964	851	1,118
Total ...	100	1,201	1,194	1,904

898/31

4. The Darampuri Taluq contains 536 villages, 41 of which are unsurveyed and not shown on the map. They are at present grouped into 74 Tarafs, but in only 5 Tarafs are the villages comprised therein at all contiguous; 84 villages are uninhabited, and 17 have neither population nor beriz. This taluq, therefore, presents considerable difficulties as to grouping. Mr. Price's recommendations, which are stated by him to have been put forward after most careful inquiry and consideration, were rejected on the ground that clubbing had been carried too far. Mr. Wilkinson has managed to restrict the grouping within more moderate limits, and proposes 91 Tarafs in place of Mr. Price's 50. Looking to the average number of villages in each Taraf, it cannot be said that clubbing has been resorted to excessively; in the southern portion of the taluq it is explained that the nature of the country necessitated the formation of somewhat more extensive Tarafs than elsewhere.

G.O., dated 9th March 1875.

5. The present staff consists of 55 Curnams, 147 Karedars and Munsifs, 251 Toties, and 6* Uddaries, in lieu of which it is proposed to substitute a staff consisting of 91 Curnams, 91 Munsifs, 28 Monegars, 87† Taliaris, 122 Vettiyans, and 13 joint Taliaris and Vettiyans for villages too poor to afford separate servants of these classes. The cost of the present establishment amounts to Rupees 11,695, and of that proposed to Rupees 21,978. The available assets being Rupees 23,160, there is a surplus which consists of the proceeds of resumed maniems, and is available to supplement deficiencies elsewhere; ten Tarafs will require assistance from the General Fund.

* 60 according to Statement II.

† 226 Taliaris and Vettiyans according to Statement No. II.

6. The following statement shows the distribution of villages with reference to area, beriz, and population and the class of establishment allotted :—

Class.	Villages.	Average Area of each Village.	Average Population of each Village.	Average Beriz of each Village.
1	...	...	...	...
2	4	2,208	2,183	3,604
3-A	10	1,668	1,713	2,751
B...	5	1,736	3,490	3,119
4	9	1,838	1,248	2,376
5	16	1,795	1,750	2,157
6	11	1,609	1,530	1,849
7	3	1,485	1,333	1,839
8	8	1,812	1,303	1,657
9	12	1,380	1,289	1,474
10	13	1,123	973	972
Total ...	91	1,618	1,559	2,009

7. In the Krishnaghiri Taluq 316 villages have been clubbed into 65 Tarafs, it being found impossible to adhere to existing arrangements more closely owing to the inability of the single villages to maintain an adequate establishment. The analysis at paragraph 6 of the Sub-Collector's letter shows that the majority of the proposed groups will contain less than six villages; there is no reason to think

that clubbing has been carried to too great a length. The present staff consists of 56 Curnams, 117 Karedars, 172 Toties, and 21 Uddaries; its modified strength will be 64 Curnams, a similar number of Munsifs, 26 Monegars, 69 Taliaris and 103 Vettiyans, one village only being without a separate police and revenue subordinate. The assets aggregate Rupees 17,978, and the proposed establishment will cost Rupees 16,830; the present cost is not stated; in two Tarafs aid will be required from general funds.

8. The following statement shows the distribution of villages with reference to area, beriz, and population and the class of establishment allotted :—

Class.	Villages.	Average Area of each Village.	Average Population of each Village.	Average Beriz of each Village.
1	...	...	...	...

9. The rates of pay range between the limits marginally noted. Should the salaries of the lower-paid servants be found inadequate, it may be possible hereafter to supplement them from the General Fund.

10. The Board consider that Mr. Wilkinson is entitled to credit for the careful manner in which he has framed his proposals, and they recommend the adoption of his schemes in their entirety. Early orders are solicited with a view to the revision, if approved, being carried into effect from the commencement of the ensuing fasli.

(True Copies and Extract.)

(Signed) C. A. GALTON,
Acting Secretary.

No. 33. ORDER THEREON, 3rd July 1876, No. 898.

Land Revenue, No. 1.

THE Government observe that the guiding principle of the proposed arrangements has been the sufficiency of assets to an adopted standard—pay and scale of establishments. This, the Government have recently pointed out, is not the correct course to pursue. It is not clear whether the original village constitutions will be left intact or swept away altogether under the scheme proposed, and whether the distance which each villager will have to travel to lay

898/32

a complaint before the Munsif will exceed a mile. The Board's attention is requested to the observations of Government in G.O., dated 29 June 1876, No. 865, and these papers will be again remitted to them for revision so as to bring the scheme into conformity with the principles approved by Government.

scheme into conformity with the princ
approved by Government in G.O., 20th
1876, No. 865.

No. 1,433.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 31st May 1876.

Read the following letters :—

From C. T. LONGLEY, Esq., Collector of Salem, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated Haroor, 7th April 1876, No. 81.

I HAVE the honor to forward the enclosed scheme (with its enclosures) prepared by the Sub-Collector for the revision of Village Establishment of the Oossoor Taluq, and to request that the necessary sanction may be obtained for the same.

ENCLOSURE No. 1.

From F. WILKINSON, Esq., Acting Sub-Collector of Salem, to C. T. LONGLEY, Esq., Collector of Salem, dated Oossoor, 31st March 1876, No. 192.

I HAVE the honor to submit a scheme for the revision of the village establishment of the Oossoor Taluq drawn upon the model of that approved by Government for Trichengode Taluq.

2. The Oossoor Taluq contains 502 villages at present grouped into 77 tarafs. Of these villages, thirteen are villages only in name having no population nor beriz nor cultivated area. Of the rest, fifty-six villages have no population and a beriz of only a few Rupees. In the scheme now submitted, the 502 villages are grouped into 100 tarafs. The present grouping is most inconvenient, many of the tarafs being unwieldy and very extensive, while one taraf consists of one village which has no population and no beriz. Great care has been taken in the grouping which, as the accompanying list shows, is not excessive :—

2	Tarafs	contain	2	villages.
24	„	„	3	„
15	„	„	4	„
26	„	„	5	„
13	„	„	6	„
6	„	„	7	„
10	„	„	8	„
4	„	„	9	„

The present arrangement is as follows :—

2	Tarafs	contain	17	Villages.	6	Tarafs	contain	8	Villages.
3	„	„	16	„	4	„	„	7	„
2	„	„	14	„	8	„	„	6	„
2	„	„	13	„	10	„	„	5	„
1	„	„	12	„	12	„	„	4	„
4	„	„	11	„	9	„	„	3	„
2	„	„	10	„	5	„	„	2	„
3	„	„	9	„	4	„	„	1	„

3. There are at present seventy-three Curnams, seventy-four Karidars and Munsifs, sixty-six Udaris, and 389 Toties, now paid in ready money Rupees 12,258-7-5 per annum.

4. In the proposed scheme there are 100 Curnams, 100 Munsifs, 17 Monigars, 93 Taliaries and 124 Vettiyans. In fourteen tarafs, the same person will have to perform the office of Taliari and Vettiyan, as the available assets do not permit of the entertainment of two individuals.

5. At present, the Toties perform both revenue and magisterial duties, the Udari being merely a Head Toty. With reference to the large number of Toties at present borne on the establishment, I should state that they do not all do work at the same time but by turns, an objectionable system which is universally condemned.

6. The service-cess at 1 Anna per Rupee of assessment will yield Rupees 11,972-2-1, which with the equivalent of the ready-money allowances now paid by Government in lieu of resumed Inams, *viz.*, Rupees 12,258-7-5, will more than suffice to pay the proposed establishment the

cost of which will be Rupees 22,692 per annum, leaving a sum of Rupees 1,610-7-9, the proceeds of resumed Service Inams, to be carried to the credit of the General Fund.

7. In six tarafs, the available assets of cess and ready-money allowances are insufficient to pay the establishment needed, and they have been supplemented from the General Fund to the amount of Rupees 71-4-3 per annum.

8. In no taraf is the service-cess alone sufficient to maintain a decent establishment, as happened to be the case in Trichengode, a richer taluq than Oossoor and one in which the clubbing of villages had been carried out to a far greater extent than has been attempted here. I have therefore allotted to each taraf an establishment such as is required for the work of the taraf, and such as can be paid for from the available assets of cess and ready-money allowances. There are ten classes of establishment as shown in the accompanying list, in accordance with which the establishment has been fixed both in this and the other two taluqs of the Sub-division. It was found preferable to proceed on some system such as this rather than to allot establishments at random according to the available assets alone. The service-cess raised in each taraf will be expended in the taraf in which it is collected.

9. *No.* 1 *in Map.*—Commencing from the north of the taluq :—Morasur with two hamlets ; area 1,229 acres, population 636, has a beriz of Rupees 2,680-9-0. 108. *No.* 100 *not shown in Map.*—Bettamugalalam with five hamlets, two of which have no population, no beriz and no cultivated area, and are unsurveyed; area 1,321 acres, population, 1,761, has a beriz of Rupees 1,052-8-0. The cess is Rupees 65-12-6 and ready-money allowances Rupees 67-0-10, total Rupees 132-13-4 only. The following establishment must be maintained :—

	RS.	A.	P.	
Curnam	5	0	0	per mensam.
Munsif	4	0	0	„
1 Taliari and Vettiyan	3	0	0	„
Total ...	144	0	0	per annum.

of which Rupees 11-2-8 must come from the General Fund.

109. I have numbered the tarafs in the surveyed portion of the taluq in the accompanying map so as to correspond with the tarafs as given in the letter. I am unable to enter in each of the new tarafs of the present establishment because the whole taluq has been rearranged as stated above, and no entry that could be made would be accurate. I have however, in paragraphs 3 and 4, contrasted the present and proposed establishment which will I trust suffice.

(Signed) F. WILKINSON,
Acting Sub-Collector.

31st March 1876.

ENCLOSURES Nos. 3 and 4.—Statements.

ENCLOSURE No. 5.—Map.

From C. T. LONGLEY, Esq., Collector of Salem, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated 21st April 1876, No. 90 :—

IN continuation of my letter No. 81, dated the 7th instant, I have the honor to forward the schemes for the revision of the Village Establishments for the taluqs of Darampuri and Krishnagheri submitted by the Sub-Collector. They are based on the same principle as that adopted for the Ossoor Taluq.

ENCLOSURE No. 1.

From F. WILKINSON, Esq., Acting Sub-Collector of Salem, to C. T. LONGLEY, Esq., Collector of Salem, dated 9th March 1876, No. 139.

I have the honor to forward a scheme for the revision of the village establishment of Krishnagheri Taluq drawn up on the model of that prepared by Mr. Puckle for Trichengode.

2. The reclubbing of villages, which in Trichengode Mr. Puckle found done for him by the Settlement Department (who clubbed 384 villages into 104 tarafs), I have had to carry out here, and it has been done with the greatest care.

3. There are 316 villages in the Krishnagheri Taluq at present clubbed into sixty-five tarafs. In the revised scheme now submitted there are sixty-four tarafs.

4. It was found impossible to adhere to the present arrangement. Out of the sixty-five tarafs, eleven tarafs consist of a single village, which is too small to maintain an establishment. For example, the beriz of Krishnagheri, at present a taraf by itself, is Rupees 85; the beriz of Anigodi Rupees 491; of Transfer Gollahalli Rupees 204, and so on. These tarafs have no establishment at present, but are supposed to be looked after by a Curnam who has ample duties in his own taraf.

5. Moreover, the present clubbing of villages is most inconvenient. To give only one example—Naralapalli, which belongs to the Mekalachinnampalli Taraf, is separated from that taraf by all the villages of the Maharajagaddi Taraf. Such inconsistencies have now been rectified

6. The clubbing has been carried out on the principle that each taraf should have, where possible, an independent and sufficient establishment, paid entirely from the assets of the service-cess, and the equivalent of the ready-money allowances. That the clubbing is not excessive is shown by the fact that the proposed number of tarafs is only one less that at present, and by the following analysis of the number of villages in the respective tarafs :—

1	Taraf	contains	8	Villages, two of which are uninhabited, and the rest small, and close together.
3	Tarafs	„	7	„ Some of these are uninhabited.
17	„	„	6	„
24	„	„	5	„
11	„	„	4	„
5	„	„	3	„
3	„	„	2	„

Total 64 Tarafs.

7. The accompanying map exhibits each taraf with the villages of which it will be composed. In only four cases is any village more than two miles from the other village. In these four cases this was unavoidable, as the villages are at a distance rom other Government villages, and are too small to afford an establishment.

The map is on a very large scale.

8. The service-cess at 1 Anna per Rupee of assessment will yield Rupees 8,732-4-5. The ready-money allowances now paid by Government amount to Rupees 9,246-2-2. The cost of the proposed establishment is Rupees 16,830. There will thus be an annual saving of Rupees 1,148-6-7 to be carried to the credit of the General Fund.

9. The present number of Curnams is 56, of Karidars 117, of Toties 172, and of Udaris 21.* Under the proposed arrangement there will be 64 Curnams, 64 Munsifs, 26 Monigars, 69 Taliaries and 103 Vettiyans. In one village the same man will have to do the work of Taliari and Vettiyan

* There is no distinction between Toties and Udaris. The Udari is a Head Toty and the Toties do both Revenue and Police work.

10. I have apportioned the pay of establishment in each village with reference to its aggregate assets, including service-cess and ready-money allowances, so that each village may, where possible, be self-supporting. The entire cess raised in each village will in every case be spent on establishment, and there is no balance of service-cess to the credit of any village. There is, however, an unappropriated balance of resumed ready-money allowances, amounting to Rupees 1,148-6-7, to be carried to the credit of the General Fund. In the two tarafs where the cess and ready-money allowances combined are insufficient to pay an establishment, the assets have been supplemented from the General Fund to the extent of Rupees 173-9-7.

11. The highest amount of cess in any taraf is only Rupees 249, which is insufficient for the pay of an adequate establishment.

12. *No.* 1 *in Map.*—Beginning from the north of the taluq':—Maharajagaddi with five hamlets; area 1,730 acres, population 1,688, beriz Rupees 1,684-8-0. The cess being Rupees 105-4-0 and ready-money allowances Rupees 127-9-6, total Rupees 232-13-6, the following establishment may be maintained :—

of which Rupees 109-6-7 will have to be paid from the General Fund.

ENCLOSURE No. 2.

From F. WILKINSON, Esq., Acting Sub-Collector of Salem, to C. T. LONGLEY, Esq., Collector of Salem, dated 9th March 1876, No. 140.

I HAVE the honor to forward a scheme for the revision of the village establishment of the Darampury Taluq on the model of that drawn up by Mr. Puckle for the Trichengode Taluq.

2. The Darampury Taluq contains 536 villages, at present grouped in 75 tarafs. The present grouping is most inconvenient and objectionable. In one taraf there are 24 villages and in 6 tarafs only one village, in not one of which are the assets of cess and ready-money allowances sufficient to maintain a separate establishment. In only 5 of the present tarafs are the villages composing the taraf at all contiguous, in all other cases the villages are scattered about and separated by villages of other tarafs from the cusbah of the taraf and from each other. The village officers have in many cases to travel 12 and 15 miles in order to visit all the villages in their taraf.

3. In the scheme now submitted, the 536 villages are grouped into 91 tarafs, which, as will be seen from the accompanying map, are as compact as possible, the central village having been, wherever its population and beriz permitted, taken as the cusbah. The greatest care has been taken in grouping the villages, which, from the poverty, &c., of many of them, is no easy task. There are 84 villages in the taluq uninhabited and 17 villages which have no population and no beriz. Of the 536 villages, 41 have not been surveyed. The southern portion of the taluq is jungly, and, if the tarafs on that side appear large, a reference to the paragraphs relating to them will show how small is their population and beriz.

4. Mr. Price proposed to group the 536 villages into 50 tarafs only, and, in the accompanying statement, the number of tarafs with the number of villages of which they are composed is shown :—

Present arrangement.	Mr. Price's Scheme.	Proposed Scheme.
1 Taraf of 24 Villages.	1 Taraf of 25 Villages.	3 Tarafs of 11 Villages.
3 do. of 15 do.	1 do. of 18 do.	5 do. of 9 do.
1 do. of 14 do.	2 do. of 16 do.	9 do. of 8 do.
4 do. of 13 do.	4 do. of 15 do.	8 do. of 7 do.
3 do. of 12 do.	4 do. of 14 do.	21 do. of 6 do.
8 do. of 11 do.	3 do. of 13 do.	29 do. of 5 do.
3 do. of 10 do.	4 do. of 12 do.	11 do. of 4 do.
2 do. of 9 do.	5 do. of 11 do.	5 do. of 3 do.
10 do. of 8 do.	4 do. of 10 do.	
5 do. of 7 do.	10 do. of 9 do.	
4 do. of 6 do.	6 do. of 8 do.	
5 do. of 5 do.	1 do. of 7 do.	
8 do. of 4 do.	1 do. of 6 do.	
5 do. of 3 do.	3 do. of 5 do.	
6 do. of 2 do.	1 do. of 2 do.	
6 do. of 1 do.		

You will observe that in the proposed scheme, the majority of tarafs contain only six or five villages, a very average charge for Curnam and Munsif.

5. There are at present 55 Curnams, 147 Karidars and Munsifs, 251 Toties and 6 Udaris paid in ready-money Rupees 11,695-8-7 per annum.

6. In the proposed scheme, there are 91 Curnams, 91 Munsifs, 28 Monigars, 87 Taliaries, 122 Vettiyans, and 13 persons will do the work of Taliari and Vettiyan jointly, the assets of 13 villages being too small to allow of a Taliari and a Vettiyan; each taraf will have its own Curnam and Munsif. The cost of the proposed establishment is Rupees 21,978 per annum.

7. The cess at 1 Anna per rupee of assessment will yield Rupees 11,464-0-10, which, with the equivalent of the ready-money allowances, *viz.*, Rupees 11,695-8-7 now paid by Government, making a total of Rupees 23,159-9-5, will more than suffice to pay the proposed establishment.

8. The highest cess in any taraf is Rupees 238 only, which is an insufficient sum for the pay of a full establishment. I have therefore allotted to each taraf an establishment such as is required and such as can be paid for from the assets. In every case, the whole cess raised will be expended in the taraf in which it is collected, but there will be a sum of Rupees 1,578-10-6, proceeds of resumed service Inams, to be carried to the credit of the General Fund.

9. In ten tarafs, the total assets of the service cess and ready-money allowances are insufficient for the pay of an establishment, and they will require to be supplemented from the General Fund to the amount of Rupees 397-1-1 per annum.

10. I trust early orders may be passed on this scheme, as, if it is sanctioned, I should be able during the Jamabandi of the taluq, which will take place in June next, to make the necessary arrangements for its introduction from the commencement of Fasli 1286.

11. Beginning at the north of the taluq.

No. 1 in Map.—Mallapuram with five hamlets, two of which are uninhabited; area 2,057 acres, population 2,249, beriz Rupees 3,229-2-0. The cess being Rupees 201-13-2 and ready-money allowances Rupees 151-7-4, total Rupees 353-4-6, the following establishment may be maintained :—

of which Rupees 52-10-8 must come from the General Fund.

(Signed) F. WILKINSON,
Acting Sub-Collector.

ENCLOSURES Nos. 3 to 6.—Statements.

ENCLOSURES Nos. 7 and 8.—Maps.

WITH the foregoing letters the Collector of Salem submits schemes for the revision of village establishments in the sub-division taluqs of Oossoor, Darampuri, and Kristnagiri. The schemes have been very carefully drawn up by the Sub-Collector on the model of that prepared by Mr. Puckle for the Trichengode Taluq with such modifications as local circumstances required. Mr. Puckle recognized the fact that a scheme suited to the richer taluqs would not be applicable to the more wild and thinly-inhabited tracts, and this fact must be borne in mind in considering Mr. Wilkinson's proposals. The nature of the country has necessitated more extensive grouping than was requisite in Trichengode, and the insufficiency of the assets has prevented the allotment of separate establishments of munsifs, taliaris, &c., to the villages, as they now stand, which was one of the features of Mr. Puckle's scheme, the establishment of Curnams being calculated with reference to the number of the Vattams specially formed, whilst the village unit was the guide in determining the strength of the establishment as regards the other village officers. It has been found impossible to adhere to this principle in revising the establishments in the sub-division, and the staff has therefore been, in the majority of cases, restricted to one servant of each class for each *group* of villages. The grouping has, however, been very carefully considered, and has not, in the Board's opinion, been carried too far. The statement at paragraph 8 of the Sub-Collector's letter of the 31st March, to the effect that the clubbing of villages had been carried out to a far greater extent in Trichengode than has been attempted in Oossoor, does not appear to be strictly correct as the following figures show. In Trichengode the Settlement Department clubbed 384 villages into 104 Tarafs. Mr. Puckle further reduced the number to 82 groups for Curnams, but the reduction did not affect the distribution of the rest of the establishment. The following statement shows the extent to which clubbing has been carried out in the four taluqs :—

Taluqs.	Number of Villages previous to Grouping.	Number of Groups formed.	Ratio of Columns 2 to 3.
Trichengode	384	82 for Curnams.	4·7 to 1
		102 for the other Servants.	3·7 to 1
Oossoor	502	100	5 to 1
Darampuri	536	91	5·9 to 1
Kristnagiri	316	64	4·9 to 1

Mr. Wilkinson's remark possibly refers to the area of the new villages as grouped in Oossoor and Trichengode respectively. The areas of the old and new villages for the four taluqs are shown below :—

Taluqs.	Total Area in Acres.	As at Present.		As Proposed.	
		Number of Villages.	Average Area in Acres.	Number of Villages.	Average Area in Square Miles.
Trichengode	208,932	384	544	102	2,048
Oossoor	120,029	502	239	100	1,201
Darampuri	147,259	536	274	91	1,618
Kistnagiri	121,858	316	385	64	1,904

Owing to the insufficiency of the service cess, the maximum standard of pay and establishment has been fixed with reference to the proceeds of the service cess and ready-money allowances combined, and ten classes of establishment have been framed; the strength for each group being determined with reference to the available funds appertaining to it. In other respects the proposals are based on the model approved by Government.

2. The Oossoor Taluq contains 502 villages, of which thirteen have no population, beriz, or cultivated area, and fifty-six have no population and a beriz of only a few Rupees. These 502 villages are now grouped into seventy-seven Tarafs, and it is proposed to re-arrange them in 100 groups, the existing grouping being very inconvenient; in no case will the new groups comprise more than nine villages, and the majority will contain from three to six villages. The present staff consists of 73 Curnams, 74 Karedars and Munsifs, 66 Uddaries (inferior revenue servants), and 389 Toties who perform both revenue and police duties, their large number being accounted for by the fact that they do duty in turns. The proposed scheme substitutes 100 Curnams, 100 Munsifs, 17 Monegars, 93* Taliaris, and 124 Vettiyans, revenue and police duties being performed by the same individual in fourteen Tarafs, where the available assets do not suffice for the employment of separate servants. The cost of the present establishment is Rupees 12,258 per annum, and the cost of that proposed Rupees 22,692; the available assets are Rupees 24,231, and suffice to cover the increase. The details of the assets have not been given in column 3 of Statement I, but it is stated that the service cess will be expended in the Tarafs in which it is raised, and the surplus is therefore available to meet the deficit occuring in six tarafs.

* 100 Taliaris and 131 Vettiyans according to Statement No. II.

3. The report is accompanied by a sketch map, on which the new groups are clearly shown, and the Sub-Collector gives details of area, population, and beriz with the available assets and establishment recommended for each group in order. The following statement shows the distribution of villages with reference to the several classes of establishment and the average area, beriz, and population :—

Class.	Villages.	Average Area of each Village.	Average Population of each Village.	Average Beriz of each Village.
1	1	1,857	7,054	3,755
2	1	1,641	4,979	3,793
3-A	7	1,475	1,694	2,770
B	4	1,962	2,093	3,246
4	4	1,184	1,217	2,666
5	19	1,281	1,204	2,162
6	21	1,224	1,083	1,848
7	10	1,043	900	1,643
8	10	1,063	861	1,540
9	9	1,009	925	1,382
10	14	964	851	1,118
Total ...	100	1,201	1,194	1,904

4. The Darampuri Taluq contains 536 villages, 41 of which are unsurveyed and not shown on the map. They are at present grouped into 74 Tarafs, but in only 5 Tarafs are the villages comprised therein at all contiguous; 84 villages are uninhabited, and 17 have neither population nor beriz. This taluq, therefore, presents considerable difficulties as to grouping. Mr. Price's recommendations, which are stated by him to have been put forward after most careful inquiry and consideration, were rejected on the ground that clubbing had been carried too far. Mr. Wilkinson has managed to restrict the grouping within more moderate limits, and proposes 91 Tarafs in place of Mr. Price's 50. Looking to the average number of villages in each Taraf, it cannot be said that clubbing has been resorted to excessively; in the southern portion of the taluq it is explained that the nature of the country necessitated the formation of somewhat more extensive Tarafs than elsewhere.

G.O., dated 9th March 1875.

5. The present staff consists of 55 Curnams, 147 Karedars and Munsifs, 251 Toties, and 6* Uddaries, in lieu of which it is proposed to substitute a staff consisting of 91 Curnams, 91 Munsifs, 28 Monegars, 87† Taliaris, 122 Vettiyans, and 13 joint Taliaris and Vettiyans for villages too poor to afford separate servants of these classes. The cost of the present establishment amounts to Rupees 11,695, and of that proposed to Rupees 21,978. The available assets being Rupees 23,160, there is a surplus which consists of the proceeds of resumed maniems, and is available to supplement deficiencies elsewhere; ten Tarafs will require assistance from the General Fund.

* 60 according to Statement II.

† 226 Taliaris and Vettiyans according to Statement No. II.

6. The following statement shows the distribution of villages with reference to area, beriz, and population and the class of establishment allotted :—

Class.	Villages.	Average Area of each Village.	Average Population of each Village.	Average Beriz of each Village.
1	...	...	...	...
2	4	2,208	2,183	3,604
3-A	10	1,668	1,713	2,751
B	5	1,736	3,490	3,119
4	9	1,838	1,248	2,376
5	16	1,795	1,750	2,157
6	11	1,609	1,530	1,849
7	3	1,485	1,333	1,839
8	8	1,812	1,303	1,657
9	12	1,380	1,289	1,474
10	13	1,123	973	972
Total ...	91	1,618	1,559	2,009

7. In the Krishnaghiri Taluq 316 villages have been clubbed into 65 Tarafs, it being found impossible to adhere to existing arrangements more closely owing to the inability of the single villages to maintain an adequate establishment. The analysis at paragraph 6 of the Sub-Collector's letter shows that the majority of

the proposed groups will contain less than six villages; there is no reason to think that clubbing has been carried to too great a length. The present staff consists of 56 Curnams, 117 Karedars, 172 Toties, and 21 Uddaries; its modified strength will be 64 Curnams, a similar number of Munsifs, 26 Monegars, 69 Taliaris, and 103 Vettiyans, one village only being without a separate police and revenue subordinate. The assets aggregate Rupees 17,978, and the proposed establishment will cost Rupees 16,830; the present cost is not stated; in two Tarafs aid will be required from general funds.

8. The following statement shows the distribution of villages with reference to area, beriz, and population and the class of establishment allotted :—

Class.	Villages.	Average Area of each Village.	Average Population of each Village.	Average Beriz of each Village.
1	...	...	...	...
2	3	1,855	3,133	3,317
3-A	9	2,269	2,056	2,650
B...	3	2,817	1,954	2,965
4	11	1,994	2,279	2,501
5	11	1,929	1,482	2,279
6	13	1,799	1,338	1,813
7	3	1,757	1,401	1,753
8	7	1,607	1,213	1,649
9	3	1,043	678	950
10	1	1,236	826	1,229
Total ...	64	1,904	1,689	2,183

Curnams	between Rs. 10	and Rs. 5	
Munsifs	,, ,,	7 and ,,	4
Monegars	,, ,,	5 and ,,	4
Taliaris	,, ,,	3 and ,,	2½
Vettiyans	,, ,,	3 and ,,	2½

9. The rates of pay range between the limits marginally noted. Should the salaries of the lower-paid servants be found inadequate, it may be possible hereafter to supplement them from the General Fund.

10. The Board consider that Mr. Wilkinson is entitled to credit for the careful manner in which he has framed his proposals, and they recommend the adoption of his schemes in their entirety. Early orders are solicited with a view to the revision, if approved, being carried into effect from the commencement of the ensuing fasli.

(True Copies and Extract.)

Acting Secretary.

To the Secretary to Government, Revenue Department,
with six statements and three maps to be returned.

,, the Collector of Salem.

PROCEEDINGS, 31ST MAY 1876, No. 1,433.

Dep^d 7 June/76

Encl. 9

Received 10 June 76

MAY.

No. 1,433.

Village Establishment — in Sub-division Taluqs of Salem District.—Recommending adoption, in their entirety, of schemes proposed by Sub-Collector for revision of —, and requesting early orders on the subject.

With Order

No. 898 8 July 1876

No. 1

No 898

The Govt observe that the finding
principle of the proposed arrangements
has been the sufficiency of assets to an
adopted standard - pay and establish-
ments - This, the Govt have recently
pointed out, is not the correct course
to pursue - It is not clear whether
the original village constitutions will
be left intact, or swept away altogether
under the scheme proposed, and what
the distance which such villages will
have to travel to lay a complaint before
the Amanat will exceed a mile
The Board's attention is requested
to the observations of Govt in G.O. dated 29th
June 1876 Nr. 865, and these papers will
be again remitted to them for
revision so as to bring the scheme
into conformity with the principles
approved by Govt
in Govt Order No. 898 of 17th Aug

8 July 1876
