Irrigation.
Account.

Read the following papers :—

No. 8. From Captain A. AWDRY, R.E., Acting District Engineer, Coimbatore, to the Chief Engineer for Irrigation, dated Pollachy, 8th May 1878, No. 30 CI.

I HAVE the honor to forward for sanction a line of levels and estimate (Rupees 410) for clearing the head of the Pullapolliem Channel in Caroor Taluq.

2. The expenditure in the last five years having exceeded the average revenue, the work, though extremely desirable, is beyond my power of sanction.

No. 150 I.

Note by the Chief Engineer for Irrigation.

No. 8-A. THE Acting District Engineer, Coimbatore, forwards, with his letter marginally No. 30 CI, dated 8th May 1878. ted, an estimate in connection with the Pullapolliem Channel situated in the Caroor Taluq, Caroor Range.

2. The nature of the work proposed for execution and the heads of account to which it is chargeable are as follow :—

ORDINARY AGRICULTURAL.

IRRIGATION.

Ambravati River, Irrigation.

Repairs.

	Rs.
Clearing silt of channel in first eight miles	410
Total ...	410

3. The following particulars of this channel are recorded—

Ayacut area	3,541 Acres.
Assessment	19,385 Rupees.
Average revenue	17,817 „
Highest do.	19,385 „
Expenditure during the previous four years	16,729 „

4. The Pullapolliem Channel is consi ly silted up at the head bunds and at the point of junction with the jungle st stated to be extremely desirable to have the channel cleared, and that by t imo when cultivation commences.

5. The estimate provides for these s.

6. The amount of the estimate being and the importance of the work being carried out at once considerable, the abs proper information as to the work done on the large sanctions of former y be overlooked; but the District Engineer should take care that in future nal expenditure whether on this or other irrigation works is fully and clearl d and the results stated.

7. There is a longitudinal section four furlongs of the channel, but this does not suffice, and there are no cr

8. For all channels there should be permanent bench marks, and longitudinal and cross sections should be taken for clearances and a record maintained so that the cause of any great expenditure, which may be found to be necessary to keep particular places in working order, may be ascertained and removed.

9. The Pullapolliem Channel belongs to the Ambravati river group, and this should have been indicated on the

10. The following statement . . . proposed distribution of the outlay recommended for sanction :—
