MADRAS REVENUE.

ADMINISTRATION REPORT FOR 1877-78.

CHAPTER II.—ADMINISTRATION OF LAND.

Inam Commission.

The following statement shows the particulars of Inam work done during the year :—

ticulars.	Number of Title-deeds issued.	Total Extent.	Assessment.	Old Quit-rent. Payable to Government.	Old Quit-rent. Payable to Zemindar.	New Quit-rent on Inams enfranchised payable to Government.	Quit-rent not agreed to by Inamdars whose Inams have consequently been left unenfranchised.	Total Quit-rent payable to Government (Columns 5 and 7).	Quit-rent redeemed.	Cost of the Establishment.
1	2	3	4	5	6	7	8	9	10	11
		ACRES.	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.

Total ..	523	12,382	41,694	608	...	2,684	...	3,292	...	3,656

The number of title-deeds issued during the year was only 523 against 2,457 in the previous year, the quit-rent charged shows an increase of Rupees 2,282. This is owing to the enfranchisement of a larger number of Personal and Service Inams than in the previous year in which a large number of Religious Inams were confirmed free of quit-rent.

	Rs.
... ...	402
... ...	2,684
Difference ...	2,282

ncession granted in G.O., dated 10th September 1875, No. 1,344, to Inamdars who d to apply for the enfranchisement of their Inams, permitting them to do so before 76, having been availed of only by a small number of Inamdars, owing probably rse nature of the season, the Government in their Order of 3rd September 1877, extended the period allowed to the end of 1878.

The particulars of Inam work done from the commencement of operations together with the cost of the Commission are given in the subjoined table :—

	Total Number of Inams.	Area.	Assessment.	Old Jodi.	Quit-rent newly charged.	Cost of Commission.

Of the total amount of quit-rent newly levied, a sum of Rupees 3,46,606 represents the quit-rent charged on Village Service Inams.

Land Improvement Act.

The rules framed to regulate the grant of advances under the Land Improvement Act were revised during the year with the object of simplifying the procedure and extending the powers of the local authorities and a draft embodying the alterations proposed with subsidiary instructions to district officers was submitted to Government and transmitted by them for the approval of the Government of India. The advances made under the Act during the year amounted to Rupees 15,23,887 against Rupees 48,973 in the previous year. The provisions of the Act and the terms on which Government were prepared to make such advances were made known to the people as widely as possible, but the large increase in the sum advanced is due to the additional facilities granted during the latter part of the previous year, when the minimum limit of Rupees 100 prescribed by the rules was reduced to Rupees 50 and the Tahsildars in the famine districts were empowered to make advances up to Rupees 300 on their own authority.

G.O., dated 3rd November 1877, No. 3,194.
" " 26th March 1878, No. 422.

G.O., dated 18th November 1876, No. 1,723-A.
" " 12th February 1877, No. 640.

Of the total sum thus advanced, Rupees 13,67,520 were debited to the famine account and the remainder to the ordinary head. The following statement shows the particulars for each district :—

Districts.	Advances debited to ordinary head.	Advances debited to famine account.

2776/2

These advances were mainly applied for with a view to sinking wells. The Collector of Chingleput remarks that a considerable portion of the advances were probably not properly applied, as owing to the hard times the ryots were in several cases induced to utilize the money for their daily wants. In other districts, however, there is no reason to suppose that the advances were diverted to any extent from the objects for which they were granted.

Malabar	23	33,833	820	1,67,439
Total ...	222½	4,07,184	14,090	13,73,766

Thirteen new toll-gates and seven new dispensaries were opened during the year under report. The dispensary at Gudalur, which was attached to the Calicut Circle, was transferred to the Nilgiri Circle in consequence of the annexation of the South-East Wynad to the latter Circle. There were seventy-seven schools newly opened, all on the combined salary and results grant system.

Destruction of Wild Animals.

The following table shows the number of wild animals killed during the year under report as compared with the preceding year:—

Animals.	1876-77.	1877-78.	Animals.	1876-77.	1877-78.
Elephants	...	...	Bears...	126	163
Tigers	205	163	Wolves	21	15
Cheetahs	861	735	Hyænas	157	115

The total amount of rewards granted for the destruction of wild animals was Rupees 20,309, or Rupees 4,593 less than in the previous year. The loss of human life caused by wild animals is reported to be 137, or 82 less than in the previous year, and the loss of crops is estimated to be Rupees 10,374 against Rupees 6,788 in 1876-77.

CHAPTER IV.

Government Farms and Forests.

No report has yet been received from the Superintendent of Government Farms, and that from the Conservator of Forests has just been received. They will be separately reviewed and submitted.

Trade.

Vide the separate report submitted and also the accompanying statements Nos. I to VII.

CHAPTER IV.

PRODUCTION AND DISTRIBUTION.

Weather and Crops.

Though the season was not marked by such an utter failure of rain throughout the greater part of the Presidency as characterized the preceding year, it was on the whole unfavorable for agricultural operations. The aggregate rainfall in most districts was no doubt very copious and even considerably in excess of the normal quantity, but its unequal and unseasonable distribution rendered it almost useless in many cases and in some even positively injurious to successful cultivation. During some months of the year when rain was much wanted (*e.g*, July, August and September) very little fell; in some of the other months the rainfall was so heavy as to swamp all cultivation and inundate considerable tracts of country. The three northernmost districts—Ganjam, Vizagapatam and Godavari—which escaped the general drought of the preceding year, experienced a failure of the north-east monsoon. In Kistna the rains were copious at the commencement of the season, but later on became irregular and deficient. Nellore and Kurnool had sufficient rain at the commencement of the south-west monsoon, but subsequently little or none till the north-east monsoon, which was fortunately copious and worked a considerable improvement. In the Ceded Districts the seasons were on the whole good, except that in Bellary excessive rain under the north-east monsoon did some damage. In Madras and parts of the Chingleput District adjoining, there was an extraordinary fall of rain of nearly 21 inches due to cyclonic action in the month of May in the course of two days, but the regular monsoon rains in these and the North Arcot Districts were untimely and partial. In South Arcot, Madura, Tinnevelly, Coimbatore, Salem and the Nilgiri, the south-west monsoon was very unfavorable and the north-east rains did much damage by their excess, especially in the first three districts. In South Arcot several tanks breached, as also the embankment of the Coleroon, causing much loss of crops, cattle and houses in many villages by inundation; freshes in the Vellar washed away the Pellandorai anicut and the Pennar floods carried off portions of two trunk roads. In Madura the damage to irrigation works and communications was quite as great, especially in the Ramnad Zemindari. In Tinnevelly likewise the heavy rain caused two unparalleled floods in the Tamrapurni, which inundated and laid waste considerable tracts of country, especially in the Tenkarai and Nanguneri Taluqs. In Tanjore and Trichinopoly the rains were partial during July and August, but copious during the north-east monsoon, and there was some destruction of crops by reason of excess in the former district. Of the West Coast Districts, South Canara on the whole enjoyed a good season; in Malabar, though the total fall was above the average, it was very unseasonable.

The rainfall in each district under the two monsoons as compared with that of 1876-77, a disastrous year, and with the average of the ten years previous to 1876-77 is exhibited in the following table :—

Districts.	South-West Monsoon.			North-East Monsoon.			Total.		
	Average of ten years previous to 1876-77.	1876-77.	1877-78	Average of ten years previous to 1876-77.	1876-77.	1877-78.	Average of ten years previous to 1876-77.	1876-77.	1877-78.

Cultivation.—Exclusive of South Canara and Malabar, for which information regarding the areas under occupation is not available, the total extent of ryotwari lands cultivated during the year under review was 14,634,697 acres. This, though more than the area cultivated in 1876-77, is less than the average cultivation of the three years endng 1875-76 by more than two millions of acres. The area cultivated in each district in 1877-78, as compared with the cultivation of 1876-77 and with the average cultivation of three years ending 1875-76, is given in the accompanying Statement A, and the percentage of increase or decrease is shown below :—

Districts.	Increase or Decrease as compared with		Districts.	Increase or Decrease as compared with	
	1876-77.	Average of three years ending 1875-76.		1876-77.	Average of three years ending 1875-76.

Vizagapatam	— 2·28	— 10·86	Ganjam	+ 6·72	+ 3·50
North Arcot	+ 4·77	— 9·40	Tinnevelly	+ 15·76	+ 6·74
				+ 10·96	— 12·82

Of the decrease of two millions of acres in the area cultivated, half belongs to the districts of Bellary and Kurnool and the bulk of the remainder to Salem, Cuddapah, Coimbatore, Madura and Chingleput. This falling off is due partly to the scanty rainfall during the

early months, but also in a great measure to the terrible mortality and the poor condition to which many of the small ryots were reduced by the loss of their cattle and effects of famine generally. The decrease would have been much greater but for the assistance rendered by Government and more especially by the distribution of the Mansion House Fund for the purchase of seed and cattle. The advances made by Government for seed grain are shown in the margin.

Crops.—The outturn of the crops was generally deficient owing to unpropitious character of the season and to the ravages of locusts and other insects. The following is the account given by the several Collectors of the state of the crops in their districts. The yield on the whole may be said to have been what is termed an eight-anna crop, *i.e.*, two-thirds of an average crop :—

Ganjam.—The south-west monsoon was favorable to the dry crops, but the entire failure of the north-east monsoon caused considerable damage to wet crops. Crops were entirely lost in many villages, but their outturn was not less than two-thirds of an average crop.

Vizagapatam.—The drought in August ruined the ragi crop, and the total failure of the north-east monsoon cost the farmers one-third of their rice crop. The great majority of the irrigated lands yielded a poor return, though a week's rain about the beginning of November would have given a plentiful crop. The average outturn of paddy may be estimated at five-eighths, ragi five-sixteenths or less, cholum up to seven-eighths, gingelly first crop fifteen-sixteenths and second crop half, sugar-cane three-fourths, and green gram, uda, ulundu, castor-oil seeds and tobacco one half.

Godavari.—The condition of the crops was bad on the whole. The wet crops under some of the tanks in the upland taluqs proved a failure; the second crops also failed. The outturn of cotton, tobacco and castor-oil plants was above the average Gingelly suffered from blight, and its yield was poor. The outturn of ragi, cumboo, korra and chama, &c., ranged from one-eighth to three-fourths, and the yield of the crops in the delta taluks was in most cases below the average.

Kistna.—The Poonasa or early crops suffered to some extent owing to deficiency of rain from June to August. In some localities variga, pulses and castor were damaged by locusts and other insects, and cholum suffered from blight. In the upland taluqs wet paddy gave more than an average outturn, but in the delta, where the crop suffered from blight, its yield was below the average. For the whole district the average outturn of dry crops was half and that of wet crops eleven-sixteenths.

Nellore.—The wet crops yielded fairly throughout the district, the outturn being about five-eighths. The dry crops were less successful. In the inland taluqs the deficiency was supplemented to a great extent by the good yield of what are called garden crops, which are mostly irrigated under wells. Damage was caused by locusts and other insects, but it was not general.

Cuddapah.—The rains were late, and thus the crops did not obtain the full benefit of them. The crops were also injured by insects. The yield of paddy under the Irrigation Canal was good, and the outturn of crops generally may be said to have been about half.

Bellary.—Cholum and cumbu were greatly injured by the heavy rain which fell in the last quarter of 1877, and in some cases the crops were entirely destroyed. In the Bellary Taluk the outturn of the korra crop was very good. It was believed that both cotton and white cholum would yield a good return, but the want of dew at night and blight caused serious injury to the crops. The locusts also caused considerable damage to the grain crops. In the western taluks of Hospet, Hadgally, Harpanahalli and Kudligi the cholum crop which promised well in the early part of September was very much injured by the subsequent excessive rains. In Kudligi the outturn is estimated at one-eighth, in Harpanahalil one-fourth, and in Hadgalli and Hospet three-eighths.

Kurnool.—Owing to the scantiness of the rain in July and August, the yellow cholum, cumbu and early korra crops generally withered before the beginning of September. The showers which then fell however revived the cholum and cumbu crops in some taluks, and a particularly good harvest of the latter was obtained in Markapur. In the remaining taluks the yield was only from three-sixteenths to three-eighths, owing to the ravages of grass-hoppers and other insects. The white cholum crop which is dependent on the north-east monsoon was plentiful in the taluqs of Koilkuntla, Sirvail, eastern half of Nandial and the western half of Nandikotkur. Elsewhere it was a failure, the outturn averaging only about three-sixteenths owing to the damage caused by grass-hoppers. The yield of paddy, cholum, korra and ragi from the lands under the Irrigation Company's Canal however was very fair.

Chingleput.—The outturn of both wet and dry crops does not appear to have been much below the average, and the yield under some of the large tanks was exceedingly good.

North Arcot.—The outturn on dry lands varied between half and five-eighths of the average yield. The wet crops in almost every part of the district were attacked by insects and suffered seriously from blight while in an immature state. Eventually however they recovered to some extent, and the outturn may be set down as five-eighths.

South Arcot.—There was an abundance of rain in the month of May; consequently there was an extensive sowing of cumbu, but the rainfall of the succeeding months was too scanty to bring the crop to maturity except in favored tracts assisted by well irrigation. The crop failed entirely in the taluks of Trinomalai, Villupuram, Tirukoilur and Kallakurchi, while elsewhere the yield varied from one-fourth to half. The ragi crop however did not fail totally in any part of the district. Its average yield was one-fourth to half. Of the later dry crop, cholum was totally destroyed in parts of Trinomalai, Villupuram, Tirukoilur, Kallakurchi and Virudachalam Taluks by excessive rain and also by insects. The varagu crop gave a fair yield more than half the ordinary outturn. The wet cultivation fared much better than in the preceding year.

Tanjore.—The north-east monsoon brought such heavy rain in November and December, that much of the standing crops was either submerged or washed away by floods in the northern and south-eastern parts of the district. The standing crops in Pattukotai and parts of Tanjore and Mannargudi also suffered from excess of water besides being injured by blight. The outturn on the whole was below the average.

Trichinopoly.—The loss of crops, both wet and dry, was considerable owing to want of rain in June, July and August. The crops raised after the heavy rains which fell from the end of August till December presented a most luxuriant appearance for a time, but excess of rain in some parts and locusts and other insects in others, especially in the Perambalur Taluk, caused considerable damage. The average yield of wet crops was five-eighths and that of dry crops three-eighths.

Madura.—The crops were all seriously injured by blight and rot. Great damage was also caused by locusts which ravaged the fields and injured the plants. The yield was therefore very unsatisfactory, and in some places very scanty, except where the harvest had commenced before the arrival of the locusts. Both cholum and ragi yielded nothing. The average outturn of rice is estimated at between half and one-eighth, but in some favored localities it was about three-fourths.

Tinnevelly.—The outturn of the dry crops which promised to yield well proved rather poor as they were much affected by the continued and excessive rain. What escaped the mischief done by excessive rain, and what remained after a good portion of the food crops had fortunately been reaped in the meantime, was in many villages almost completely destroyed by the locusts. The wet crops fared no better. In most parts of the district they were attacked by a sort of fungus and also by flies and locusts, and the yield was far below the usual average.

Coimbatore.—The heavy rains in October seriously damaged the crops, and this together with a superabundance of insect life resulted in a very deficient outturn.

Nilgiri.—The standing crops sustained some damage by the failure of the south-west monsoon and by the early commencement and late continuance of the north-east monsoon. Native cultivation yielded three-sixteenth of a full crop on an average, while in some villages there was a total failure. The season was favorable for tea cultivation, but it was disastrous to cinchona, as the bark could not be collected to the full extent owing to the dry weather. The season was particularly favorable for coffee in the "Ouchterlony Valley" in South-East Wynad, but in other parts it was disastrous. The rainfall of March and April 1877 brought out a heavy blossom which was destroyed by the succeeding drought, and the outturn was unusually light.

Salem.—The ryots sowed with the early rains of April and May, but as the showers held off in June, July and August, the crops on the ground perished, except a small portion of the cumbu resuscitated by the later rain of September. The rains of this month and October were favorable for wet crops, which yielded about half a full crop, but the dry crops suffered from excessive or untimely rain in some places and from disease and locusts in others. The produce of ragi and the minor dry cereals was one-eighth to one-half and that of pulses was not even one-fourth of the return of good years. Thovarai and gram were almost entirely destroyed by excessive rain. The outturn of oil seeds was generally poor; gingelly was completely destroyed in four taluks by the drought of July, and on the whole the yield of dry crops was about three-sixteenths.

South Canara.—The outturn of all crops was satisfactory throughout the district, except in parts of Kandapur Taluk, where the second rice crop was injured to some extent by insects. One good season was not however sufficient to enable the gardens to recover from the effects of the drought of the previous year, and hence their produce was on the whole below the average.

Malabar.—The Kanni crops (crops harvested in the month of Kanni, *i.e.*, September and October) were to some extent injured by insufficiency of water just as they were beginning to mature, while a superabundance of rain fell when they were ready to be harvested and when the seed for the Magarom crop (crop harvested in the month of Magarom, *i.e.*, January and February) was about to be sown. The cocoanut trees however were greatly benefited by the rains of October and November.

COTTON.—The following statement shows the extent of cotton cultivation during the year under report as compared with the previous two years :—

* Does not include area of cotton cultivated with other crops.

†The Collectors of Kistna and Bellary have furnished revised figures for 1876-77.

The area cultivated with cotton shows a net decrease of 30 per cent as compared with the year 1875-76; this is due to the causes which contributed to the decrease in the cultivation of other crops, and to the great rise in the price of food which induced the ryots to devote their land to the production of grain rather than to special crops. The percentages of increase or decrease as compared with 1875-76 in the principal cotton-producing districts are as follows :—

1. Kurnool	— 49·90	5. Kistna	— 16·44
2. Bellary	— 47·28	6. Madura	— 15·13
3. Cuddapah	— 45·92	7. Tinnevelly	— 11·62
4. Coimbatore	— 20·47		

INDIGO.—The indigo cultivation suffered more than that of cotton owing to a falling off in the demand for the article in addition to other causes which operated prejudicially to other crops as well. The decrease in the area cultivated compared with the cultivation of 1875-76 is 54

per cent., while that in cotton was only 30 per cent. The subjoined statement shows the area cultivated in each district :—

* The Collectors of Kistna and Salem have furnished revised figures for 1876-77.

CONDITION OF CATTLE.—The mortality among cattle and sheep in 1877-78 as compared with the previous two years is shown in the margin. Though the figures cannot be said to be absolutely correct, still it is clear that the mortality in 1877-78 was considerably greater than in 1875-76, and even exceeds that of 1876-77. Cattle suffered much from disease and want of pasture and fodder during the latter end of 1876-77 and the beginning of 1877-78, and were so much reduced in strength that many succumbed to general weakness induced by want of food, for some time after fodder and water had become available. In Ganjam it is stated that a number of cattle were poisoned by the low caste people about Itchapore for the sake of their skins. In Malabar a very severe form of rinderpest made its appearance among the cattle kept on some of the coffee estates in North Wynad, and the disease carried off a great number of them, though prompt remedial measures were adopted.

PRICES.—The average prices of the several food-grains and other articles, which prevailed

during the year as compared with the previous two years, are given in Statement B in the Appendix, and the following is an abstract of the same :—

Articles.	1875-76.	1876-77.	1877-78.
Rice, 2nd sort, Seers of 80 Tolahs per Rupee	16·0	11·8	8·1
Paddy do. do. do.	28·6	20·4	13·6
Cholum do. do.	26·6	19·8	11·1
Cumbu do. do.	26·4	18·1	11·3
Ragi do. do.	27·9	19·4	11·1
Varagu do. do.	39·6	28·2	15·8
Wheat do. do.	11·4	9·7	6·5
Salt do. do	15·8	15·0	14·2
Cotton, Rupees per Candy	104	110	114

The above averages being for the whole year and for the whole Presidency do not of course indicate the full effects of the scarcity on the prices in the districts affected by famine. The following table shows the average prices of second sort rice in each quarter of the years 1874-75 to 1877-78 for each district :—

Districts.	First Quarter.				Second Quarter.				Third Quarter.				Fourth Quarter.			
	1874-75.	1875-76.	1876-77.	1877-78.	1874-75.	1875-76.	1876-77.	1877-78.	1874-75.	1875-76.	1876-77.	1877-78.	1874-75.	1875-76.	1876-77.	1877-78.

The prices during the first quarter of the year continued with slight variations at the high rates which prevailed in the last quarter of the previous year, but the rise in the second quarter, especially in the districts of Cuddapah, Bellary, Kurnool, Trichinopoly, Nilgiri and Salem was alarming. In the third and fourth quarters, however, there was an improvement except in the Northern Districts of Ganjam, Vizagapatam and Godavari, where the north-east monsoon failed. The rates at the end of the year under report, however, show very little improvement generally over those at the end of the previous year. In Vizagapatam there was difficulty in obtaining supplies in August and September, when the markets were almost empty and a pillage was

attempted. On the Nilgiris the supply of grain to the markets began to fail towards the close of 1877 and so great were the apprehensions of scarcity entertained that Government provided reserve stocks of grain in the chief towns.

The continuance of the high prices generally, notwithstanding the improvement in the character of the season, is due to scanty yield of the crop during the year and partly also to the reluctance on the part of the ryots to bring their surplus grain into the market for fear of continuance of the scarcity.

Wages.—The following statement shows the rates of wages of ordinary and skilled laborers which prevailed in the months of June and December of the year under report as compared with those in the corresponding months of the previous three years :—

The rates of wages were with a few exceptions about the same as in the previous year; there have been no variations calling for special notice under this head. It is sufficient to remark that the condition of agricultural laborers during the year was wretched. In four* districts they had to put up with an enhancement of prices coupled with reduction of wages, and in seven† districts wages remained the same as in 1875, though prices were much higher, and in the other districts, where both prices and wages rose, the rise in the latter was less than that in the former, except in Coimbatore where wages rose in a higher proportion than prices.

Minerals.—Iron ore is found in large quantities throughout the Jeypore country in the district of Vizagapatam and in Bhadrachalam, Ellore, Yernagudem, Peddapur and Rajahmundry in the Godavari District. In Coimbatore the people of Satyamangalam, Bhavani and Dharapuram Taluks collect and smelt the iron sand deposited on the banks of rivers and jungle streams, while in the hilly parts of North Arcot the black sand is by a process of smelting converted into a kind of coarse iron. The quantities produced annually are not known. In the North Arcot District it is stated that an Agent has been employed by a Company at Madras to prospect in various places in view to future mining operations, and agreements have been obtained from the Rajah of Kalahasti and the Zemindars of Kangundi and Punganur, permitting the opening of mines in their estates. There are some insignificant diamond mines in Kurnool, but no applications have been received for working them.

District Post.—The District Post in all the districts was under the management of the Imperial Postal Department and its working is favorably reported on. The system of the village receiving-houses appears to have proved successful in South Canara and the experiment has been extended to two more taluks in the district. In Tanjore, however, the result of its working has not been satisfactory and a re-organization is contemplated by the Postmaster-General. No mention is made of it in the other districts.

The following statement shows the expenditure incurred in each district on account of the District Post in the year under report as compared with the previous year :—

CHAPTER V.

Revenue and Finance.

The receipts from all sources of Imperial revenue under the control of the Board of Revenue amounted to Rupees 580,05,446 against Rupees 589,30,839 in the previous year, and Rupees 734,26,838 in 1875-76. The following statements show the receipts and charges under the several heads as compared with those of the previous five years :—

Land Revenue.—The details of land revenue collections of 1877-78 as compared with the previous two years are shown below :—

——	1875-76.	1876-77.	1877-78.
	Rs.	Rs.	Rs.
Permanently settled Revenue	53,72,149	42,47,432	45,87,694
Shrotriem Jodi	6,31,154	4,60,049	4,98,370
Ryotwar	352,75,903	249,71,362	266,48,978
Miscellaneous	41,70,922	32,86,907	32,11,808
Total	454,50,128	329,65,750	349,46,850

It is useless to compare the collections of 1877-78 with those of 1876-77, an extremely unfavorable year; compared with the collections of 1875-76, those of 1877-78 show a decrease of 23 per cent. The amount and percentages of increase and decrease in each district are shown below :—

Districts.	Increase or Decrease in 1877-78 as compared with 1875-76.	
	Amount.	Percentage.
	Rs.	
1. Nellore	— 13,47,685	— 64·3

18. Tanjore	+ 1,38,118	+ 3·3
19. Malabar	+ 63,526	+ 3·5
20. Madras	+ 9,425	+ 12·1
21. Nilgiri	+ 8,479	+ 20 4
Total	—105,03,278	— 23·1

The decrease is due to the long continued drought and famine, which has reduced large numbers of the agriculturists to a deplorable state of poverty. Collections were in many instances postponed and time was allowed to Zemindars and Shrotriemdars to pay their dues. A portion of the deficiency in the collections will, however, be made good in the course of one or two years. The increase in the districts of Kistna and Tanjore is due to the large arrears outstanding at the beginning of the year, and that in Malabar is not explained. The increase in the other districts is small and does not call for remark.

The land revenue charges including the cost of the Survey and Settlement Departments amounted to Rupees 46,18,353 against Rs. 44,27,665 in the previous year and Rupees 44,56,649 in 1875-76. The increase over the charges of 1876-77 is chiefly due to the payment of famine batta throughout the year under report, while in the previous year it was only granted for a portion of the year.

The following table shows the incidence of the land revenue, exclusive of local taxes, on the population of each district according to the Census of 1871. This does not, however, include the rents paid by the ryots to Zemindars and Shrotriemdars, to whom the land tax has been alienated. In an ordinary year the difference between the tax paid by the ryots to the Zemindars and Inamdars and that paid by the latter to Government is estimated at Rupees 165,00,000; assuming a reduction under this head on account of famine in the same proportion as the Government revenue has diminished in the several districts as compared with the revenue of 1875-76, the difference would amount to Rupees 132,00,000, which added to the Government revenue gives a rate of Rupees 1-8-8 per head of the population :—

Districts.	Rate per Head of Government Revenue.	Rate per Head including alienated Revenue.	Districts.	Rate per Head of Government Revenue.	Rate per Head including alienated Revenue.

			Total ...	1 1 2	1 8 8

Abkari Revenue.—As in the case of land revenue, the receipts under "Excise on Spirits and Drugs" in the year under review were considerably less than those of 1875-76. The total collections in 1877-78 amounted to Rupees 47,10,688 against Rupees 55,83,689 in the previous year and Rupees 63,39,011 in 1875-76. The decrease as compared with 1875-76 is chiefly in the famine-stricken districts, where the renters sustained heavy losses. In many cases the renters withheld payments of kists in hopes of getting remissions, but although a considerable portion of the arrear has been remitted and further remissions may still be necessary, there is no doubt that some portion of the revenue uncollected in 1877-78 will be realized hereafter. The increase in the revenue of Madras is due to the stimulus given by the famine to the grain trade, which led to the employment of large numbers of coolies on high wages and an increased consumption of liquor. The amount and percentages of increase or decrease in each district in 1877-78 as compared with the collections of 1875-76 are shown below :—

Districts.	Increase or Decrease as compared with 1875-76.	
	Amount.	Percentage.
	RS.	
1. Kurnool	— 1,97,033	— 73·3
2. Bellary	— 4,70,698	— 60·5
3. Madura	— 1,60,894	— 59·1
4. Cuddapah	— 1,22,874	— 50·9
5. North Arcot	— 1,70,021	— 44·6
6. Salem	— 1,66,143	— 43·2
7. Chingleput	— 91,204	— 43·1
8. Coimbatore	— 78,426	— 32·4
9. Nellore	— 25,411	— 31·3
10. South Canara	— 38,255	— 27·6
11. Tanjore	— 80,900	— 17·0
12. Tinnevelly	— 36,654	— 16·6
13. Kistna	— 26,550	— 12·5
14. Malabar	— 30,238	— 11·5
15. Nilgiri	— 5,792	— 6·3
16. Godavari	— 15,478	— 5·7
17. South Arcot	— 6,327	— 2·4
18. Vizagapatam	+ 2,130	+ 1·3
19. Trichinopoly	+ 3,703	+ 2·7
20. Madras	+ 74,383	+ 6·3
21. Ganjam	+ 14,359	+ 16·8
Total ...	—16,28,323	— 25·6

The charges amounted to Rupees 2,64,428 against Rupees 2,24,814 in the previous year and Rupees 1,97,035 in 1875-76. The increase which occurs mainly in Madras was due to payment during the year of a sum of Rupees 20,373, which was due in 1876-77 and to purchase of Columbo arrack at an enhanced rate.

The following table shows the incidence of the abkári revenue on the population :—

	Rate per Head.				Rate per Head.	
	RS. A. P.				RS. A. P.	
Ganjam	0 1 1	Tanjore	0 3 2
Vizagapatam	0 1 3	Trichinopoly	0 1 10
Godavari	0 2 6	Madura	0 0 9
Kistna	0 2 0	Tinnevelly	0 1 2
Nellore	0 0 8	Coimbatore	0 1 6
Cuddapah	0 1 4	Nilgiri	1 11 6

Madras	3 1 11	Malabar	0 1 7
Chingleput	0 2 1		
North Arcot	0 1 7	Total ...	0 2 5
South Arcot	0 2 4		

The administration of the Abkari revenue will form the subject of a separate report to Government.

Sea Customs.—The Sea Customs revenue exclusive of the import duty on salt which is credited to "Salt" amounted to Rupees 19,35,648 against Rupees 22,84,013 in the preceding year and Rupees 27,93,858 in 1875-76. Compared with the results of 1876-77, there was a decrease of Rupees 2,84,599 under exports and of Rupees 76,234 under imports. The falling off in the revenue under exports is due to diminution in the quantity of grain exported owing to failure of crops, the prevalence of distress in the Presidency and the high prices ruling in the market, which rendered its exportation unprofitable; the decrease under imports is owing to slackness in the demand for cotton goods, which was also due to the famine. The effect of the recent reduction of duty on cotton goods will not become apparent till next year.

G.O., dated 19th March 1878, No. 428-A.

The following statement shows the duty collected on the principal articles of import and export during the year 1877-78 as compared with the previous two years :—

Articles.	Exports.			Articles.	Imports.		
	1875-76.	1876-77.	1877-78.		1875-76.	1876-77.	1877-78.

				All other Articles	63,863	44,890	42,127
Total ..	9,75,128	6,38,494	2,53,895	Total ..	17,84,180	17,93,792	16,27,558

The figures given in the above statement do not include the Miscellaneous receipts from Sea Customs amounting to Rupees 54,157, the details of which are given below :—

	Rs.	A.	P.
Commission (5 per cent.) on Little Basses Light dues	322	15	4
Fees for remuneration of Clerks doing duty out of office hours	15,520	6	1
Fees for granting certificates, permission to file supplemental manifests, duplicate receipts, sea-passes, &c.	2,405	1	0
Godown rent	30,056	15	9
Fines and forfeitures	3,639	0	0
Sale proceeds of smuggled goods	81	0	9
Do. of unclaimed property	50	15	9
Additional charges under Section 131, Act VI of 1863 ...	435	0	10
Other items	1,652	6	9
	54,163	14	3
Difference to be adjusted ...	7	0	0
Total ...	54,156	14	3

The charges amounted to Rupees 2,06,218 against Rupees 1,85,596 in the preceding year and Rupees 1,72,092 in 1875-76. The increase was due to the payment of famine batta to the subordinates, the revision of establishment carried out in the district of South Canara from 1st November 1877 owing to the introduction of the Salt Excise Act, and the amalgamation of the Sea Customs and Salt establishments in the district of Malabar.

2776/10

The incidence of the Sea Customs revenue on the total population of the Presidency was 11 Pies per head, but taking the duty on liquors, apparel, fire-arms and provisions as falling entirely on Europeans and Eurasians, the incidence of the duty on the remaining articles on the Native population amounted to 7 Pies per head as shown below :—

	Rs.	A.	P.
Import duty on all articles exclusive of salt	16,27,558	0	0
Export duty	2,53,895	0	0
	18,81,453	0	0
Deduct duty on liquors, apparel, fire-arms and provisions...	7,05,319	0	0
	11,76,134	0	0
Incidence of the above on the Native population, viz., 31,240,198 (31,281,177 — 40,979)	0	0	7
Incidence of the duty on liquors, &c., on Europeans and Eurasians, viz., 40,979	17	3	4

These rates however cannot be taken as correctly representing the burden of taxation, as the revenue is inclusive of the duty on articles passing into Mysore and Hyderabad, &c., for consumption.

Land Customs.—The Land Customs revenue amounted to Rupees 97,888 against Rupees 1,83,346 in the previous year and Rupees 2,85,762 in 1875-76 as shown below :—

——	1875-76.	1876-77.	1877-78.
	Rs.	Rs.	Rs.
Ganjam	...	13	...
Godavari	151	62	306
South Arcot	86,272	46,592	43,388
Tanjore	1,97,834	1,31,447	48,003
Malabar	1,505	5,232	6,191
Total ...	2,85,762	1,83,346	97,888

The increase in Godavari was due to larger imports of tobacco, &c., than in the previous year, and that in Malabar to a larger quantity of liquor having passed into British territory from the French Settlement of Mahé. The large decrease in Tanjore was due to the falling off in the duty on grain exported to Karikal owing to the prevailing distress.

The charges under Land Customs amounted to Rupees 20,549 against Rupees 15,999 in 1876-77 and Rupees 15,184 in 1875-76.

The incidence of the total Customs revenue (sea and land) on the population is 1 Anna per head.

Salt.—The quantity of salt manufactured and sold in each district during the year under report is shown in the following statement :—

¶ In all Districts.

The salt revenue of 1877-78 was Rupees 130,39,230 against Rupees 129,19,528 in 1876-77. Of the former sum, however, only Rupees 114,21,967 are shown in the accounts of the Accountant-General, the remainder being the value of salt sold on credit but not realized. Formerly it was usual to credit also the value of salt sold under the credit system as soon as the sale was completed, debiting it to the head "Advances Recoverable" and adjusting the amount when the value was actually realized. But under the recent instructions of the Controller-General, embodied in Board's Proceedings, dated 17th June 1878, No. 1,656, the actual realizations alone are shown as salt revenue, and the Accountant-General has accordingly debited to salt all outstandings not actually realized, crediting the same to "Advances Recoverable." The increase or decrease in the quantity and value of salt sold in each district as compared with the previous year is shown below :—

Districts.	Increase or Decrease as compared with 1876-77.	
	Quantity.	Amount.
	IN. MDS.	RS
1. Chingleput	— 172,866	+ 1,99,744
2. Kistna	— 149,744	— 2,40,359
3. Madura	— 91,905	— 1,55,605
4 South Canara	— 80,289	— 1,81,674
5. Malabar	— 75,759	— 1,75,632
6. South Arcot	— 18,623	+ 14,171
7. Ganjam	— 17,893	+ 8,461
8. Godavari	+ 26,124	+ 86,765
9. Tanjore	+ 30,474	+ 73,887
10. Vizagapatam	+ 56,525	+ 1,74,633
11. Nellore	+ 45,391	+ 1,91,033
12. Tinnevelly	+ 98,308	+ 1,82,194
Total ...	— 349,657	+ 1,77,618
Increase in salt imported on private account	...	+ 17,415
Decrease in the duty on earth-salt in Cuddapah, Bellary and Kurnool	...	— 1,809
Decrease in Miscellaneous Revenue and adjustments made in the Accountant-General's Office.	...	— 73,522
Total ...	...	+ 1,19,702

From the above it will be seen that, though the quantity sold in 1877-78 was less than that in 1876-77, the value shows an increase of Rupees 1,77,618 which is due mainly to the enhancement of price under Act XVIII of 1877. As regards quantity, the decrease is largest in Chingleput and Kistna ; in the former it is due to absence of exports by sea owing to deficiency of stock, in the previous year 211,200 maunds having been exported, whilst in the latter it is the result of the abolition of the discount system and diminished demand from Hyderabad. The decrease is large also in Madura, South Canara and Malabar ; in the first mentioned it is stated to be due to large importations of Tuticorin salt since the extension of the South Indian Railway to that place, and in Malabar and South Canara it was owing to discontinuance of Government sales of salt from 1st November 1877 on the introduction of the Excise Act VI of 1871 and to larger importations of salt from Bombay on prepayment* of duty. In South Canara the Bombay salt is said to be preferred by purchasers from Mysore and Coorg on account of its being heavier and bearing carriage better than the Goa salt imported on payment of duty. The decrease in this district is also due to prevalence of distress above the ghats, in consequence of which the carts brought by the inland traders from Mysore and Coorg returned laden with food-grains instead of salt as usual. The decrease in Ganjam and South Arcot is small and does not call for remark. The increase in Vizagapatam is owing to replenishment of stocks which were low in the previous year, that in Tanjore to increased exportation by sea, and that in Tinnevelly to increased exportation as well as to the additional facilities afforded for carriage by the opening of a branch railway to the Levingepuram salt-pans. The increase in Nellore and Godavari is not explained, but it is probably the result of an ordinary fluctuation in the demand.

		Adjustment in the Account-General's Office for Madras.						178
								2,19,485

The charges under salt amounted to Rupees 13,29,594 against Rupees 15,97,935 in 1876-77 and Rupees 18,70,376 in 1875-76. The decrease occurs under the head of payment to manufacturers owing to the great falling off in the quantity of salt brought to account.

The incidence of the net salt revenue (exclusive of cost price) on the population is Annas 5-2 per head. This cannot, however, be taken as correctly representing the burden of taxation, as a large quantity of the salt sold in this Presidency finds its way into Hyderabad, Mysore, Travancore and other Foreign States, while on the other hand duty is paid at Bombay on salt imported from that place into the West Coast districts.

STAMPS.—The stamp revenue during the year amounted to Rupees 48,92,277 against Rupees 49,93,366 in the previous year and Rs. 50,19,708 in 1875-76. Thus the decrease of revenue in the year under review was much greater than in that preceding it, owing to the greater intensity of the famine and the impoverished condition of the people from its prolonged continuance which led to a decrease of litigation. The variations in the districts are noted in the margin.

Districts.	Increase or Decrease as compared with 1876-77.	Districts.	Increase or Decrease as compared with 1876-77.
	RS.		RS

The realizations at the General Stamp Office amounted to Rupees 1,95,157 against Rupees 2,14,620 in 1876-77 as shown below :—

—	1876-77.	1877-78.	Difference.
	RS.	RS.	RS.
Amount realized for impressing Non-judicial Stamps on documents presented by private parties	87,632	90,946	+ 3,314
Amount realized for affixing special adhesive stamps on do.	33,848	31,371	— 2,477
Amount realized by sale of Court Fees Adhesive Stamps ...	93,140	72,840	— 20,300
Total ...	2,14,620	1,95,157	— 19,463

The falling off in the receipts which occurs chiefly under Court Fees Adhesive Stamps is due to the fact that in 1876-77 the unusually large amount of Rupees 20,000 was paid for the administration of a single estate. The following statement shows the receipts and issues of the several descriptions of stamps during the year under report as compared with those of the previous year :—

—	1876-77.	1877-78.	Difference.
	RS.	RS.	RS.
Receipts.			
Non-judicial Stamps (Impressed)	18,27,581	8,86,714	— 9,40,867
Do. do. (Adhesive)	37,655	2,30,286	+ 1,92,631
Court Fees (Impressed)	...	12,16,389	+ 12,16,389
Do. (Adhesive)	24,69,362	21,58,230	— 3,11,132
Postage, Service Postage and Telegraph Stamps	23,42,281	21,30,677	— 2,11,604
Total ...	66,76,879	66,22,296	— 54,583
Issues.			
Non-judicial Stamps (Impressed)	14,16,284	18,36,385	+ 4,20,101
Do. do. (Adhesive)	2,00,173	1,65,633	— 34,540
Court Fees (Impressed)	...	65,613	+ 65,613
Do. (Adhesive)	50,56,755	35,74,733	— 14,82,022
Postage, Service Postage and Telegraph Stamps	21,70,803	21,60,331	— 10,472
Total ...	88,44,015	78,02,695	— 10,41,320

The receipts of the several kinds of stamps show a decrease in the year 1877-78, with the exception of the Adhesive Non-judicial Stamps and Court Fees Impressed Stamps. In the case of the former the stock having been low it was necessary to obtain the requisite supply from England, and in the case of the latter, stamps worth Rupees 12,16,388 were returned to the General Stamp Office from Vizagapatam and Godavari for want of proper accommodation in the District Treasuries. The issues also show a decrease which is due to a large quantity having been sent to Calcutta in the previous year.

The sum of Rupees 65,613 shown under Court Fees Impressed Stamps as issued during the year represents the value of stamps found damaged out of those returned from the districts and forwarded to the Board's office for destruction and written off in the accounts.

Agreeably to the instructions of the Government of India recorded in G.O., dated 14th March 1878, No. 406, orders were issued for the destruction of the Court Fees Impressed Stamps which had been superseded long ago by Adhesive Stamps. The total value of stamps thus to be destroyed amounts to Rupees 80,28,412-14-0, and the measure which has been now carried out will relieve the Superintendent of Stamps and the Officers in charge of the District Treasuries of considerable responsibility.

	Rs.	A.	P.
In the Presidency Office	26,53,943	1	6
In the districts	53,74,469	13	0
Total ...	80,28,412	14	0

The total charges under stamps amounted to Rs. 1,45,596 against Rupees 1,40,934 in the previous year and Rupees 1,36,730 in 1875-76. The subjoined table shows the incidence of the stamp revenue on the population of the several districts :—

In the year under report the usual grants-in-aid from Provincial Funds for roads were withheld, but a sum of Rupees 1,05,590 was allowed to certain Circles in consideration of their peculiar circumstances, which added to the grants sanctioned for old rate schools and for general purposes, makes a total of Rupees 1,38,230* for the year.

	Rs.
* For Roads	1,05,590
For Schools	23,230
For general purposes	9,410
Total ..	1,38,230

The year commenced with a balance at credit of Rupees 8,33,975 and the actual receipts aggregated Rupees 41,33,752, of which Rupees 3,71,106 were the Provincial grants for roads &c. and the receipts from Special Funds, Rupees 32,06,704 were derived from rates and taxes and the remainder was made up of school-fees, contributions from Municipalties, receipts from endowed institutions and other miscellaneous items. The total actual expenditure amounted to Rupees 40,22,694, which is made up of Rupees 20,22,146 spent on public works both by the Public Works Department and by "Other Agency," Rupees 4,49,835 on account of education, Rupees 8,76,496 for sanitary and medical purposes and the remainder on expenses of management and other miscellaneous objects.

Of the outlay of Rupees 20,22,146 on public works, Rupees 6,17,580 were spent in the construction of new roads, school-houses and dispensaries and Rupeees 14,04,566 in maintaining the existing roads and repairing the educational and other buildings, &c., under the control of Local Fund Boards.

The cost of the educational inspecting staff amounted to Rupees 64,919. There were 134 Inspecting Schoolsmasters at work. They visited 16,770 villages and prepared 13,115 schools for inspection.

The Local Fund schools cost Rupees 2,03,517. There were at the beginning of the year in all 1,234 schools, of which 326 were on the salaried system and the remaining 908 on the combined system of salary and results grants, but the number of schools increased to 1,311—308 being schools with salaried masters with an attendance of 9,549 pupils and 1,003 on the combined system with 27,004 pupils. The schools on the former system have in most cases worked well while those on the latter are gradually gaining ground.

* Salary Grant Schools	75
Result do. do.	4,930
Total ...	5,005

The number of private schools which received salary and results grants during the year was 5,005.* The total amount earned by these schools was Rupees 17,702 in salary grants and Rupees 1,49,539 in results grants.

The maintenance of Local Fund Dispensaries cost Rupees 1,99,878. At the beginning of the year there were ninty-five dispensaries including the six Chuttrum Dispensaries of the Tanjore Circle, but the number rose to 101 by the opening of seven new dispensaries during the year and the closing of the one at Madagole in the Vizagapatam Circle for want of a medical subordinate. The total number of patients treated in all these institutions was 430,179, which is about 25 per cent. in excess of the total number for the previous year. The results are not only satisfactory but also very encouraging and go to establish the fact that the institutions are gaining ground every year and that the people of the country are beginning to appreciate their usefulness.

The cost of the vaccine establishments attached to the several Local Fund circles was Rupees 1,06,780. Thirty-four Deputy Inspectors of Vaccination and 560 Vaccinators including Probationary and Pupil Vaccinators were at work during the year. The total number of cases vaccinated by them was 553,527, of which 503,038 or 90·87 per cent. proved successful. The cost per case was Annas 3 and Pies 5. These statistics compare favorably with those of last year and show that vaccination is more freely resorted to by the people and that the prejudices against it are gradually wearing away.

The expenditure on sanitation amounted to Rupees 2,25,329 and may be classified thus :—

	Rs.
1. Cleansing of tanks and wells	82,304
2. Improving village-sites	12,957
3. Sanitary arrangement at fairs and festivals	7,918
4. Scavenging villages and towns	1,04,312
5. Miscellaneous...	17,838
Total ...	2,25,329

The expenditure on all the items was below that of last year except in the case of the 4th in which it was higher, owing principally to the entertainment of additional scavenging establishment on sanitary grounds.

Special Funds.—The following abstract statement shows the receipts and charges of the several Special Local Funds under the control of the Board of Revenue during the year under report :—

2 T 16/15

Funds.	Balance at the beginning of the year.	Receipts during the year.	Total.	Expenditure.	Balance.
	Rs.	Rs.	Rs.	Rs.	Rs.

Surplus Pound Fund	...	99,535	99,535	99,535	...

2. The receipts under all the Funds exclusive of the opening balances amounted to Rupees 24,87,857. The expenditure was Rupees 23,34,427 and thus the year closed with a balance of Rupees 12,50,167.

3. *Jungle Conservancy Fund.*—The receipts under this Fund amounted to Rupees 1,47,523, made up of the following items :—

	Rs.
1. Tax on fuel, firewood and bamboos	17,582
2. Tax on trees...	1,235
3. Sale of fuel, firewood and bamboos	50,741
4. Sale of palmyra and other trees	34,670
5. Rent of palmyra and other jungles	25,358
6. Sale of fruits and other produce of jungles, topes, trees, &c.	7,450
7. Fees from charcoal-burners	1,057
8. Sale of confiscated timber	185
9. Miscellaneous receipts...	2,121
10. Recoveries of advances	2,305
11. Refunds...	1,519
12. Contribution from the Surplus Pound Fund	3,300
Total ...	1,47,523

4. The charges amounted to Rupees 2,02,347, made up of—

	Rs.
1. Formation of fresh plantations and topes	14,203
2. Improvement and maintenance of existing topes ...	1,28,749
3. Commission for collection	3,022
4. Establishment	25,330
5. Cost of Public Works Department supervision	1,458
6. Miscellaneous charges	31,185
7. Advances	3,400
8. Controlling establishment	..
Total ...	2,02,347

Cattle Pound Fund.—The total number of pounds at the close of 1876-77 was 5,574. During the year under report 6 pounds were abolished and 81 newly constructed, so that there were 5,649 pounds at the end of the year.

Village Service Fund.—The Village Service Cess Act was introduced throughout the Tinnevelly District on the completion of the settlement.

CHAPTER VI.

Vital Statistics and Medical Services.

Public Health.—In 1876-77 the public health throughout the Presidency was very bad, but in the year under report it was far worse. The number of births and deaths in 1877-78 as compared with the previous three years is shown in the following statement :—

Districts.	Births.				Deaths.			
	1874-75.	1875-76.	1876-77.	1877-78.	1874-75.	1875-76.	1876-77.	1877-78.

20. South Canara ...	16,592	20,145	19,716	17,673	15,536	16,864	21,154	31,354
21. Malabar	34,188	40,161	41,615	37,557	47,283	52,497	43,116	52,808
Total ...	596,140	632,843	616,238	437,693	538,844	635,509	855,977	1,489,002

Absolute accuracy is of course not claimed for the figures given ; on the contrary, seeing that the village servants were largely employed on famine work and some of them were absent from their homes in quest of their livelihood, it is probable that both births and deaths are much more understated than usual. As they stand, however, the figures show a decrease of 30 per cent. in births and an increase of 117 per cent. in deaths as compared with the results of 1875-76. Cholera, small-pox, and fever of a severe type were more are less prevalent in all districts. The mortality under each of these heads in each district is shown in the accompanying Statement D, and the following is an abstract thereof :—

Diseases.	1875-76.	1876-77.	1877-78.	Increase or Decrease as compared with	
				1875-76.	1876-77.
Cholera	132,434	269,714	212,773	+ 80,339	— 56,941
Small-pox	24,500	36,541	90,191	+ 65,691	+ 53,650
Fever	243,357	235,596	523,819	+ 280,462	+ 288,223
Other causes	285,218	314,126	662,219	+ 377,001	+ 348,093
Total ...	685,509	855,977	1,489,002	+ 803,493	+ 633,025

35 per cent. of the deaths were caused by fever, 14 per cent. by cholera and the rest by other causes. The Collector of Cuddapah states that the extreme unhealthiness has been due rather to excessive malaria rising from the ground saturated by heavy rain after two years' drought than to the fact that the people were rendered by famine physically unable to withstand disease, but the Board consider that the latter cause chiefly conduced to the great increase of mortality. The percentages of increase and decrease of births and deaths in each district compared with the results of 1875-76 are shown below :—

2776
16

Districts.	Percentage of increase or decrease as compared with 1875-76.

Emigration.—Emigration to the British Colonies of Mauritius and Natal was resumed during the year and emigration to Cayenne ceased from the 24th July, 1877, with reference to the Notification of the Government of India, dated 12th July 1877, No. 114, as the climate of that place was found to be prejudical to the health of the Indian Emigrants. The Government have sanctioned rules for working the British Burmah Labor Act III of 1876 at Cocanada, from which port alone emigration is at present permitted under the Act, and the Straits Settlements Emigration Act V of 1877 was also brought into working operation. During the year under review there was a decrease in the number of emigrants and an increase of immigrants as shown below :—

——	1875-76.	1876-77.	1877-78.
Emigrants	98,258	197,979	169,089
Immigrants	82,053	91,145	92,307

The subjoined statement shows the countries to which emigration has taken place :—

——	1875-76.	1876-77.	1877-78.
To Mauritius and Bourbon	2,507	2,558	2,844
„ Ceylon	87,509	184,919	152,073
„ British Burmah	3,118	2,628	4,018
„ West Indies	908	2,881	1,654
„ Other places	4,216	4,993	8,500
Total ...	98,258	197,979	169,089

Embarkation of emigrants to British Burmah is permitted only at Cocanada, for the Straits Settlements at Negapatam, for Mauritius and Natal at Madras and for Bourbon and the West

Indies at Madras, Pondicherry and Karikal. Emigration to Ceylon which is not governed by any special law takes place chiefly from the districts of Madura and Tinnevelly. The numbers given by the Protector of Emigrants at Madras as having actually embarked to the several countries from Madras, Pondicherry and Karikal are shown below :—

——	1875-76.	1876-77.	1877-78.
To Mauritius and Bourbon... ...	1,341	361	2,572
„ West Indies	427	520	1,232
„ Natal	...	...	2,221
„ French Guiana	470	472	...
Total ...	2,238	1,353	6,025

These figures differ from those given by Collectors, as the latter represent the number of persons registered, all of whom do not actually leave the country ; some desert, some are pronounced unfit, while others do not embark within the year in which they are registered.

The Collector of North Arcot reports that there was no registered emigration at all from his district and remarks that this is a noteworthy fact as showing the tenacity with which the natives of the country cling to their villages even under the stress of the most terrible famine.

CHAPTER VIII.

District Press.

A larger quantity of work was executed in the District Presses during the year than in 1876-77, as a considerable number of returns, forms, &c., had to be printed for famine purposes and a large number of Gazettes struck off for the use of officers employed on famine duty. The following statement shows the value of work done and the receipts and charges during the year under report as compared with those of the previous year :—

2776
17

The falling off under receipts occurs chiefly in Tanjore and is ascribed to discontinuance during the year of the purchase of Gazettes by Village Officers to whom Village Supplements are now issued gratis and to non-payment of postage on those supplied to private subscribers within the district agreeably to G.O., dated 4th May 1877, No. 1,631. The increase in charges is attributed to (1) disbursement of famine batta during the whole year instead of a part only as in 1876-77, (2) the employment of extra hands in the Presses to cope with the increase of work due to the famine, and (3) the cost of postage on the Gazettes issued to private subscribers which is now borne by Government.

Revenue Board Office,
Madras,
12th November 1878.

Acting Secretary.

Rw 2/5016/78

Transcribed Nov 1878 No: 2776

...., Esq.,
Acting Chief Secretary to Government.

Sir,

I am directed to forward the accompanying Administration Report of the Board of Revenue for the year 1877-78, together with the usual statements.

2. It was not possible to send the report within the prescribed date, *i.e.*, 1st October, as the reports from districts were not submitted in time. The dates on which the several reports were received are shown in the margin, the prescribed date being 30th June.

1. [illegible]	17th May.
2. North Arcot	28th "
3. Malabar	
4. Madras	31st "
5. Nilgiris	3rd June.
6. Vizagapatam	4th "
7. Bellary	13th "
8. Trichinopoly	15th "
9. Coimbatore	
10. Kistna	9th July.
11. Kurnool	11th "
12. Tinnevelly	12th "
13. Salem	
14. Godavari	15th "
15. Cuddapah	
16. Chingleput	16th "
17. South Canara	18th "
18. Nellore	23rd "
19. Ganjam	29th "
20. Madura	29th August.
21. South Arcot	17th September.

* Accountant-General.
Government Astronomer.

3. The statistical returns prescribed in G.O., dated 24th May 1876, No. 419, are not yet complete, none having been received from the districts of Bellary and South Arcot and some being still due from Nellore, Madura, and Coimbatore, as also from the officers noted in the margin.* The Board apprehend that it will not be possible to forward them in time for incorporation in the Administration Report for the Presidency.

I have the honor to be,
Sir,
Your most obedient servant,

Acting Secretary.

REVENUE BOARD OFFICE,
Madras,
12th November 1878.

To the Acting Chief Secretary to Government, with Administration Report and eleven statements.

Copy to the Secretary to Government, Revenue Department.
