GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

6th May 1878, No. 373 I.

Irrigation Account.

Read the following paper :—

No. 16. Endorsement of the Chief Engineer for Irrigation, dated Ootacamund, 26th April 1878, No. 113 I.

From Lieutenant-Colonel J. BEATTY, R.E., Superintending Engineer, Godavery District, to the Chief Engineer for Irrigation, dated Dowlaishweram, 8th March 1878, No. 3,863.

I HAVE the honor to forward herewith as per accompanying list duly countersigned thirty-one bills with the memoranda as required by paragraph 2 of G.O., No. 1,042, of 15th April 1875, received from the Collector on account of compensation for lands taken up for certain irrigation *repair* works carried out in former years (within the last fifteen), and to request you will be good enough to forward them to the Examiner of Public Works Accounts with special authority to pass them.

Thirty bills with memorandum.
Two Lists.

2. The Examiner of Public Works Accounts has pointed out that as the lands shown in the above bills were taken up for repairs, and as there is no such sub-head as "B Land" under the head "Revenue Maintenance and Repairs" according to the authorised classification, the land compensation should be charged to the sub-head for which the land was taken up, or to the sundries of the estimates. This suggestion is in accordance with G.O., No. 1,928, of the 1st August 1873; but all the works specified in the statement now sent have been completed and completion certificates submitted to the Examiner long ago; their estimated amounts are either unknown or fully spent or their unspent balances are insufficient to cover the charges on account of compensation. Special authority to the Examiner to pass the bills is therefore necessary.

G.O., No. 1,968, of 16th July 1875.

No. 50 G. D.

No. 16-A. IRRIGATION—MEMORANDUM.

THE undersigned has the honor to return the bills for land compensation received with the letter No. 3,863, of the 8th instant, from the Superintending Engineer, Godavery, and to point out that the information given is incomplete and not in accordance with the instructions conveyed in the Proceedings, Madras Government, as per margin.

No. 1,617, 20th June 1873.

2. Moreover the bills should be entered in an abstract statement so as to show what sum has to be provided under each main head and how the debits have to be made. Every bill chargeable to the delta appertains to one or other main head of the delta works and to some principal work under such main head whether canal, drain, or otherwise, and the name of such principal work must evidently be given in accordance with the description in the printed classified lists, or the Examiner will not know how to deal with it and much unnecessary correspondence will result.

3. To take the first bill, Rupees 532-13-10. The description in column 1 is not in accordance with any recognized description. It is probably left flood bank Gowtami-Godavery, and if so this has to be shown and the position may with advantage be indicated. Then comes the questions does it belong to (4) D and P Works or to Ordinary Agricultural River embankments. The next bill is for Rupees 33-10-4, Komaripolem Channel. This belongs to (3) distributaries and the canal, of, which it is a distributary clearly needs to be specified. There is a bill, Rupees 20-2-6, for river groynes. This is Ordinary Agricultural River Conservancy, but the undersigned cannot tell whereabouts the work was done, and the Examiner will be at a much greater loss in the matter and would probably make the debit wrong. This bill has Eastern Delta at the top, so no doubt the Gowtami-Godavery is the river conserved; but just afterwards comes a bill, Rupees 54-0-2, for the Chinnabadami Channel which has no such indication.

4. It will be seen from these remarks that the bills cannot be laid before Government and abstracts should be made out affording complete information. The following form will probably be suitable:—

Section of Delta.	Main Head.	Name of Canal or other Principal Work.	Name of Work for which taken up.	Position.	Village.	Amount of Compensation.	Fund to which chargeable.
Eastern ..	River Embankments.	Left flood bank Gowtami-Godavery.	*Vide* Column 3.	M. ch.	Korumilli ..	Rs. A. P. 532 13 10	Ordinary Agricultural Repairs.
Eastern ..	(4) D. and P. Works.	Do. ..	Do. ..	or	Do. ..	Do. ..	Revenue Maintenance and Repairs.
Eastern Delta.	(3) Distributaries.	Whichever may be the proper arrangement. ..	Komaripalem Channel.	.. ..	Tapeswaram.	33 10 4	Do.
Do. ..	Do. ..	Do. ..	Do. ..	.. ..	Komaripalem.	1 0 0	Do.

and so on, but the abstracts for delta system and ordinary agricultural items should be separate.

19th March 1878. (Signed) JOHN MULLINS, Lt.-Col., R.E.,
Chief Engineer for Irrigation.

No. 16-B. From Lieutenant-Colonel J. BEATTY, R.E., Superintending Engineer, Godavery District, to the Chief Engineer for Irrigation, dated Dowlaishweram, 9th April 1878, No. 98.

I HAVE the honor to retransmit thirty of the thirty-one bills returned with your memorandum, No. 50 G—D, of the 19th March 1878, together with two separate classified lists of the Godavery Delta System and Ordinary Agricultural Works, and to inform you that the remaining bill has been forwarded to the Collector for some information.

Chief Engineer for Irrigation.

ORTACAMUND,
26th April 1878.

SUBMITTED to Government.

2. The bills for land compensation submitted by the Superintending Engineer, Godavery, for sanction refer, it will be seen, to land taken up for repair works carried out in former years (within the last fifteen) and consequently it appears to be necessary that the sanction of Government should be given to their adjustment, and to the debit of the charges against the repair allotments of the current year.

3. The classified abstracts have been slightly modified in this office, so as to show the acreage for which the compensation is to be paid.

4. The general abstract is as follows :—

Revenue Maintenance and Repairs.

		Rs.	A.	P.
Eastern Section (3)	Distributaries	288	3	0
Central do.	do.	346	10	3
Eastern Section (4)	Drainage and Protective Works	674	2	8
Central do.	do. do. do.	433	7	0
	Total, Revenue, Maintenance, and Repairs ...	1,742	6	11

Ordinary Agricultural Repairs.

Eastern Delta Section	River embankments	532	13	10
	River conservancy	409	1	0
	Total, Ordinary Agricultural Repairs ...	941	14	10

(Signed) JOHN MULLINS, Lt.-Col., R.E.,
Chief Engineer for Irrigation.

No. 17. ORDER THEREON, 6th May 1878, No. 373 I.

THE bills for land compensation referred to in the foregoing endorsement, and enumerated in the classified abstracts are sanctioned for adjustment against the grants of the current year for Revenue, Maintenance, and Repairs and Ordinary Agricultural Repairs respectively.

2. The great delay which has occurred in adjusting these claims to compensation is much to be regretted, and care must be taken that for all land newly taken up the compensation is promptly ascertained and paid.
