GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

13th May 1878, No. 2,143 W.

Buildings and Roads.

Civil Works.

Read the following papers :—

No. 146. From W. B. LEGGATT, Esq., A.I.C.E., Officiating District Engineer, Bellary, to the Chief Engineer, Buildings and Roads, dated Bellary, 25th January 1878, No. 4,761.

With reference to your memorandum, No. 1,379, of the 25th May last, I have the honor to submit a revised plan and estimate, amounting to Rupees 10,770, accompanied by a specification report for constructing a Subsidiary Jail at Alloor, also the original papers which were returned with the above-quoted letter.

Two Plans.
One Estimate.
,, Specification revised.
,, Tracing.
,, Plan of well.
,, Estimate.
,, Specification.

2. In revising the plan, I have adopted the standard design circulated with G.O. No. 2,204 of the 21st August 1876; it is in keeping with the Taluq Cutcherry at Alloor, to which building the Subsidiary Jail is to be attached. The revised estimate is in excess of the original estimate by Rupees 2,040, owing to the standard design being adopted.

3. The instructions contained in the memorandum under reply with regard to the out-buildings have been attended to, and the accompanying revised plan for the well is prepared in accordance with your suggestions; its estimated cost has, therefore, been reduced to Rupees 453.

4. I regret the delay that has taken place in transmitting the papers. The press of office work owing to the famine has been the cause.

No. 146-A. From J. W. RUNDALL, Esq., District Engineer, Bellary, to the Deputy Chief Engineer, Buildings and Roads, dated Bellary, 9th April 1878, No. 226.

With reference to your memorandum, No. 596, returning the plan and estimate of the Alloor Subsidiary Jail, and directing the Police accommodation to be altered to that provided in second-class cutcherries (design circulated with G.O., No. 642, dated 13th March 1876) I have the honor to point out that Alloor is the station of a Tahsildar, Sub-Magistrate, and a Treasury, and that it should, therefore, be reckoned a first-class cutcherry.

One Plan.

2. The Subsidiary Jail Committee directed the construction of five new jail wards and the removal of the Inspector's room from the inside of the present building, and therefore I presume the construction of a new Inspector's room.—See paragraphs 96 to 103 of report published in Government Order, Judicial Department, No. 1,897, of the 17th December 1868. The second-class cutcherry design does not provide for an Inspector's room; but, as there always is an Inspector at every Tahsildar's station, I conclude we ought to provide a room for him and request the favor of further orders

3. You have entered on the plan a pencil remark to the effect that tile roof would be less expensive than terrace.

4. You have also noted that 14 feet is height enough for the jail wards terraced; 18 feet was provided in the estimate in accordance with the standard plan for cutcherries with stone walls and terraced roofs.

5. At Alloor good tiles can hardly be procured, and I think a terrace roof should be estimated for; the alteration of the cornice and parapet from the standard pattern to correspond with the old building was, I think, judicious, and I would suggest its being retained.

6. I return the plan for your inspection, but have retained the estimate till your further orders are received.

No. 147. ORDER THEREON, 13th May 1878, No. 2,143 W.

THE plan and estimate, amounting to Rupees 10,770, for constructing a Subsidiary Jail at Alloor, are sanctioned.

2. There are no funds available for the work.

3. This sanction has been registered as Provincial No. 23 B of 1878-79.
