Not to be folded or roughly handled

Read the following letter from W. S. WHITESIDE, Esq., Collector of North Arcot, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated Chittoor, 18th February 1878, No. 46:—

THE Board of Revenue were pleased to sanction in their Proceedings, No. 3,252, dated 22nd December 1876, the cultivation of tank bed lands in last year as a special case in consideration of the unfavorable nature of the season.

2. The present year is by no means a favorable one, particularly as regards illages dependent upon rain-fed tanks in various parts of the district, and a large amount of waste and shavi has resulted in consequence of deficient supplies of water.

3. Ryots are now very anxious to cultivate tank bed lands in view to secure some produce for their livelihood, and the Sub-Collector and certain other officers of the district have urged upon me the necessity for granting permission for such cultivation.

4. As a rule the cultivation of tank bed lands is very objectionable. As, however, the cultivation of melons or cucumbers, which are merely creeping plants, do not entail any material disturbance of the surface of the tank beds, I have, in anticipation of sanction, authorized the Divisional Officers, as a special case, to permit the cultivation of these crops in tank bed lands free of assessment. I request that the Board will be good enough to approve of my action.

5. I am not prepared to recommend at present the cultivation of any other kind of crops in tank bed lands.

The Collector's action is approved.

2. The concession should apply only to the cultivation of such produce as cucumbers and melons, and may be extended to the districts marginally noted also if the Collectors consider it desirable to grant permission.
