GOVERNMENT OF MADRAS.

## REVENUE DEPARTMENT.

3rd April 1878, No. 523.

Read the following paper—:

No. 52. Despatch from the Most Honorable the Secretary of State for India.

Revenue, No. 10.

INDIA OFFICE, LONDON, 21st February 1878.

MY LORD DUKE,—With your Grace's letter, No. 13, of the 24th February 1877, copies of reports were transmitted relative to certain experiments instituted for the purpose of testing the value of Calcic Quinovinate in the treatment of fever and dysentery. These experiments were, however, of no value, owing to the manner in which they had been conducted, and justly drew forth from your Government an expression of dissatisfaction at the want of care exhibited in carrying them out.

2. In the 3rd paragraph of your letter it was stated that the Surgeon-General had arranged for a proper trial of a small quantity of the preparation which remained on hand, but no report on the results of this further trial has yet reached me. I desire that I may be informed of any further proceedings of your Government in this matter.

I have, &c.,
(Signed) SALISBURY.

To His Excellency the Most Noble
The Governor in Council, Fort St. George.
