3. The receipts during the year were less than those of the previous year while the expenditure was greater. This is owing to reduced operations and grant of famine batta to the establishment.

In Nellore the charges were more than the receipts, because the establishment was employed during a large portion of the year in revising the operations of the past years, and the receipts were in consequence limited. The Collector of Tanjore states that he intends to extend and improve the system of stamping weights in his district, and that no reduction is necessary in the fees collected. In the other districts the Collectors are requested to see that the charges and receipts correspond as nearly as possible.

5. The following statement shows the proportion of charges to receipts in each district in comparison with the same for the last year :—
