Read the following

No. 53.

From A. Mc. Webster Esquire
Collector of Coimbatore.

To. C. G. Master Esquire
Asst. Chief Secretary to Govt.
Fort Saint George this the Board of Rev.

I have the honor to report the following
case for the orders of Government.

In December 1877 the District Engineer
Captain Andry wrote to the Collector requesting
that certain lands near the Mettapolliem
Railway Station required in connection with
the improvement of the Hillar road might
be made over to him. Mr. Wedderburn visited
Mettapolliem and directed the Dy. Tahsildar
to make over to the D. G. W. the lands required
as per list forwarded by that Department.
This was accordingly done.

2. Among the lands made over is field No. 5
belonging to Mr. Bates of the Madras Cam-
paign Company shown in the accompanying
sketches. The whole field measures approx-
imately

Original

SECRETARY.

For the Board of Revenue, Coimbatore.

assessed at Rs 9-15-6. The iron actually used for the line and the triangular bit to the west of it which is said to be inaccessible in consequence of the line being taken through the field measures acres 3-62. From the documents recently produced by Mr. Bates it appears that Mr. Bates paid for field at Rs 7-25-4 or Rs 7-25-4 an acre. I offered Mr. Bates a similar amount which was also the sum paid for land taken up in 1873 for the Railway + 15 per cent under Section 42 of Act I of 1870 for the extent proposed to be purchased (acres 3-62 is the land actually used for the line and the inaccessible triangular bit to the west of it referred to above). Mr. Bates however wants the whole of the field at Rs 7-25-4 to be taken up and paid for. I pointed out to him the provisions of clause 2 Section 24 of the Act under which "the damage, if any, sustained by him at the time of awarding compensation by reason of severing such land from his other land", has only to be taken into consideration, and my object in proposing to take up the triangular bit not actually required for the line was to meet the provisions of that Section.

3. The officers of the P.W. Department have also stored metal on about 2 acres of field at 66 the extent of which is 6-7-8 acres shown in the plan herewith sent and belonging to Mr. Bates and this land is only required temporarily. I offered to rent the field from Mr. Bates.

4. Mr. Bates has however declined to agree either to sell a portion of field No 5 or to let me a portion of field No 66 and requires that the whole of both fields be purchased by Government. at the price he paid for them plus interest at 12 per cent and quintrent. Failing compliance with his terms by the 7th January 1879, he threatens legal action.

x Vide enclosed letter from Mr. Bates to the Dy. Secy of Madraspolice dated 11 Feb & to the Collyer 19 Dec 1878

5. As the procedure required by the Land Acquisition Act was not recorded at the first and as owing to Mr. Bates' absence in Northern India the amount of compensation could not then be settled, this difficulty has arisen. The only course now open seems to be for Government to issue the usual notification under the Act to the effect that the portions of the two fields are required for public purposes and to direct me under Section 17 of the Act to take possession of the land before the compensation is fixed. As Mr. Bates has declined to let his portion of field No 66 and as metal is still stored on it, I consider we shall have to acquire it permanently.

6. I beg therefore to enclose the usual notice and have the honor to request that should my proposal be adopted it may be published in the next Fort Saint George Gazette and that an intimation thereof may be communicated to me by telegram when the notice will be published in the District

as required by the Act.
