From The Deputy Commissioner
on special duty

To. The Commissioner of Inests

Sir, I have the honor to report that, in accordance with instructions received on the 25th inst. by a telegram from Govt. & the Commissioner, I despatched my office & Coimbatore on the 26th, and proceeding there myself on Monday 3rd March after seeing you.

2. I venture, however, to submit that from the present time up & June it is difficult & carry on any proceedings in the N. Coimbatore Division or in Southern India Generally.
The water supply is more & less dried up and most places in the Inests are so penerich that I fear it will be found impossible & keep a party in the field especially in April and May which as you are aware are months of comparative rest in these Inest districts.
Mr. Webster, the Collector of Coimbatore, goes home shortly and will not return till June, and I understand that the services of Mahomed Ally Sahib, the Sub. Asst placed under my orders

for Resettlement work will not be available for at least three months.

Besides this in our Report on the proposed reservations &c in Lower Canada the Collector & I asked particularly for orders & instructions for guidance pending receipt of which we did not like any to further progress. None have been received -

Under these circumstances I have 3.
ventured to submit an application for three months privilege leave of absence, and would respectfully submit for consideration whether further operations in the Preliminary Selection of Reserves might not with propriety be postponed till June as suggested by the Collector of Caius before in a demi official letter I have just received from him -

I have already laid before you and 4.
Government an opinion of my opinion that without a fresh Act, adequate establishments, a special Reserve Officer, and Survey party little or no real progress can be made, and all that is done will have to be done over again.

5. Were a party such as I could recommend organized & put on the field early in June with definite instructions and a plan of operations for the working Season of say, eight months good progress could be made; failing this I cannot promise any adequate or satisfactory results

Captains for privilege) leave except under Medical Certificate. Major Logan & Lt Bamber in charge of Wynaad and Salem respectively are both much incapacitated from single fever and are submitting such Certificates to enable them to take privilege leave which will leave 2 divisions without Officers. March April and May will be trying months for the work Captain Walker will have to undertake, and although the recommendation in the Balance Sheets and the principal Items protecting the Sources of the Bhowani could be better carried on during the hot weather than after the monsoon commences almost all the remainder of the work Contractors will be accordingly

Spaniish until June, March or North West might however be taken up during those months with little or no risk or if Captain Walker does not obtain his leave he might take charge of Salem & Wynad till June.

3. Captain Walker complains that no orders have been passed on his South Coimbatore Reservation report and I agree with him that he will be working to a certain extent in the dark until the views of the Board and Government have been expressed on many doubtful questions therein raised.

4. Referring to G. O. No. 219 of the 29th January last. It is very desirable that if Captain Walker obtains leave he should (before availing himself of it) meet Mr Logan and settle the question of the boundaries of the Forest Reserve near Palghat. Mr Logan

I think therefore that Capt. his leave must be refused - & then the question is what is to be done? The Court Circular here upon is little if any use. North Coimbatore seems to furnish - Bolampatty for Capt. Mr
