GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

17th January 1879, No. 116.

Famine Relief.

Read the following paper :—

No. 298. Endorsement of the Secretary to Government, Public Works Department, dated 10th January 1879, No. 203.

Read the following letter from Major H. R. MEAD, R.E., Superintending Engineer, 4th Circle, to Colonel E. A. FOORD, R.E., Chief Engineer, Public Works Department, dated Coimbatore, 7th January 1879, No. 28-6.

I HAVE the honor to bring to your notice that a large number of surplus tools are available for sale or transfer out of those obtained for famine relief-works in the Coimbatore District, and I request you will be so good as to obtain sanction for sending the surplus tools for sale, repair or old iron, to the Public Works Stores, Madras, for reasons detailed in the correspondence embodied in G.O., No. 3,321-W, dated 20th August 1878. The cost of sending them to Madras by railroad will be but little. It is, I consider, useless attempting to sell them in Coimbatore District, as there being no demand for them they will fetch little or nothing.

TRANSFERRED to the Revenue Department for disposal.

(Signed) E. A. FOORD, Colonel, R.E.,
Secretary to Government, P. W. D.

No. 299. ORDER THEREON, 17th January 1879, No. 116.

Miscellaneous.

THE Superintending Engineer will be referred to G.O., F.R. No. 2,470, dated the 4th December 1878, from which he will observe that it is open to the Collector to take that course by which he may consider he can dispose of the tools to the best advantage.

2. His Grace the Governor in Council however, would observe that it was not the intention of Government in that order to authorize the tools purchased for relief-works being returned into store, but to direct that they should be sold off; as, though the former course may be more economical in the far distant future, it is necessary for financial reasons that the tools should be realised, as soon as possible, consistently with the recovery of a fair portion of their value. His Grace the Governor in Council considers that this result may be attained by selling, either at Madras or in the districts, as the profit on the transaction may appear likely to be the greater, all the marketable tools, except a stock reasonable with regard to the probable Public Works requirements of the district in which the tools may happen

to be, and by forwarding the others, if worth it, as opportunity may occur, for repairs and disposal to that place where the repairs can be most conveniently and cheaply executed.
