GOVERNMEN MADRAS.

REVENUE D RTMENT.

17th Januar, No. 118.

Read the following paper :—

No. 363. Proceedings of the Boa Revenue, dated 15th October 1878, No. 2,797.

Read G.O., Revenue Department, 4th August 1878, No. 1,306.

ABSTRACT.—*Lands irrigated by Gov t or Private Tanks or Channels, or by Streams.*—Directing a return of all — omitted decennially as a part of the census ; requesting the Board to draw uitable form or to consider how far the comparative statement of irrigation n fallcan be made to serve the present purpose.

THE Board consider that it will b nt if a statement is prepared in the accompanying form. The form sugg Government distinguishes the cultivation of April to November from tha mber to March ; such a distinction does not seem to be necessary in a statement to be published with the census.

2. The Board beg to inquire whet nnual Statement B for private works, prescribed in Board's Proceedings, d th July 1878, No. 2,103, is required now that the Government have directe tement to be prepared decennially.

(A t act.)

gned) C. A. GALTON,
Acting Secretary.

Rev. Dept.

[illegible]/2797/16

Memo: for Orders.

Board's Proceedings dated 15th October 1878 No. 2797.

With these Proceedings the Board submit a form of Statement for lands irrigated by Govt. ~~or~~ by private tanks ~~or~~ by channels, ~~&~~ and by streams, for approval with reference to G.O. 11th Augt 1878 No. 1306, and enquire whether the annual statement B. for private works prescribed in Board's Proceedings dated 30th July 1878 No. 2103 is required now that the Govt. have directed the statement to be prepared decennially.

2. With reference to the suggestion how far the comparative statement+ of Irrigation and Rainfall can be made to serve the present purpose should be considered, the Board

remark

+ Board's Pros: 11th May 1874 No. 1092.

remark that the form is unsuitable for a decennial statement inasmuch as it distinguishes the cultivation of April to November from that of December to March.

3. As to the origin and object of the Irrigation and Rainfall Statement, a reference to the marginally noted cor+respondence is solicited. The statement is to be submitted to the Govt. of India annually in the Public Works Deptt. and it shows the area (Govt., Inam or Zemindari) irrigated by the aid of Govt. water, whether subject to water-rate or free of charge, and whether the land is cultivated with dry crops or wet crops." The statement now required by G.O. 14th August 1878 No. 1306 is to include the area irrigated by private tanks, channels and streams also. Thus it seems the Irrigation & Rainfall Statement cannot

— 25th March 1874 — 849 R.
Bd. Pro. 11th May — " — 1092.

Vide the last quoted Pro. of the Board.

cannot

Can not be made to serve the present purpose. But care will have to be taken that the information which may be furnished by its means to the Govt. of India may not conflict with the information which will be embodied in the new Irrigation forms for Government works that may hereafter be adopted with reference to Board's Pro. dated 30th July 1878 No. 2103 and 12 Novr. 1878 No. 3026.

4. As to the Board's enquiry whether the

form

Form B. prescribed for private works in the same Proceedings can now be dispensed with, a reference to the marginally noted papers* is solicited. The Statement was originally prescribed at Mr Wilson's suggestion for the information of this Govt. and may perhaps be dispensed with. But the decennial form does not contain all the information which the B. form does- for it does not distinguish "dry" irrigated from "wet", neither does it provide for the "estimated cost of the work originally" and "estimated amount of annual repairs". Further the B. form is to exhibit separately details for "such works as yield a revenue of Rs 500 and upward, the rest being shown in a lump under the several classes such as wells, tanks &c," while the decennial form is not to show details for any work however large, but is to be lumped with other works of its class.

Read the following paper

No 303 – Proceedings of the Bd Rev dated 15-10-1878 No 2797

Read G.O., Rev dept dated 1 August 1878 No 1306

Abstract – Lands irrigd by Govt or private Tanks, or channels or by streams – directing a return of all – to be submd decennially as a part of the census; requesting the Board to draw up a suitable form or to consider how far the Comparative Statement of irrigation & rainfall can be made to serve the present purpose.

The Board consider that it will be sufficient if a statement is prepared in the accompanying form. The form suggested by Govt distinguishes the cultivation of April to November from that of December to March; such a distinction does not seem to be necessary in a decennial statement to be published with the census.

2. The Board beg to enquire whether the annual Statement B for private works prescribed in B.P. No 2103 dated 30 July 1878 is required ~~the~~ now that the Govt has directed the Statement to be prepared decennially.
