GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

2nd July 1879, No. 1,407.

No. 13. READ THE FOLLOWING PAPER:—

Proceedings of the Board of Revenue, dated 16th May 1879, No. 1,313.

Read the following Proceedings of the Madras Government, dated 19th March 1879, No. 1,110, Revenue Department:—

Read G.O., dated 18th February 1879, No. 92 I, Public Works Department, regarding area irrigated under the at channels in Nidadavol and Baharzalli Estates in 1877-78.

COMMUNICATED to the Board of Revenue with reference to G.O., 13th January 1879, No. 131, Revenue Department.

2. The difference in the extent of irrigated area noticed in the Acting Chief Engineer's Note is enormous and must be fully explained.

(True Extract.)

(Signed) J. H. GARSTIN,
Acting Secretary to Government.

The Collector of Godavari has since reported that the correct area irrigated in the Nidadavol and Baharzalli Estates is 51,497 acres, and not 83,332 acres as reported in the Board's Proceedings, dated 7th April 1879, No. 964. This reduces the difference pointed out by the Chief Engineer considerably, but even the corrected area is in excess of that taken by the Board in their calculation of the sum of Rs. 61,500 referred to by the Chief Engineer by 6,216 acres. The Board took their figure from the Adangal accounts quoted by the Collector in his letter embodied in Board's Proceedings, dated 14th August 1878, No. 2,281. The

Irrigation Registers for Fasli 1287 were not then ready. Neither the Adangal nor the Irrigation Registers are according to measurement, and one set of accounts is reported to be as reliable as the other. The latter, however, requires no further consideration at present, as it has been decided that the lands should be measured and the correct area as so ascertained minus that exempted charged with water-rate.

the Chief Engineer considerably, but even the corrected area is in excess of that
taken by the Board in their calculation
of the sum of Rs. 64,500 referred to by
the Chief Engineer by 6,216 acres. The
Board took their figure from the Adangal
bounts quoted by the Collector in his
letter embodied in Board's Proceedings,
dated 14th August 1878, No. 2,281. The
then ready. Neither the Adangal nor
measurement, and one set of accounts is
latter, however, requires no further con-
sideration at present, as it has been decided that the lands should be measured and
the correct area as so ascertained minus that exempted charged with water-rate.

Irrigation Registers for Fasli 1287
the Irrigation Registers are accord-
reported to be as reliable as the other
consideration at present, as it has been decided that the lands should be measured and
the correct area as so ascertained minus that exempted charged with water-rate.
