GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

6th January 1879, No. 14.

Read the following paper :—

No. 30. Proceedings of the Board of Revenue, dated 2nd December 1878,
No. 3,216.

Read the following letter from H. W. BLISS, Esq., Commissioner of Salt Revenue,
to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated
Madras, 10th November 1878, No. 1,633 :—

In reply to Official Memorandum, No. 1,387, dated 30th ultimo, from the Board's
Sub-Secretary, I have the honor to state that I have hitherto refrained from replying
to their Proceedings, No. 1,937, dated 13th July 1878, because I have really had no
time to go into the subject.

2. At present, therefore, I have no more to say than that I agree with the
conclusion arrived at by the Board, that the collection of swamp salt and its sale on
behalf of Government will not generally be remunerative; and that it will be best, in
most places, either to destroy it or to adopt special measures to prevent its formation.

3. Even at Vedarniam my own opinion is that until the standard of manufac-
tured salt throughout the country is generally raised, so that it shall more closely than
at present approximate in specific gravity to swamp salt, it will not be worth while to
collect the latter to any greater extent than will suffice for local consumption and for
a moderate reserve to be used upon occasion in supplementing deficiencies in other
districts. It is useless to collect large quantities of an article which the people (or
rather the trade) will not take unless it is forced upon them, and which is usually
produced in such localities that its carriage to the sale depôts causes great trouble,
expense, and risk of peculation.

4. As regards the prevention of the formation of salt in swamps, or its destruc-
tion when formed, these are matters which need to be considered separately with
reference to the particular local conditions of every swamp in the country: I beg,
therefore, respectfully to request that I may be allowed to abstain from offering any
general opinion and from putting forward any general suggestions until I have had
the opportunity of making an inspection of each locality. In fact, I may go farther
and say that it is impossible for me to attend personally to this matter within any
reasonable time. It will involve an amount of detailed inquiry and of travelling
which it is utterly out of the question for me to undertake; and it must therefore, I
think, be left for disposal, as opportunity in each case offers, by my Deputies, when
appointed, under my general instructions and supervision.

SCRIMTTED to Government in continuation of the Proceedings recorded in G.O.,
dated 19th August 1878, No. 1,337.

2. The matter referred to in paragraph 4 must not be lost sight of.

(A true Copy and Extract.)

(Signed)

C. A. GALTON,
Acting Secretary.
