REVENUE DEPARTMENT, 7th JANUARY 1879, No. 22.

Submitted to Government with reference to their Order, dated 23rd November 1876, No. 1,555.

Cultivation up to August.

Average	1875-76
In 1874	1876-77
	317,224

2. The area cultivated up to August is 55,110 acres and shows a decrease of 317,224 acres as compared with the average cultivation in the same period of the previous three years. The decrease appears in all the taluks and is ascribed to the unfavorable character of the season.

3. The collections for the same period amount to Rs. 9,01,244 against an average of Rs. 7,50,020. The increase appears in the taluks of Huzar, Alwar, Gurgaon, Talwara, Anantpur, Dharwar, Panchkula, Hindupur, and Malakhera and is attributed to the collection of arrears. The decrease in the remaining taluks is ascribed to the distressed condition of the ryots.

4. It is observed that the three years with reference to which the average cultivation and collections have been calculated are not specified. The Board presume that it is the average of the three years ending 1875-76—viz. Board's Official Memorandum, dated 22nd October 1877, No. 1,682.
