GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

10th February 1879, No. 331.

Read the following paper :—

No. 178. From W. LEE KIRBEY, Esq., to R. W. BARLOW, Esq., Commissioner of the Nilgiris, dated Coonoor, 27th January 1879.

It may interest you to know that I received some seed of *Cinchona Calisaya* (*Ledgariana* variety) from a friend in Java in November last. I sowed the seed under glass on the 25th November, and have already transplanted in baskets twenty-five fine healthy plants, some of which are already six inches high. I should have had many more in baskets, but that some white worms destroyed a great many in the germinating beds. Although the quantity of seed I received was very small, I hope to raise several hundred plants from it. I am quite satisfied that cuttings from the plants I have, will be raised under glass without any difficulty, so that with a few plants and great care planters could easily propagate this fine variety of *Cinchona*.

FORWARDED to Government for information.

OOTACAMUND,
30th January 1879.

(Signed) R. W. BARLOW,
Commissioner.

No. 179. ORDER THEREON, 10th February 1879, No. 331.

Miscellaneous.

Communicated to the Wynad Planters' Association.

Commissioner Kilgus

Sir,

It may interest you to know that I received some seed of *fraxino a filisaya* *Lodgeriana Variety* from a friend in Java in November last. I sowed the seed under glass on the 25th November & have already transplanted in baskets 25 fine healthy plants some of which are already six inches high. I should have had many more in baskets, but that some white worms destroyed a great many in the germinating beds. Although the quantity of seed I received was very small I hope to raise several hundred plants from it - I am quite satisfied that cuttings from the plants I have will be raised under glass without any difficulty so that with a few more plants & great care planters could easily propagate this fine variety of *Cinchona*.
