In obedience to the instructions contained in the Order of Government, dated 17th February 1879, No. 398, I do myself the honor to forward, for submission to His Grace the Governor in Council, a map indicating the positions of the estates named in my report of the 6th instant, and also the areas which will be included in my maps on the scale of eight chains to one inch.

2. The maps in preparation for His Grace and which will accompany my final report on this district are—one on the scale of four miles to one inch on which the quartz veins will be shown as observed over the whole area which I have traversed; one on the scale of one inch to one mile indicating the reefs and gold workings from Choladi on the west to Gudalur on the east, and from near Nelakotta on the north to Nadukani on the south; and detail-maps of smaller areas on the scale of eight chains to one inch.

3. I have this morning obtained some information respecting the estates named in my last report.

3. As regards Strathearn and Maryland, the title, I believe, is vested in the Crown; they are said to be escheated lands, and the occupiers pay to the Government as rent or taxes Rs. 2 per acre per annum, but under what tenure I know not.

4. The Moyar Coffee Company are stated to have a lease for years from the Rajah of Nellumbur of Harewood and Kintail, and the rent they pay to the Rajah is Rs. 2 per acre per annum, and to the Government as rent or taxes Rs. 2 per acre per annum.

5. The Sheardale and Dunbar, the Hamsluck Hamslade, Adelphi, and Perseverance Estates are said to be in the same position.

6. The Nedukale Estate, I am informed, is Government land, or land purchased from the Government.

7. I cannot ascertain whether the Rajah of Nellumbur, or any one holding lands under leases for years from the Rajah, has any right or title to the gold in the lands.

The diagram illustrates a two-dimensional lattice structure. It consists of a grid of points. Arrows indicate the types of interactions between these points: solid arrows represent nearest-neighbor interactions, and dashed arrows represent next-nearest-neighbor interactions. The distance between nearest neighbors is labeled as 'a', and the distance between next-nearest neighbors is labeled as 'b'.
