GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

5th April 1879, No. 795.

No. 67. READ THE FOLLOWING PAPER:—

Telegram from Mr. W. ROWSON, Ootacamund, to J. H. GARSTIN, Esq.,
Acting Secretary to Government, Revenue Department, dated 17th
February 1879.

MARCH, April and May are the best months for coppicing.

No. 68. READ THE FOLLOWING PAPER:—

Telegram from Colonel R. H. BEDDOME, Rangoon, to J. H. GARSTIN, Esq.,
Acting Secretary to Government, Revenue Department, dated 18th
February 1879.

MAY till August best time for coppicing. I leave for Madras to-morrow.

No. 69. ORDER THEREON, 5th April 1879, No. 795.

Miscellaneous.

IN G.O., 24th February 1879,
No. 463, paragraph 33, the Commis-
sioner of the Nilgiris was directed to
arrange for coppicing experiments at all the Government Chinchona Plantations,
and the Conservator of Forests was called upon to advise as to the time of year
most favorable for the experiment. In the telegram read above, dated 18th
February 1879, Colonel Beddome states that from May to August are the best
months for coppicing, and May is one of the months recommended by the Assis-
tant Superintendent of the Neddivattam Plantations, in his telegram, dated 17th
February 1879.

2. The late Mr. McIvor reported (Captain C. Walker's report, paragraph
27, page 6) that trees coppiced between March and August put out healthy
shoots; and Mr. Broughton found (the same report, paragraph 36, page 9) that
the bark contained its maximum of alkaloid in the months of May and Octo-
ber. May would thus seem to be the best month for coppicing the trees. The work
will be put in hand accordingly, and special attention will be given to keeping the
two operations of barking and felling equally advanced.

3. The Government attach much importance to these coppicing experiments,
and they must be supervised with special care. The immediate superintendence
will be undertaken by the Forest Department, Colonel Beddome himself inspecting
and advising as to the plots to be felled, and the Deputy Conservator in charge of
the Nilgiri Range exercising a general supervision over the whole operations and
personally conducting those at Pykara (Wood and Hooker Estates). The Assis-
tant Superintendent will personally conduct the work on the Neddivattam Estate
with the assistance of a thoroughly competent subordinate, to be furnished by the
Forest Department.

(True Extract.)

(Signed) J. H. GARSTIN,
Acting Secretary to Government.

To the Conservator of Forests.
„ the Commissioner of the Nilgiris.

Exd. W. H. French.

Only when the Forest Officer is convinced that it is worth while to do so should he proceed, and deciding that the work he had in mind was of great value, he then began to keep up his work, especially during the winter and following spring season. Interesting that these experiments must be supervised by the Forest Department.

Dear Sir,
 I have the honor to acknowledge
 the receipt of your letter of the
 11th inst. in relation to the
 above named matter. I am
 sorry to hear that you are
 not satisfied with the result
 of the investigation. I will
 endeavor to do all in my
 power to rectify the error.
 Very respectfully,
 J. H. Thompson
