GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

7th April 1879, No. 806.

No. 87. READ THE FOLLOWING PAPER:—

From Messrs. PARRY and Co., to J. H. GARSTIN, Esq., Acting Secretary to Government, Revenue Department, dated Madras, 28th December 1878.

For some years we have taken a considerable interest in the cultivation of the Chinchona, and are contemplating extending our interest; but before doing so, we are most desirous of securing the last reports on the Government Chinchona Plantations, and that of the Commission which sat this year, all of which are in the Press, we understand, but on which no orders have been passed.

We, like many others, have planted wholly the Chinchona Succirubra, which was believed at the time to be the only species which would grow in the Wynad, but against which there are now very strong objections. We believe the Commission have very fully entered into this subject, and, before spending more money and losing more time, we wish to have the best and last information, so ask that copies of these reports may be granted to us.

No. 88. ORDER THEREON, 7th April 1879, No. 806.

Miscellaneous.

THE reports alluded to have been forwarded to the Secretary of State, and cannot be published until his reply on

the matters to which they relate is received.

2. The Government believe that Dr. Bidie has recently published a work of considerable value on the cultivation of Chinchona.

(True Extract.)

(Signed) J. H. GARSTIN,
Acting Secretary to Government.

G.O. of 806.

The reports allude to the fact that the
of the amount of the product is considerable.
rather to which they refer is unimpaired.
The first of these is that S. is in the country
with the same amount of product as the
cultivation of cinchona.
