TAMIL NADU ARCHIVES

GOVERNMENT OF TAMIL NADU
Rev. DEPARTMENT

Incompleted - Go.

G.O. No.	905	Press.
B.P. No.		Mis.
Dated	28.8.1877 197	

D.S.

Not to be folded or roughly handled

thoroughly by passing sim-
-ply from one to the other
and seeing the persons en-
-tered in the Roll. The same
report doubtful cases to the
Tahildar and the divisional
officer and these latter
can exercise an easy check
by a visit without notice
to any village in the taluq.
The inspection once thus
thoroughly made the routine
visit of the Inspectors
to see that the munseefs
with the experience gained
understand their continuing
rev.

responsibility must still
be insisted on.

I have the honor to
request your sanction to the
expenditure involved in
the above scheme.

For Dindigul Taluk

4— Revenue Inspectors for
probably three months
to come at 20 Rs each — 400

For Pulney Taluk

3— Revenue Inspectors as
for Dindigul — 360

The expenditure above
proposed should not all
be debited to the village
inspection for it has become
high time for other reasons

to explain them. I propose
at once therefore to double
the Revenue Inspectors in
number and to send these
officers on a rapid tour
through the villages with de-
tailed instructions in their
hands to be instilled into
the ~~muniffs~~ ^{muniffs}. The ~~muniffs~~ ^{muniffs}
with the assistance of the
Kumars will be requested
to give a descriptive roll
of every person retained on
relief in the village in the
form enclosed. A copy of
this descriptive roll will
be sent to the Taluk and
another to the Divisional Officer
and

and the *chuniffs* will be required to produce to any inspecting officer this descriptive roll and the persons entered in it.

I am just sending an advance of 5 Rupees to each village *chuniff* to enable him to support persons in danger pending inspection. The Revenue Inspectors after being increased in number leaving but from 20 to 30 villages in which to check the correctness of the joint conclusions of the village *chuniff* and *thumans*, can do this *tho.*

parts the supply is gradually on decrease. On the Road from *Ami* to *Vithore* there is only one Pond near *Thendaput* to which travellers resort for drinking water. The present supply therein will not be exhausted before *Bar-y* *thamtho*.

The cause of wells and Ponds getting dry is not only owing to the failure of rain but for want of openings in some parts.

The good water in some Ponds which are within the reach of my view in the town of *Ami* is going down every day. I have the

North Head
Dry Salterian Office
Since 14 February 1977

From

Mrs Annandin Laik
Deputy Salterian on full duties
North Head

W. S. Whitridge Esq
Collector of North Head

Sir,

With reference to your letter
dated 6 Instant, N. 204, I have

- 1 Waindward Lohildori the honor to enclose
Proj 372 dated 10 February the Arjes of Lohildori
- 2 Poloa Lohildori Proj 32 Regarding the present
dated 10 February 1977 supply of drinking
- 3 Arji Deputy Lohildori water.
Proj 45 dated 13 February 1977

The quantity in the
fresh water pond in the Caskish
Waindward will last for a month
or 40 days while the supply in ponds
of Caska Poloa and Posaon, a
Village adjacent to Poloa
will last for about two months.

Enclosure in a letter

from the Collector

North Head 14th

Feb 1977

to Government

19th March 1977

21965

9028 March 77

The scarcity of water in
most of the wells in several villages
of both Saluk is already much
felt and they have only supply
of one or two months more while
some will last for 10 or 20 days.

The water is going down by degrees
as the season is getting hot. Several
wells and ponds have already
become dry.

If there be no chance
of rains even in April, it is not
unlikely that the Rights and Cattle
will be put to much inconvenience
for water.

I learn that most of the
fresh water supply in the ponds
mentioned in Kassi Duni will
last till May next, while in some

To.

W. S. Whiteside Esquire

Collector of North West.

Sir.

With reference to your letter

No. 204 of the 6th Instant, I have the honor
to forward in original the Arzes received
from the Sasildars & the Dy. Sahaidars
of the Sub Division together with a precis
of their report.

2

From these you will observe that
the villagers lying along Palar ~~and~~ rivers
have a fair supply of drinking water
and there is no actual scarcity at present

even in other parts of the Gudiam and
Vellore Taluqs. It however appears
that the wells &c. in the villages situated
between Moranam and Abdullapuram
of the Arcot Taluq and in 7 villages
of the Kangundi Division ~~have~~
have become dried up. A large number
of wells in the former are already under-
going repairs.

I have &c.
