GOVERNMENT OF INDIA.
REVENUE DEPARTMENT.

1st May 1879, No. 1.

No. 58. READ THE FOLLOWING PAPER :—

Despatch from the Right Honorable the Secretary of State for India.

Revenue,
No. 11.

INDIA OFFICE, LONDON,
20th March 1879.

MY LORD DUKE,—I have received your Grace's letter, No. 4, of the 4th February, enclosing copies of the Proceedings of the Government relative to the Budget Estimates of the Government Chinchona Plantations for the official year 1879-80.

2. The receipts for the year are estimated at Rs. 2,56,000, the amount of the anticipated proceeds from the bark crop of 1878-79. This harvest is expected to yield about 100,000 lb. of bark, but one-half of this amount has already been received here and sold, and its proceeds will be brought to account as receipts of the current year. It would be more convenient if the departmental budget were in future so prepared as to render possible comparison with the actual accounts for the year: but in order to do this it is necessary to alter the present system of estimating receipts.

3. No explanation is given as to the reason why the bark crop is expected to be less in 1878-79 than in the preceding year. In the management of these Chinchona Plantations provision should be made for a continuously increasing supply of bark; for although the time is probably not distant when the consignment of the bark for sale in London on Government account will cease, it may be anticipated that a demand will arise for all that can be supplied for the purposes of local manufacture and consumption.

I have, &c.,
(Signed) CRANBROOK.

His Excellency the Most Noble
The Governor in Council, Fort St. George.

No. 59. ORDER THEREON, 1st May

No. 971.

Miscellaneous.

Communicated to the Commissioner of Nilgiris.

any portion of it is sent to England at as early a date as has been found possible during the last two seasons, it will be necessary to reconsider the present method of estimating receipts when framing the next Estimates (*vide* paragraph 1, G.O., 6th January 1879, No. 20).

3. The cause of the small outturn of bark in 1878-79 should be fully explained in the report on the year's operation.

4. Every effort must be made to frame a fairly accurate estimate of the annual capacity of yield of each plantation and work up to it.

(True Extract)

(Signed) J. H. GARSTIN,
Acting Secretary to Government.

To the Commissioner of the Nilgiris.
