Fort St. George

SIR,

With reference to para 2 of G.O. No. 277 dated 4th Instant, I have the honor to report that from my recent tours in South East Wynaad, and from what I observed there at and around Devala and thence to Cherambady, at elevations of from 3000 feet to 3500 feet, I am quite satisfied that Succirubra trees (Red bark) will do well throughout this tract.

2 The trees planted during recent years.

years are well grown and thriving in
every way - Medicine also that
Calicaya (yellow bark) will grow
well at these elevations, but I
cannot speak confidently, till fur-
ther experiments have been made.

I have the honor to be
your most obedt. servt.
