Sir,

With reference to your official memorandum dated 23rd ultimus n^o 273, I have the honor to forward herewith copy of a list of all the coffee estates in South Wynad and in so much of South East Wynad as still remains attached to this District.

2. As regards Ica and Cinchona, their cultivation has not yet been attempted to any extent worth noticing. The latter is chiefly planted as a screen on roads leading through the coffee estates. The Deputy Collector, Wynad is ascertaining the area, if any, that is planted up with either Ica or Cinchona, and as soon as his report is received I shall address you on the subject.

Sir,

In continuation of my letter n° 234 dated 4 June 1879, I have the honor to state that there is a small experimental sea opening at Perandatty, which I hear being considered fairly successful, is extended to 10 acres this year. As to Chinchona there are no openings, but Mr. Malcolm states he is planting it as shade, however the planting at Vellara is so extensive that considerable profit is made from the sale of the bark, but it is the only Estate where the planting of Chinchona has been any way extensive.

I have &c

FROM

COMMISSIONER, NILGIRIS,

TO

The Secretary to Government
Revenue Department
Ootacamund—

SIR,

With reference to official Memorandum No. 272 of the 23rd May last, I have the honor to forward a list of Plantation lands in the S. E. Wynnad registered in the Books of this office. A similar list will be sent shortly for the Arjau holding, which has been called for from the village officials.

2. The total acreage of the several estates given in this statement is taken from the Survey plans received from that Department, on application from the parties concerned, and from rough Registers

Registers received, for certain information.
The omission of the total area, opposite to some
estates, is because the same is not yet known.

3. The area under cultivation shown in the
list is furnished by Planters themselves, ~
verified in some instances by the inspection
of Revenue Subordinates, and is only approxi-
mately correct.

4. Government will observe that almost
all the estates are shown to be cultivated
with Coffee; but I have reason to know
that Cinchona to a limited extent is grown
on more of them than is entered in the list.
The extent, however, cannot be accurately
given now, and the area planted with this
crop must be comparatively small, ~
considering that the cultivation of Chin-
chona by private individuals - with a
few exceptions - is of recent date.
