GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

21st June 1881, No. 964.

READ THE FOLLOWING PAPER :—

No. 278. Despatch from the Right Honorable the Secretary of State for India, to His Excellency the Right Honorable the Governor in Council, Fort St. George, dated India Office, London, 19th May 1881 (Revenue), No. 14.

SIR,—I transmit, herewith, for your Excellency's information, the account

sale and particulars of the sale of 1,215 bales of Chinchona Bark received per steam ship “El Dorado,” the shipment of which was advised in your Excellency's Letter, No. 4, of the 26th January last. The remaining 250* bales have been made over to Mr. Whiffen for the manufacture of quinine and quinine alkaloids on Government account.

2. The net proceeds of the sale amounted to 22,006l. 3s. 5d., and it will be observed by reference to former account sales that the prices realized were not so high as they have been; this, I am informed, was on account of a general fall in the market of prices for

Chinchona bark and not in consequence of any inferiority in the quality of the consignment.

3. The estimated result of the manufacture from the 250 bales above referred to is about 1,000 lb. of quinine sulphate and 300 lb. of cinchonidine sulphate. A detailed report on the experiment will be transmitted for your information in due course.

4. In the letter which advised the shipment of this consignment, it is stated that the freight, amounting to 203l. 12s. 7d., is payable in London. From the list of charges, given in the account sale, the item for freight is 673l. 18s. and the voucher for payment gives the measurement 11,231 ft. 8 in. and the rate 60s. per 50 feet. In reply to a reference on this subject, the brokers state that “the 673l. 18s. is the amount of freight on the ‘El Dorado’ and 203l. 12s. 7d. is the amount of freight due on the parcel of 305 bales per ‘Manora.’” In your Secretary's letter, No. 13, of the 14th March, however, the freight on this last-named consignment, payable in London, is stated to be only 41l. 19s. 5d. I desire that I may receive some explanation of these apparent discrepancies.

5. I enclose, herewith, copy of a letter from Messrs. Jenkin and Phillips relative to the insurance effected by your Government on the Chinchona bark per

5th April 1881.

“El Dorado.” I request that the policy may be sent home as suggested, and that in advising the despatch of any future consignments of bark the nature of the policy effected for its insurance may be clearly stated.

I have, &c.,
(Signed) HARTINGTON.

51. Fine Street, E. C.
 London, 5th April 1881.

Sir,
 Will you oblige us by writing to the Authorities at Madras, and request them to send the policy of Marine Insurance for £30,000, which they effected through Messrs Arbuthnot Latham & Co for 1465 Bales Chinchona Bark, shipped by Screw Steamer, "Eldorado".

A question arose when the Steamer arrived whether the Marine Policy, covered the risk of conveyance from the ship to the warehouse.

The Bill of Lading states that the goods were to be delivered, overseas, into Government barges.

The vessel discharged in the Albert Docks, and the goods had to be conveyed in lighters to Bull Wharf, a distance of some four or five miles.

As you had no copy of the policy, and there was a doubt about the risk; the wharfingers insured them from the ship to his warehouse, which

The Under Secretary

 for India.

which cost him £26... English policies generally state that the insurers shall be covered from risk from shore to shore, which means from the time of shipment to their being housed in the warehouse.

We are, dear,

(S) Jenkins & Phillips

Revenue;
No. 171.

To His Excellency The Right Honourable The Governor
in Council, Fort St. George.

SIR,

Para. 1. I transmit herewith, for your Excellency's information, the account sale and particulars of the sale of 1,215 bales of Cinchona Bark received per steam ship "El Dorado." the shipment of which was advised in your Excellency's Letter, No. 4, of the 26th January last. The remaining 250* bales have been made over to Mr. Whiffen for the manufacture of quinine and quinine alkaloids on Government account.

2. The net proceeds of the sale amounted to 22,006l. 3s. 5d., and it will be observed by reference to former account sales that the prices realized were not so high as they have been; this, I am informed, was on account of a general fall in the market of prices for cinchona bark and not in consequence of any inferiority in the quality of the consignment.

3. The estimated result of the manufacture from the 250 bales above referred to is about 1,000 lbs. of quinine sulphate and 300 lbs. of cinchonidine sulphate. A detailed report on the experiment will be transmitted for your information in due course.

4. In the letter which advised the shipment of this consignment, it is stated that the freight, amounting to 203l. 12s. 7d. is payable in London. From the list of charges, given in the account sale, the item for freight is 673l. 18s. and the voucher for payment gives the measurement 11,231 ft. 8 in. and the rate 60s. per 50 feet. In reply to a reference on this subject, the brokers state that "the 673l. 18s. is the amount of freight on the 'El Dorado' and 203l. 12s. 7d. is the amount of freight due on the parcel of 305 bales per 'Manora.'" In your Secretary's letter, No. 13, of the 14th March, however, the freight on this

5. I enclose herewith copy of a letter from Messrs. Jenkin and Phillips relative to the insurance effected by your Government on the cinchona bark per "El Dorado." I request that the policy may be sent home as suggested, and that in advising the Despatch of any future consignments of bark the nature of the policy effected for its insurance may be clearly stated.
