20TH APRIL 1882, No. 407, REVENUE.

GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

READ—the following Despatch from the Most Honorable the Secretary of State for India, to His Excellency the Right Honorable the Governor in Council, Fort St. George, dated India Office, London, 23rd March 1882, Revenue No. 14:—

I have considered in Council your Excellency's letter No. 3, of the 11th February last, with which is transmitted, with reference to a doubt expressed by Mr. Cross as to the correct nomenclature of the bark grown at Naduvatam and there known as *C. Succirubra*, a suggestion by the Deputy Conservator of Forests in charge of the Chinchona Department, that the consignment of bark sent Home by the S.S. *Merkara* should be sold, with the view of ascertaining what effect Mr. Cross' assertion may have on the prices of the bark. This proposal is, I observe, not in any way supported by your Government.

2. In the present state of the London Bark Market, where the stocks on hand are unusually large, it seems doubtful whether the sale of the consignment in question would afford any information of value with reference to the question at issue; but the medicinal importance of the bark can be ascertained by analysis. I do not, therefore, propose to depart from the usual course in the present case, but careful analysis will be made of each separate description of bark, and a report on the same will be transmitted in due course for the information of your Government.

I have, &c.,
