GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following letter from Surgeon-Major G. BIDIE, M.B., C.I.E., Superintendent, Government Central Museum, Madras, to the Secretary to Government, Revenue Department, dated 27th January 1883, No. 142 :—

I have the honor with reference to paragraph 2 of G.O., No. 1381, of 8th December 1882, to report the delivery to the Master Attendant of the case of Chinchona specimens for the Pharmaceutical Society of Great Britain. I enclose an invoice of the collection and have to request the favor of its being forwarded to the Pharmaceutical Society through the Most Honorable the Secretary of State for India.

2. Along with the specimens I enclose a copy of my pamphlet on Chinchona culture to afford the necessary information regarding the specimens and the industry.

READ—the following despatch from the Most Honorable the MARQUIS OF HARTINGTON, Her Majesty's Secretary of State for India, to His Excellency the Right Honorable the Governor-General of India in Council, dated India Office, London, 7th December 1882, No. 76, Revenue :—

Referring to your Excellency's letter No. 51, of the 10th October last, I forward a copy of a letter from the Pharmaceutical Society, dated the 16th November, and request that instructions may be given for complying as fully as possible with the wishes expressed therein, and in the letter which accompanied my despatch No. 9 (Revenue) of the 16th March last, with respect to furnishing that institution with a collection of barks from each species of Chinchona cultivated in India in the manner indicated.

ENCLOSURE.

Letter from ELIAS BREMRIDGE, Esq., Secretary, Pharmaceutical Society of Great Britain, to Sir LOUIS MALLETT, C.B., India Office, 17, Bloomsbury Square, London, W.C., dated 16th November 1882.

In reference to your letter of the 7th instant, I have the honor to acknowledge the receipt of the samples of Chinchona barks to which you refer, and am instructed to convey the best thanks of this Society to the Government of India for this evidence of a desire to meet the Society's request that its Museum might be supplied with a series of the barks of the Chinchonas cultivated in India.

2. I am, however, instructed to point out that the specimens received included three sorts of bark only, viz., *Chinchona officinalis*, *Chinchona Ledgeriana* and *Chinchona succirubra*, the other varieties in cultivation not being represented. Moreover, there is no bark from the root in any of the samples.

3. As stated in my communication of February 21st last, this Society is desirous of obtaining "well authenticated specimens of barks from each species of Chinchona cultivated in India." Under Species is included every distinct variety or hybrid in cultivation.

4. I presume, therefore, that the specimens already received may be understood to be a portion only of the collection we may hope to receive.

5. It would greatly add to the value of the collection if the barks were accompanied in each case by Herbarium specimens of the flowers and leaves of the identical tree from which the bark is taken.

READ—the following letter from Surgeon-Major G. BIDIE, M.B., C.I.E., Superintendent, Government Central Museum, Madras, to the Secretary to Government, Revenue Department, dated 7th February 1883, No. 195 :—

I have the honor to forward, for transmission to the Right Honorable the Secretary of State for India, Bill of lading for the box of Chinchona specimens collected and forwarded for the Pharmaceutical Society of London, under G.O., No. 1331, of 8th December 1882.

ORDER—dated 12th February 1883, No. 209, Revenue.

Miscellaneous.

Ordered that the shipment of the specimens of bark be intimated to the Right Honorable the Secretary of State.

2. It has been ascertained from Dr. Bidie that each specimen is accompanied by a Herbarium specimen of the flowers, fruit and leaves of the tree. No root bark is forwarded as trees are not uprooted on the Madras plantations.

3. The collection, for which the Pharmaceutical Society are indebted to Dr. Bidie, includes specimens of every species and variety under cultivation on the Nilgiris, and is the largest and most complete that has yet been made.
