Madras 1st December, 1881.

H. G. Stokes, Esq
Secretary to Government,
Revenue Department,
Madras

Sir,

Referring to your demi official letter of 18th ultimo to Mr. Mackenzie we beg to advise that after correspondence with Dr Cleaver we find that he will require the following bark for experiment:-

1000 lbs. of Cinchona Officinalis containing about 1% of quinine
1000 lbs. of Cinchona Succirubra containing 2% mixed Alkaloids

You will observe Dr Cleaver does not ask for high quality bark, but for a description which at the present London price for the unit of quinine is hardly worth shipping to England. We trust therefore that the Government will be able to furnish this quantity of bark at his disposal although the amount is larger than has been previously

the

The arrangement will of course be the same for the whole quantity, viz: that we are to return to Government all Alkaloids or sulphate extracted from the bark supplied.

The bark is wanted at once and should be despatched to Dr Cleaver, Cullui Nilgiris, Calicut.

We are,

Sir,

Your obedient servants,

Arbuthnot & Co

In Council.

Mis: No no: 5389.

The Secretary of Govt Jork Circular & Cantatim Barks & Sandy Nilgiris will forward as soon as possible to the address named the quantity of bark asked for by Messrs Arbuthnot & Co as many as possible of the Jamaica Stalks.

W.E.
