14TH JANUARY 1885, No. 62, REVENUE.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following despatch from the Right Honorable the EARL of KIMBERLEY, Her Majesty's Secretary of State for India, to His Excellency the Right Honorable the Governor in Council, Fort St. George, dated India Office, London, 18th December 1884, No. 41 (Revenue):—

I have to acknowledge the receipt of the annual report of the Government Director of the Nilgiri Cinchona Plantations for the year 1883-84, forwarded with your Secretary's letter No. 56-A, dated 25th October last.

2. I observe with satisfaction that the condition of the plantations shows some improvement. The wasteful system of uprooting one variety of tree to make room for another in order to suit a temporary demand has apparently been abandoned. The Naduvatam estate has unexpectedly recovered and, while contributing a fair amount of bark this season, promises well. Two, out of the four plantations, may therefore be considered to be in a prosperous and productive condition. At the same time I note that a very large proportion of the crop gathered was derived from uprooting.

3. The policy of selling cinchona in Madras, instead of shipping it to the Home market, has been attended with success although prices were low in India and an unusually large balance of bark remains in hand. It is hoped that, after this year's experience of the change of market, the estimates will in future more nearly coincide with the actual receipts, and that a larger quantity of cinchona products will be disposed of.

4. I attach considerable importance to the suggestion of the Director in paragraph 62 of his report, as now the demand for the alkaloid has become universally diffused, it should be placed within the reach of the poor, and I await the deliberations of your Excellency's Government on this question.

ORDER—dated 14th January 1885, No. 62, Revenue.

Miscellaneous.

A copy of this despatch will be communicated to the Director of Government Cinchona Plantations and the Surgeon-General; the special attention of these officers is directed to paragraph 4 of the despatch. The Government will expect a report upon the experiments made with the fluid extract of cinchona supplied to the Surgeon-General with G.O., 2nd December 1884, No. 1329, at the close of the current official year.

(True Extract.)

(Signed) H. E. STOKES,
Secretary to Government.
