

and submit it to me as soon
as possible, but I beg respect-
fully to observe that the
necessary particulars have to
be obtained from the planters
themselves in every instance as
the Village accounts do not
show the species of Cinchona
cultivated on each Estate and
the outcome of crop. My experience
shows that requisitions for infor-
mation from Planters are very
imperfectly attended to. The
Classification of Cinchona
trees prescribed in the Govern-
ment of India form is very
difficult

difficult and there³ are very
few Planters who are able to
give true particulars for their
own Estates. Not one of the Revenue
officers in the District could
distinguish all the different
varieties named in the Govern-
ment of India list. Even if
I had subordinates with the
necessary technical knowledge
it would take them a very
long time to obtain the required
particulars for each Estate.

3. The time allowed for the
preparation of the return is
utterly insufficient and I would
respectfully

respectfully suggest that the
submission of the return may
be deferred at least till
the 1st August next.
