Read—the following letter from W. MORGAN, Esq., Acting Government Solicitor, to the Secretary to the Board of Revenue, dated Madras, 12th March 1887, No. 148 :—

### *Tekadi Forest Lease.*

Herewith I have the honor to forward fair copy surrender of the existing lease of the 12th October 1867, and fair copy of the new lease which it is proposed to take in lieu thereof.

2. With reference to the latter document, I have had to recite the old lease somewhat at length, in order to show, as far as possible, the reason for the new one; I have also inserted other recitals bearing upon the subject, with a view to showing that the new lease is as much for the benefit of the lessor as the lessee, the subject-matter of which recitals I have taken from the letters of Colonel Campbell Walker and the Proceedings of the Board. These recitals, however, may possibly not be as full as is desired, and can therefore be altered where necessary.

3. I have numbered the several covenants entered into by the lessor and the lessee, respectively, in order that the document may be more readily followed. Care will have to be taken in filling up the blanks in covenant No. 3, and if a reference to milestones is found impossible, some other means must be devised by which all chance of dispute on this ground may be avoided.

4. By the 7th covenant I have empowered Government to surrender the lease at the end of the first 20, 40 or 60 years. It might be as well that Government should have this power, should the anticipation of the Forest Officers not be fulfilled.

5. By the last proviso I have made the total of the sums of Rs. 75,600 (the present advance) and Rs. 17,659 (the balance of the advance of Rs. 30,000) a continuing charge upon the premises.

6. The lease being perpetually renewable is, for all practical purposes, a complete alienation of the land, and the cases on the point have left it somewhat doubtful whether a document of this description is binding upon future proprietors. It might be as well I think to refer this point specifically to the Advocate-General, and I certainly think that every effort should be made to get at all events some of the principal members of the Tarwad to join in the lease.

7. I would also suggest that, with the object of rendering the lease as free from objection hereafter as possible, the rent and also the renewal fees upon each renewal of the lease should be progressively increased.

8. The two schedules can be attached to the lease when the fair copy is returned for engrossment.

---

Resolution—dated 18th March 1887, Forest No. 156.

Submitted to Government for early orders, in regard to para. 7 of the Government Solicitor's letter. The Board themselves do not think that any such increase as is recommended is actually necessary.

2. All that can be done in this preliminary stage in Madras has been done, and the Conservator proceeds shortly with the originals of the enclosures now submitted to take further action in Coimbatore and Pálghat. The result of such action will be communicated to Government in due course.

The point raised in para. 6 of the letter from the Government Solicitor read above will be referred to the Acting Advocate-General for his opinion. As it is, in the opinion of Government, highly desirable that the latter officer should be fully informed as to all facts bearing on the proposed revision of the lease, the Conservator of Forests, Southern Circle, will be requested to arrange for a personal interview with Mr. Spring Branson, on as early a date as practicable.

*Read*—the following Proceedings of the Board of Revenue, dated 31st March 1887, Forest No. 196, Mis.:—

Read—the following letter from Lieutenant-Colonel I. CAMPBELL WALKER, Conservator of Forests, Southern Circle, to the Secretary to the Board of Revenue, dated 28th March 1887, No. 224:—

Referring to G.O., No. 1846, of 23rd instant, which reached me here to-day, I have the honor to report that Mr. Porter is now at Pálghat with Mr. Logan, arranging final details as to the revised lease which I settled satisfactorily with the Nambidi's agent so far as forest interests are concerned, last week in Coimbatore.

2. I trust that the Board will be in receipt of a revised and amended draft of the lease with its accompaniments within the current week, along with full information from the Collector of Malabar to whom I have sent all necessary papers.

3. I would recommend that the revised lease, &c., be sent to the Acting Advocate-General with whom, if necessary, I shall be ready to confer in Madras on the 11th or 12th April; but I can really give little or no information or any opinion which would be of any value as to the point raised by the Acting Government Solicitor.

*Read*—the following letter from Lieutenant-Colonel I. CAMPBELL WALKER, Conservator of Forests, Southern Circle, to the Secretary of the Board in the Department of Land Revenue, dated Madras, 13th April 1887, No. 75:—

I have the honor to report that, in accordance with the orders of Government, I have conferred with the Acting Advocate-General, and given him the fullest information in connection with the Tekadi lease.

2. Mr. Branson has promised to let the Acting Government Solicitor have his written opinion at once, and Mr. Morgan hopes to have the amended draft ready by to-morrow.

3. If the Board will kindly send it on to Government at once and authorise me to represent them at Ootacamund, I shall do my best, in communication with the Revenue Secretary, to expedite matters, so that the Collector may be authorised by telegram to disburse the money, which is in the hands of Mr. Porter, within the current month, and so obviate the necessity of a special allotment from Provincial Funds for 1887-88.

4. Mr. Logan is on the spot near Pálghat and ready to do the needful immediately he is authorised by Government.

### Enclosure.

*In the Matter of the proposed Lease of the Tekadi Forests.*

My opinion is asked on the following points:—

(1) Whether the agreement of the 29th June 1885, executed by the Valiya Nambidi (who is stated in the question to be a "minor"), is valid or otherwise?

(2) Whether the proposed lease is binding on the family?

### OPINION.

From the letter of the Collector of Malabar to the Board of Revenue, dated the 29th March 1887, para. 3, it appears that the first question was put under a mistaken belief that the Valiya Nambidi was a minor at the time he executed the document of the 29th June 1885, whereby he resigned the family management to his mother, Valiyamma, for ten years without power of alienation of the estate or of creating charges upon it.

The Valiya Nambidi was not a minor at the time. He was the karnavan of the Tarwad. According to Malabar law a karnavan may delegate his authority, but he is at liberty to resume his duties as karnavan at any time.

The lease should be executed by the Valiya Nambidi, and I think his mother should join in the execution as the only other adult member of the Tarwad at the present time.

2. The proposed lease is practically a perpetual one. Such a lease is within the powers of a karnavan if beneficial to the Tarwad. Whether such a lease is beneficial to a Tarwad or not is a question of fact, the answer to which depends upon the circumstances of each case.

If the recitals contained in the proposed lease of the Tekadi forests are correct, it appears to me that the said lease is a beneficial one for the Tarwad, of which the Valiya Nambidi is the karnavan. The said lease is, therefore, within the power of the Valiya Nambidi to execute. When duly executed it will be binding on the whole Tarwad.

3. My opinion has not been specially asked for upon the terms of the proposed lease, but, as I have gone over it with the Conservator of Forests, Southern Circle, and with the Government Solicitor, I record my own views on the several points discussed by the Government Solicitor in his letter to the Board of Revenue of the 12th March 1887, No. 148, and in his letter to the said Board, dated the 4th April 1887.

(*a*) The covenant empowering Government to surrender the lease at the end of the first 20, 40, or 60 years, suggested by the Government Solicitor, is objected to by the lessors, and I think with reason.

If the calculations of the Forest Officers are correct, the power reserved is unnecessary. If the said calculations turn out to be incorrect, then the covenant would not be fair to the Tarwad, and, on that ground, the lease might be questioned hereafter. The covenant would be a very one-sided one, for no similar power is given to the lessors to put an end to the lease "at the end of the first 20, 40 or 60 years." That fact would also be taken advantage of if the family hereafter seek to set aside the lease.

(*b*) I agree with the Government Solicitor as to raising the rent and for the payment of premium upon renewals up to a certain amount.

Government will not renew the lease, unless a profit is being derived from it. The then members of the Tarwad might fairly claim to obtain some advantage from the increased value of their property. They have no power under the lease to put an end to the tenancy, except in default of payment of rent. But for the condition suggested, the lessors will never gain the slightest advantage from the improvement of their estate. The suggested increase and payment will not be much for Government to concede, and the insertion of such a clause will still more deprive the Tarwad of the power of contending that the lease was not beneficial to it.

(*c*) I am inclined to agree with the Government Solicitor as to the inadvisability of inserting the addition to clause 7 of the lease referring to the payment of interests by Government. It appears that the creditors are willing to accept immediate payment. If that is so, why insert the clause as to interest in the event of their not accepting such payment?

By the lease the lessee undertakes to pay the debts of the lessors mentioned. A debt is a "personal duty of the debtor to pay, and, until the time of payment has arrived, there is no duty and no debt," (Macleod). When the time of payment arrives (in the case of those who can legally decline to accept immediate payment), the Government will pay the debt then due. On what ground should Government be called upon to pay interest to the lessors upon a duty they undertook when they incurred the debt? The agreement in the lease is to pay the lessors's debts, not to pay the lessors, on the execution of the lease, the amount due by them, in order to enable them to pay their debts as they became due and to invest the money in the mean time for their own benefit.

(*d*) On the subject of minerals, I think it will be better to retain clause 8, and by clause 12 to exclude all claim to enter by the janmi.

(*e*) I agree with the Government Solicitor in thinking that clause 9 is unnecessary.

(*f*) I also agree with him as to the condition giving a right of entry in default of payment of rent, and as to the reasons which make the retention of the said condition necessary.

(*g*) I think that clause 12 of the lease should specifically deprive the lessor of right of entry upon the land, except with the special permission in writing of the lessee, for any purpose whatever, except when exercising the right of way mentioned in clause 3 and the right to re-enter on non-payment of rent. By this means he will be prevented from entering to carry on mining operations, or for the purpose of catching elephants and of exercising the other rights which I understand are by custom impliedly reserved by janmis.

*Read*—the following letter from W. LOGAN, Esq., Collector of Malabar, to the Secretary to the Board in the Department of Land Revenue, Madras, dated 11th April 1887, No. 1656:—

Referring to the Board's Proceedings, dated 31st March 1887, Forest No. 196, Mis., I have the honor to state that the amended lease of the Tekadi forests was submitted to the Board on the 29th idem, with my letter N of that date.

2. The schedule of debts of the Kollangód family furnished by the Nambidi's agent shows a present liability of Rs. 75,727-6-8, a small portion of which is, as the Board will perceive, not covered by duly executed documents. The agent explains that some of the loans being of a petty character, and in view of the social status of the family, it has not been found necessary to execute proper documents in all cases, and this explanation may, I believe, be taken as correct.

3. The previous history of the debts has, so far as could now be ascertained long after the death of persons who originally contracted them, been traced and noted in the schedule, the debts having been generally described in the body of the document as "incurred on behalf of, and for the benefit of, the said Tarwad;" and I think this is all that it is necessary to insert in the document on this head. Before

the schedule is fair copied after approval by the Board and Government, the entries will again be checked with the original documents which are now with the Nambidi's creditors. The documents furnished to, and examined by me are transcriptions of the originals.

ORDER—dated 22nd April 1887, No. 384, Revenue.

Forest No. 53.

The draft lease of the Tekadi forests is approved.

2. It will be forwarded to the Collector of Malabar, who will draw up an agreement on stamped paper, stating that the parties mentioned as the lessors in the draft lease have read the draft over and signed it in token of their approval, and that they agree to execute and register the deed itself when engrossed.

3. This agreement should, on its and the draft lease being signed, be registered. As soon as this has been done, the Collector may pay the Rs. 75,000 specified in the draft lease. The Conservator of Forests, Southern Circle, has arranged that it shall be placed at his disposal.

4. The Collector should transmit the draft lease direct to the Government Solicitor, who will have the same engrossed and forward it to the Collector of Malabar, in order that it may be executed by the Valiya Nambidi and his mother.

5. A copy of the letter of the Collector and the original list of the debts due by the Tarwad, which accompanied the second of the Proceedings of the Board read above, will be transmitted to the Government Solicitor.

Opinion

I have read the papers sent to me with the Official Memorandum, in the Revenue Department, No. 31, relating to the revision of the Lease to the Government, of the Ickadi Forests situated in the Anamalais, by the Kolangode Nambidi, the head of a Malabar Tarwad, whose property the Forests are. I think the Nambidi has legal power to grant the proposed lease in place of the existing lease. But there should be a recital of the circumstances which led to the execution of the new lease. I presume the Forest in question is one to which the provisions of Sections 30 and 31 of the Madras Forest Act V of 1882 apply. It would be advisable that the adult members of the Tarwad should testify their assent by signing the lease as witnesses, at all events, if not as executing parties.

In the Matter of the proposed Lease of
the Tekady Forests

My opinion is asked on the following points:

1. Whether the agreement of the 29th June 1885 executed by the Valiya Nambidi (who is stated in the question to be a "minor") is valid or otherwise?
2. Whether the proposed lease is binding on the family?

## Opinion

1. From the letter of the Collector of Malabar to the Board of Revenue dated the 29th March 1887, para 3, it appears that the first question was put under a mistaken belief that the Valiya Nambidi was a minor at the time he executed the document of the 29th June 1885 whereby he resigned the family management to his mother, Valiyamma, for two years without power of alienation of the estate or of creating charges upon it.

The Valiya Nambidi was not a minor at the time. He was the Karnavan of the Tarwad. According to Malabar Law a

Karnavan

Karnavan may delegate his authority, but he is at liberty to resume his duties as Karnavan at any time.

The lease should be executed by the Valiya Nambidi and I think his mother should join in the execution as the only other adult member of the Tarwad at the present time.

2. The proposed lease is practically a perpetual one. Such a lease is within the powers of a Karnavan if beneficial to the Tarwad. Whether such a lease is beneficial to a Tarwad or not is a question of fact the answer to which depends upon the circumstances of each case.

If the recitals contained in the proposed lease of the Tekady Forests are correct, it appears to me that the said lease is a beneficial one for the Tarwad of which the Valiya Nambidi is the Karnavan. The said lease is, therefore, within the power of the Valiya Nambidi to execute. When duly executed it will be binding on the whole Tarwad.

3. My opinion has not been specially asked for upon the terms of the proposed lease, but as I have gone over it with the

Conservator

Conservator of Forests, Southern circle, and with the Government Solicitor, I record my own views on the several points discussed by the Government Solicitor in his letter to the Board of Revenue of the 12th March 1887. No. 148 and in his letter to the said Board dated the 4th April 1887.

(a) The covenant empowering Government to surrender the lease at the end of the first 20, 40, or 60 years, suggested by the Government Solicitor is objected to by the Lessors, and I think with reason.

If the calculations of the Forest Officers are correct, the power reserved is unnecessary. If the said calculations turn out to be incorrect, then the covenant would not be fair to the Tarwad, and, on that ground the lease might be questioned hereafter. The covenant would be a very one sided one for no similar power is given to the Lessors to put an end to the lease" at the end of the first 20, 40 or 60 years". That fact would also be taken advantage of if the family hereafter seek to set aside the lease.

(b) I agree with the Government Solicitor as to raising the rent and for the payment of

premium

premium upon renewals up to a certain amount.

Government will not renew the lease unless a profit is being derived from it. The members of the Tarwad might fairly claim to obtain some advantage from the increased value of their property. They have no power under the lease to put an end to the tenancy except in default of payment of rent. But for the condition suggested, the lessors will never gain the slightest advantage from the improvement of their estate. The suggested increase and payment will not be much for Government to concede, and the insertion of such a clause will still more deprive the Tarwad of the power of contending that the lease was not beneficial to it.

(c) I am inclined to agree with the Government Solicitor as to the inadvisability of inserting the addition to clause 7 of the lease referring to the payment of interest by Government. It appears that the creditors are willing to accept immediate payment. If that is so why insert the clause as to interest in the event of

their

their not accepting such payment?

By the lease the lessee undertakes to pay the debts of the lessors mentioned. — A debt is a "personal duty of the debtor to pay, and, until the time of payment has arrived, there is no duty and no debt" (Macleod). When the time of payment arrives — (in the case of those who can legally decline to accept immediate payment) — the Government will pay the debt then due. On what ground should Government be called upon to pay interest to the lessors upon a duty they undertook when they incurred the debt? The agreement in the lease is to pay the lessors' debts, not to pay the lessors on the execution of the lease, the amount due by them in order to enable them to pay their debts as they became due and to invest the money in the meantime for their own benefit.

(d) On the subject of minerals, I think it will be better to retain clause 8 and by clause 12 to exclude all claim to enter by the Janmi.

e.

(e) I agree with the Government Solicitor in thinking that clause 9 is unnecessary.

(f) I also agree with him as to the condition giving a right of entry in default of payment of rent, and as to the reasons which make the retention of the said condition necessary.

(g) I think that Clause 12 of the lease should specifically deprive the lessor of right of entry upon the land, except with the special permission in writing of the lessee, for any purpose whatever, except when exercising the right of way mentioned in clause 3 and the right to re-enter on non-payment of rent. By this means he will be prevented from entering to carry on mining operations, or for the purpose of catching elephants and of exercising the other rights which I understand are by custom impliedly reserved by Janmis.

## Proceedings of the Board of Revenue
(Land Revenue),

*Dated* 19th April 1887.

Forest No. 250, miscellaneous

READ the following letter from the Collector of Malabar to the Secretary to the Board in the Department of Land Revenue, Madras, dated 11th April 1887 No. 1656

Referring to the Board's Proceedings dated 31st March 1887, Forest No. 196 misc., I have the honor to state that the amended lease of the Tekadi Forests was submitted to the Board on the 29th idem with my letter No of that date

2. The schedule of debts of the Kollangód family furnished by the Nambidis' agent shows a present liability

liability of Rs 75,727-6, a small portion of which is, as the Board will perceive, not covered by duly executed documents. The agent explains that some of the loans being of a petty character and in view of the social status of the family, it has not been found necessary to execute proper documents in all cases, and this explanation may, I believe, be taken as correct.

3. The previous history of the debts has, so far as could now be ascertained, long after the death of persons who originally contracted them, been traced and noted in the schedule, the debt having been generally described in the body of the document as "incurred on behalf of and for the benefit of the said Taravad", and I think this is all that it is necessary to insert in the document on this head. Before the schedule is faircopied after approval by the Board and Government, the entries will again be checked with the original documents which are now with the nambidis' creditors. The documents furnished to, and examined by me are transcriptions of the originals.

Resolution:

Submitted to Government, in continuation of Board's Proceedings dated 14th April 1887, Forest No. 206.

FOR ORDERS.

The Lr. of the Bd of Rev forwarding the Opinion of the Advocate Genl called for in G.O No. 173 dated 15th Feb last and the revised draft of the proposed lease of the Tekadi forests prepared by the Govt. Solicitor ~~in consultation~~ with the Advocate Genl and Consr of Forests S. Circle and submitted for my early orders.

I have personally conferred with Col Walker and he agrees to the suggestions made by Mr. Morgan in the margin of the draft.

He informs me that he has drawn cheques for the Rs 75,000 which will have to be paid if the lease is approved and that if [illegible] presented before the 30th inst. the Revenue Dept. will raise no objections

I suppose the document may now be executed, though how this can be done & the money paid before the end of next week is hard to see.

It is perhaps not a matter of any great importance but it seems to me unnecessary to practically debar the lessors & lessee from capturing elephants or working minerals or precious stones so long as the lease holds good.

GOVERNMENT OF MADRAS REVENUE DEPARTMENT

Revenue Secretariat,
Apl: 1887.

My dear Morgan,

I am directed to forward to you a copy of the order of Govt. regarding the lease of the Tekkadi Forests. The reason why this has been passed is as follows:—

If the money which has to be paid under the lease (Rs 75.000) is not drawn and paid before the 30th instant – it will lapse and the sanction of the Govt: of India for the payment will be necessary. Further, one of the creditors had with some difficulty been induced to agree to be paid off and the condition upon which he does so is that he has his money before the end of the month. There is not sufficient time to have the lease engrossed and executed before the 30th. Col: are of opinion that if the agreement mentioned in the order is executed and registered, it will be sufficiently binding upon the Tarwad to warrant the payment of the Rs 7500 and that the difficulty mentioned above will be obviated.

If you see anything wrong or consider the opinion of Col: & mine incorrect, please wire direct to the Collr. of Malabar to withhold payment of the money and wire here letting me know that you have done so.

Yours sincerely
(Sd) J. F. Price

I have entered in the draft the figures suggested by you with regard to renewal & co. The schedule of the debts due by the Tarwad will be sent on to you from this office. Will you kindly look over it and see if there is anything wrong about it. If there is, please telegraph to the Collr. direct. He is at Palghaut.
