RECEIVED
LEGAL DEPARTMENT

~~Fort St George~~, 16th July 1887.

My dear Price,

With reference to public opinion as regards the medicinal value of the Fluid Extract of Caidesa, I enclose a note from Kuna, the ~~Patient~~ Interpreter of Chittoor, which I have sure you will like to see. If you could get Mr Solomon Pereira also to give us his experience of the drug we might get some more useful testimony. I could write, but of course

Serena will understand much more readily than others can from me. I hope you will in future let me have a copy of all P.Os bearing on the Cuthona Nephrodion, as well as any back orders that have not been communicated to me. I should also like to get copies of all letters from W. Stroyan regarding his work, if you will

Kindly order items to be sent? I mean of course those recorded in orders of proof.

Yours sincerely

Eliot

Dear Dr Bidie

Garotin has given me 20 bottles or so of the liquid & tabs of Cinchona made at the Madras stores during the last year - I have used it myself for my servants & have found it very effective, better I think than the quinine which I used to give - I gave some to Mrs Stevenson who also found its effects - I have given a good many bottles & tabs to Solomon Pereira the Secretary of the St Court of N. Arcot, who has treated many cases & met with great success - He has found ease

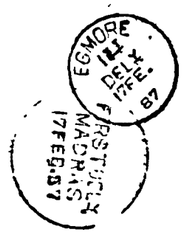

I from yield to it which had
not yielded to the ordinary remedies. The natives particularly
prefer it to quinine.
I am sorry I cannot give you details
of cases, but perhaps Mr Prins
could. I am so satisfied of the
value of the extract that I intend
always to keep it in stock when
I am in this country. I suppose
it would act on other fevers as
well as on Chelton fever.
I have not used it myself as I have
had hardly any attacks of fever
myself, & have found the quinine
pills always act well. I am writing
this because Faustin told me last
night you would like to hear my
experience. Yours sincerely
H. T. Knox

CHIEF OF MADRAS
25 AUG 87

To Frederick Price Esquire.
Officiating Secretary to Govt.
Madras

Sir

I am respectfully beg to acknowledge your favor of 26 July last No 59 asking my opinion as the efficiency of the Extract of Cinchona. I beg to state that it is a very good medicine for fever. For Adults give 8 bottles of Sweet Wine very sparingly Seeing not more than a tea spoonful in Equal Quantity of water to adults 3 times a day. Even Some people living in Cultivated and Suburbs of town taken by Some people residing in

Chandragiri and Vijeeti: In
all Cases I think from Diarrhoea
it was found very Efficacious.
a Goldsmith at Tirumpet
was ailing 18 Months with
fever contracted in Coldspark
District got quite well after
the very first dose: This
is a fact Sir I can vouch
from my own personal Knowledge.
Dozens of people in Tirumpet
owe the most speedy fever
Quieter removal in marvellous
quick time Especially knowing
they had been ailing for
3, 4, & 7 Months. Mysoor
Servants and the Clerks & Cows

of the Cooly and his family
all and his medicine & hands
all without a single exception
been relieved: one Mr D'Roza
a Pensioned Head Clerk of
the Collector's office and his
Children had their turns
of fever and got shot of it
with ease: Invaluable after taking
a few doses of this Invaluable.
I did not use the medicine myself
as I did not get any fever.

From the numerous Cases
in which this medicine was
used under our Good Lords
I beg from my personal
Knowledge to Declare that

Sir Medicine is a Science
Medicine for Sores.

I humbly beg to apologise
for keeping your Lordship
so long in attendance

I am
Sir
Your Lordships Most Obedient Servant
Louisa Perkins.
