Sir,

In continuation of my letter No. 8 dated the 19th May 1887 asking to be supplied with the details of the cost of various articles supplied to this Department during the past year, I desire to point out a serious discrepancy which exists between my estimate of the cost of the Glycerine and that actually charged for it.

2. I estimated the cost of Price's "No. 2. B. quality" at 57 sh per cwt less 12½ per cent discount as advertised

by

by them in their Circular dated 14th September 1886 together with their Covering letter of the 8th October 1886, the originals of which I enclose for your perusal and return.

But the sum actually charged for the glycerine, mines freight, is 75£ for 20 Cwt in 56 lb tins or £3.15.0 per Cwt as against Prices offer of £2.7.3 per Cwt

3. As this discrepancy has greatly disturbed my calculations, I shall be obliged if you will be so good as to institute an enquiry into the matter and then inform me as to where the error has arisen.

I have the honor to be
