SIR,

Enclosures.

With reference to your Memorandum No 9780 C. dy 7th March 1888, I have the honor to State that there is no demand for the building known as the old Superintending Engineer's office at Guindy. It was attached to the Superintendent of the Revenue Survey for his office which is now held in a building rented for Rs 35/- a month, but that office has declined to have it, because it is too far away. There was an Estimate Sanctioned in 1883 for Converting this building into a Slaughter house for the Commissariat Department, but the proposal was subsequently abandoned. See G.O. No. 2652 W. dy 7th November 1885. The Executive Engineer recommends that the building be — demolished

demolished, or that Sanction be given to the employment of a watchman on Rs 5/- to look after the building. I would support the recommendation that the building be sold or demolished as it is not likely to be utilized for any public purpose permanently.
