Proceedings, dated 27-6-1888  
No. 57570

Subject.

Approving & forwarding  
plans & estimates  
for building the ward  
of the Ophthalmic  
Hospital.

Copy of a communication from the Superintendent Govt  
Ophthalmic Hospital Madras to the Consulting Architect  
to Government, No. 226, dated 16<sup>th</sup> July 1888.

I have the honor in reply to your  
letter no 502 of July 15<sup>th</sup> 1888 to state  
that the Verandah is absolutely necessary  
as the frontage of the new kitchen buildings  
will face the north and unless protected,  
insuperable inconvenience will be experienced  
during the prevalence of the north east monsoon.

I beg therefore to submit that  
the original plan be adhered to in its entirety  
in preference to the alterations proposed.

I have &amp;c.

No 2653 C. 13.7.88

Public Works Department.

From

THE CONSULTING ARCHITECT

TO THE GOVERNMENT OF MADRAS,

To

The Chief Engineer  
P. W. D.

No. 606

Dated 20<sup>th</sup> July 1888

Received

No. of ENCLOSURES. 9

Subject.

Returning the plans &  
Estimate for certain additions  
to the Ophthalmic Hospital  
the Estimate duly altered.

C. 42749

14.11. 2383

In accompanying  
plan and Estimate  
were returned to the  
Consulting Architect  
with this Office No 2653  
of 13<sup>th</sup> July 1888. for  
revision and reduction  
of rates.

The Consulting Architect  
in reply states that  
after communication  
with the Indian  
Office in charge  
of the Ophthalmic  
Hospital that Office  
is of opinion that  
a verandah is  
necessary for the  
proposed kitchen  
for the Apothecary's  
Dunster is impossible  
inconvenient would  
be felt during the  
North-East Monsoon  
if it was left un-  
protected -  
That it is necessary

27/7

This structure should be  
built with stock bricks  
in order that it may  
harmonize with the  
other buildings.

In regard to rates  
The Consulting Architect  
states that the rates  
in his division have  
been carefully compiled  
and that he does  
not think a com-  
parison can be  
made between  
the rates of his  
division and  
those of the Presidency  
division.

#### Remarks

The necessity of a  
verandah for the  
Kitchen is not sufficiently  
shown. The North East  
monsoon only lasts  
for a short time between  
the months of October  
and December it would  
therefore be sufficient  
to have projecting  
eaves which would  
protect the sides of  
the building from  
the North East as well as

QJ 1881

2-27-7-88-2, 6.5.0-

The South West monsoon.  
The use of expensive  
stock bricks for the  
building of this  
class particularly  
a kitchen which  
will soon become  
dingy and dark  
seems a waste of  
good material.

No exception could  
have been taken  
to the rates given  
in the schedule  
for the Consulting  
Architects Division  
if a list of "Special Rates"  
had not been appended  
to it and as the  
rates in question  
did not come  
under "Special Rates"  
they had to be  
noted as being  
in excess of rates  
for similar work  
in the Presidency  
division schedule.

It may be well

27/7

to ask the Consulting  
Architect and the  
Super: Engr. I will  
to consult each  
other before fixing  
the rules in these  
divisions in future.  
as it is only reasonable  
to expect the other  
for work of an  
ordinary character  
to be alike in both  
of these divisions  
as they are working  
in the same locality  
as these rules stand  
at present within  
one is too high  
or the other too  
low -

The Estimate  
has been slightly  
reduced but not  
in the extent pointed  
out in the note  
put up with the  
Est. -

24/7/88

8-27-7-88

2-27-7-88

I think surely that the  
Kitchen faces the N.E.  
it is advisable to have  
a verandah. and  
as the surrounding buildings  
are of poor appearance  
it would be a pity to  
economize at the ex-  
pense of appearance  
in the case of the Kitchen  
the inside of this would  
naturally become drab  
but the outside is what  
we are concerned with.  
The C.A.'s rates must therefore  
be accepted but a bonus  
in accordance with  
the suggestion made  
light is due with advantage.  
The Estimate 880
