GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following papers:—

From Colonel H. M. VIBART, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Bangalore, 10th July 1888, No. 1630.

With reference to your memorandum No. 2424 C., dated 27th June 1888, I have the honor to state that I consider the proposal of having the accounts of the bridge works made up in the South Arcot Division office may not be found to answer. A great part of the work will have to be done by departmental labor, and the accounts work will be very considerable. The work in the South Arcot Division office is as much as it can well be, and the Executive Engineer will probably want extra hands if the bridge accounts are to be given to him. I think, therefore, it would be advisable to treat the bridge works as a separate division and to have a complete divisional office establishment for the works on a reduced scale, the accountant doing the duties of head clerk in addition to his own. An extra division will perhaps give some little more work to the Examiner's office, but that should not, I think, be considered an objection.

2. When the work is in full swing, it will be necessary to have not less than two Overseers, one for each bridge, as they will have to be out on the work nearly the whole of the day, and Honorary Assistant Engineer Mr. Subramania Pillay cannot, I presume, be expected to do Overseer's work. If materials have to be manufactured departmentally, another Overseer or a good Sub-Overseer at least will be required.

3. For the Honorary Assistant Engineer, a clerk, one messenger and one lascar, and for each of the Overseer, a lascar, and for Executive Engineer, two messengers and two lascars will be required. A storekeeper will also be necessary, as there will be a considerable quantity of tools and plant. I enclose a statement of the proposed establishment which I consider really necessary, and which I request may not be reduced.

Examiner, Public Works Accounts.

Madras,
4th August 1888.

From the Examiner, Public Works Accounts, dated 24th July 1888, No 1951

2386/2

ORDER—dated 6th August 1888, No. 2386 W., Public Works.

The Government consider that the statement of temporary establishment proposed by the Superintending Engineer, V Circle, for the Cuddalore bridge works is in excess of requirements, and accordingly sanction* the reduced scale shown in the statement printed with these Proceedings.

* Register No. 32 W. of 1888-89.

2. For account purposes, the bridge works will be treated as a subdivision of the South Arcot Division, but the head clerk of the subdivisional office will assist the divisional accountant in the preparation of the accounts of the bridge works. In all matters relating to construction, the Executive Engineer will be in direct communication with the Superintending Engineer.

3. The Chief Engineer will arrange to post the requisite upper and lower subordinate staff to the works, and the office and petty establishment may at once be appointed locally.

AUGUST.

Cuddalore Bridge Works

Orders sanctioning, with modifications, the proposed temporary establishment for the — and the treatment of the bridge works as a subdivision of the South Arcot Division for account purposes.

Acc 7294.

(6) 238 2/3

To W

The S. E. I Circle submits a statement of establt costing Rs 445 per mensem to work under the Collr of the Cuddalore bridges.

The S. E. further recommends that the work be formed into a separate accounting division, instead of treating it as a sub division of S. Arcot for acct purposes. The S.E. says that the S. Arcot division Office has as much work already as it can do, & that extra hands would be

W/B

fur-

required if the amounts of the bridges were sent in.

1 His proposal was referred to C for remarks, but the C now merely says that "the division might probably for account purposes be treated as a subdivision of the S. Arcot division" & gives no reasons whatever for thinking so.

The C further remarks that the estab. proposed as compared with that employed on the Vaigai Bridge seems large.

For orders whether the S. E's proposals shall be sanctioned &c—

It would appear to
be more economical
to give S. Arcot one or
two extra hands, if
needed, & to treat the
bridge works as a
one division, ~~but~~
then to form them
into a separate ac-
counting division,
but the point is an
administrative rather
than a financial
one.

If approved,
Army Asst Engr J.
Subramanya Pillai
& Script Rule will
accordingly be trans-
ferred to the bridge
works. Two temp:
overseers on Rs 50
& 60 might be
sanctioned for
the

SUPERINTENDING ENGINEER'S OFFICE,
V Circle, Madras,
Bangalore ~~Ootacamund~~, 16 July 1888.

No. 1630

From Capt. N. A. Gibard, R.E. 20/7

SUPERINTENDING ENGINEER, V CIRCLE,

To THE Chief Engineer
P.W. Department.

SIR,

Enclosures./

With reference to your Memorandum C.P. 2424 C dated 27 June 1888 I have the honor to state that I consider the proposal of having the accounts of the bridge works made up in the South-West Division Office may not be found to prevent a great part of the work will have to be done by Departmental labour and the accounts work will be very considerable. The work in the South-West Division Office as much as it can well be, and the Executive Engineer will probably want extra hands if the bridge accounts are to be given to him. I think therefore it would be advisable to treat the Bridge works as a separate Division and to have a complete Divisional Office Establishment

Establishment. For the works on a reduced scale, the Accountant doing the duties of Head Clerk in addition to his own. The extra Division will perhaps require some little more work to the Examiner's Office, but that should not I think be considered an objection.

2. When the works in hand shall be in full swing, it will be necessary to have not less than two Overseers one for each Bridge, as they will have to be out on the works nearly the whole of the day and Honorary Assistant Engineer of the Subcommittee. I presume he expected to do Overseers work. A Mason will have to be manufactured departmentally from other Overseer or a good Sub Overseer at least will be required.

3. For the Honorary Assistant Engineer, a Clerk, 1 Messenger, and 1 Lascar and for each of the Overseers a Lascar paid for.

Executive Engineer 2 Messengers and 2 Lascars will be required. A Store Keeper will also be necessary as there will be a considerable quantity of tools and plant. I enclose a Statement of the proposed Establishment which I consider really necessary and which I request may not be reduced.

I have the honour to be
Sir
Your most Obedt Servant
Alexr Mallet Lieut RE
Superintg Engineer
5 Circles.

No. 2734 Cdy 18 July 1888

To C

For favour of very early remarks with respect to the proposals regarding accounts work.

To V.

Enc 1

Compared with the corresponding establishment for Vaigai Bridge, the office establishment now proposed, including storekeeper and menials for the Pennair and Gadilam Bridges seems large. The division might probably for account purposes be treated as a sub-division of the South Arcot Division. Mr Clerk's establishment for the Vaigai Bridge now consists of one clerk on Rs. 15 and five lascars and the fact that the division now in question will have two bridges to construct, does not seem to justify so great a difference in office establishment.
