No. 179. ORDER THEREON, 26th December 1877, No. 2957.

With reference to an order in the Pension Department, dated 19th September 1876, No. 563, remarking on the practice which obtained of entering up the service books of servants only a few months or so before they retire from the Government service, all heads of departments were called upon in Order, No. 1122, dated the 9th October, to report whether *employés* in their respective departments had provided themselves with the service books required by section 69 of the Pension Code.

2. It appears from the replies above recorded that with some exceptions the servants in the several departments have been supplied with service books, and that steps were taken to supply books to those who had none.

3. The Governor in Council is of opinion that to ensure the service books being properly kept up, the chief subordinate in every office should be required to report to the head of the office at the close of each year whether the books of the several servants are correctly written up to date or not.

29TH JUNE 1888, No. 717, PENSION.

GOVERNMENT OF MADRAS.

PENSION DEPARTMENT.

READ—the following papers :—

From the Accountant-General, Madras, dated 16th July 1887, No. 132-I.A.E.
From the Collector of Madura, dated 7th May 1888, No. 33.

ORDER—dated 29th June 1888, No. 717, Pension.

The applicant in this case retired on the 17th July 1886 and his pension papers were received by Government only on the 19th December 1887. The statement showing the various stages in the preparation and submission of the application sets out that everything "was done in regular course" and that there was no delay; but if this is the case, it would be difficult to conceive any more complete condemnation of the regular course of official business in the Madura district.

2. Most of the delay is said by the Collector to have been due (1) to the frequent return of the application to the Tahsildar for further information, and (2) to the late receipt of verified lists from various offices in which the applicant served. As regards the first of these causes, the Government observe that if all the errors and omissions had been pointed out in the first instance it should have been possible to obtain the requisite information by a single reference; and as regards the second cause, the attention of the Collector will be drawn to the orders requiring the verification of services before retirement. The applicant in the present case was 60 years of age when he left the service, so it cannot even be pleaded in excuse that his retirement was sudden and unexpected.

3. Again, the application was finally received in the Collector's office in August 1887, but it was not submitted to the Accountant-General until the 18th October, and even then it had to be returned for the supply of two extremely careless omissions.

4. The hardship which must be caused by such long delay in the grant of the retiring allowances upon which, in the majority of cases, the applicants depend for their means of livelihood, will perhaps best be conceived if Heads of offices apply the circumstances to themselves. Although the displeasure with which Government view delay in these cases has been frequently expressed, pension applications still continue to be treated as papers which may be dealt with leisurely instead of their disposal being regarded as a matter of urgency. His Excellency the Governor in Council, however, cannot permit his orders on this point to be disregarded and he will in future hold every Head of an office responsible for any delay that was avoidable.

5. That delay is, as a rule, preventible admits of no doubt, for applications from Police officers are almost invariably received within a few weeks after retirement. This is rendered possible by the careful manner in which the record and verification of the services of Police officers is maintained. A method of annual verification, which commends itself to Government, has already been introduced in the Chingleput district and His Excellency in Council is pleased to direct that this practice shall be extended to all other Civil departments. The Collector's circular explaining the procedure is annexed to this order for the information of all other Collectors and Heads of offices. The only difficulty in introducing this system will be the initial verification, which must of course deal with the whole of the previous service of each individual, and in many cases involve references to other offices and the taking of affidavits

and oral evidence. But this will have to be done only once, and each subsequent verification will be concerned only with the incidents that have occurred since the date of the last annual certificate of the verifying officer. Moreover, when an officer retires, the detailed verification which now takes place will not be required, so that the introduction of the system of annual check will entail no extra work in the long run, except in cases of retirement without pension, but will probably result in much saving of labor.

6. For the Land Revenue establishments the verifying officer will be the Treasury Deputy Collector, but as regards other branches of the Administration, the Government must leave it to Heads of Departments to direct by whom this duty is to be undertaken. Copies of the instructions issued by Heads of Departments should be forwarded for the information of Government.

7. The orders issued from time to time regarding the maintenance of service books and the prompt preparation of applications for pensions or gratuities have been so frequently disregarded that His Excellency in Council is compelled with regret to require for a time the submission of returns showing how far effect has been given to the instructions contained in the preceding paragraphs. These should be furnished by each Department every quarter and each should specify the name of the office, the total number of employés for whom service books are required to be maintained, and the number of these which were verified up to the end of the preceding quarter and in the quarter to which the return relates. Any delay that may have occurred in the progress of the work should be explained in a note. When the verification of services has once been brought up to date in any office, the return may be discontinued, but all inspecting officers should be careful to see when they examine the records of an office that the annual verification required by this order has been duly made.

(True Extract.)

H. A. STUART,
Under Secretary to Government.

To all Heads of Departments.

[Annexure

ANNEXURE.

CIRCULAR MEMORANDUM.

It has hitherto been the practice of the District to have Service Registers of officers, whether in the "superior" or "inferior" grades, brought up annually to the end of each official year, and then to have them verified by the Divisional Officer or Treasury Deputy Collector according as the individual concerned might be employed under a Divisional Officer or in the Collector's office, but the Accountant-General has recently drawn the attention of the Collector to the fact that this practice is not in accordance with the terms of the Civil Pension Code, which requires that all changes affecting the position of an officer should be recorded within the month in which the change takes place, and not after the close of the official year, and that in the "Service Book" every step in an officer's official life should be recorded *contemporaneously* with its occurrence, and be at once attested by the Head of his office. The Collector, therefore, issues the following instructions for the preparation and upkeep of the Service Registers :—

A Clerk or Accountant of each office will be especially entrusted with the duty of seeing to the correct preparation and maintenance of Service Registers and will be held personally responsible for any errors or neglect.

In the Collector's office—

Sheristadar's and Vernacular Correspondence Departments, with the Vernacular Record Department.	The 25 rupees Clerk.
English Correspondence Department, with the English Record Department.	Do.
English and Vernacular Account Departments.	The 25 rupees English Accountant.
The Press Department	The Clerk who keeps the Press Accounts.
Treasury Department	The Treasury Accountant.
In the Sub-Collector's and General Charge Deputy Collector's offices.	Any Clerk whom the Sub-Collector or Deputy Collector may depute.
In the Tahsildars' Cutcherries	The second 20 rupees Gumastah.
In the Deputy Tahsildars' Cutcherries	The first Gumastah.

2. It will be the duty of these several Clerks, Accountants and Gumastahs to note in each servant's book every change as it takes place, and then to take the book to his Departmental Superior and have the change initialled and duly attested, viz., in the Sheristadar's or Vernacular Correspondence Departments, to the Huzur Sheristadar; in the English Correspondence Department, to the English Head Clerk; in the Sub-Collector's office, to the Sub-Division Sheristadar; in Taluks, to the Taluk Sheristadar, &c.

3. Such Departmental Superior will, after satisfying himself that the entry made by the Clerk is correct, take the book to the Head of his office, viz., Collector, Sub-Collector, Deputy Collector, Tahsildar or Deputy Tahsildar, as the case may be, and have the entry duly attested.

4. Once a year the books must be sent to be verified by the Treasury Deputy Collector in accordance with Board's Standing Order No. 257, and as all the books of the District cannot be done at once, the following distribution of the work is ordered :—

Offices.	When to be sent to the Treasury Deputy Collector.
Collector's office, all Departments	5th January.
Sub-Collector's office	15th February.
General Charge Deputy Collector's office	15th March.
Madurántakam Taluk and Uttramerur Deputy Tahsildar ...	5th April.
Chingleput Taluk	5th May.
Conjeeveram Taluk and Striperumbudur Deputy Tahsildar..	5th June.
Tiruvallúr Taluk and Sattiavedu Deputy Tahsildar ...	5th July.
Saidápet Taluk and Poonamallee Deputy Tahsildar ...	5th August.
Ponnéri Taluk	5th September.

5. The Treasury Deputy Collector will arrange to have the books verified with as little delay as possible and return them to the office whence received, bringing to the notice of the Head of the office or Divisional Officer any instance of error or neglect that may be observed in the upkeep of any book.

6. The Clerks entrusted with the duty of keeping these books, as above, will bear in mind that the chief points to be attended to by them are to see that—

(1) all dates of commencement and termination of service in an appointment with the rate of pay are correctly noted,
(2) all leaves (except casual) duly recorded,
(3) suspensions noted,
(4) cause of termination of service, whether by promotion, transfer, degradation, &c., duly given,

(5) that all erasures or interpolations are duly initialled by the Head of the office,
(6) that the necessary signatures of the officers, &c., in the proper columns are obtained,
(7) that no certificates of a personal character are entered in column 8, and
(8) that the surname or house name is always correctly given in column 1, page 1.

7. When a servant is transferred from one office to another the necessary entry of termination, reason, &c., will be made in the office from which the transfer is made, the entry will be duly attested by the Head of that office and the book will then be transmitted to the Head of the office to which the servant has been transferred, who will thenceforward have the book duly kept up in his office. The officer thus receiving the book will, however, be at liberty to return it if he should find any error or omission in it and have the error rectified or omission supplied, and the book retransmitted.

8. The date of commencement of service will be the date from which a servant draws the pay of an appointment, and the date of termination the date from which he ceases to draw the pay of that appointment. Periods occupied in transit from one appointment to join another will thus be reckoned as service in the appointment, the pay of which the servant is allowed during transit.

9. Effect is to be at once given to these instructions, and the transmission of the books to the Treasury Deputy Collector for verification in accordance with paragraph 4 above will begin from the commencement of 1882.

10. Divisional Officers are further requested to make it convenient, either during the Jamabundy, or when on tour in their Taluks, to inspect the Service Books kept in the Tahsildar's and Deputy Tahsildar's Cutcherries in their Divisions and to see that they are duly kept in accordance with these instructions, and take due notice of any instance of neglect or omission.

No : 2503/V
16-8-25

29TH JUNE 1888, No. 717, PENSION.

GOVERNMENT OF MADRAS.

PENSION DEPARTMENT.

READ—the following papers :—

From the Accountant-General, Madras, dated 16th July 1887, No. 132-I.A.E.
From the Collector of Madura, dated 7th May 1888, No. 33.

ORDER—dated 29th June 1888, No. 717, Pension.

The applicant in this case retired on the 17th July 1886 and his pension papers were received by Government only on the 19th December 1887. The statement showing the various stages in the preparation and submission of the application sets out that everything "was done in regular course" and that there was no delay; but if this is the case, it would be difficult to conceive any more complete condemnation of the regular course of official business in the Madura district.

2. Most of the delay is said by the Collector to have been due (1) to the frequent return of the application to the Tahsildar for further information, and (2) to the late receipt of verified lists from various offices in which the applicant served. As regards the first of these causes, the Government observe that if all the errors and omissions had been pointed out in the first instance it should have been possible to obtain the requisite information by a single reference; and as regards the second cause, the attention of the Collector will be drawn to the orders requiring the verification of services before retirement. The applicant in the present case was 60 years of age when he left the service, so it cannot even be pleaded in excuse that his retirement was sudden and unexpected.

3. Again, the application was finally received in the Collector's office in August 1887, but it was not submitted to the Accountant-General until the 18th October, and even then it had to be returned for the supply of two extremely careless omissions.

4. The hardship which must be caused by such long delay in the grant of the retiring allowances upon which, in the majority of cases, the applicants depend for their means of livelihood, will perhaps best be conceived if Heads of offices apply the circumstances to themselves. Although the displeasure with which Government view delay in these cases has been frequently expressed, pension applications still continue to be treated as papers which may be dealt with leisurely instead of their disposal being regarded as a matter of urgency. His Excellency the Governor in Council, however, cannot permit his orders on this point to be disregarded and he will in future hold every Head of an office responsible for any delay that was avoidable.

5. That delay is, as a rule, preventible admits of no doubt, for applications from Police officers are almost invariably received within a few weeks after retirement. This is rendered possible by the careful manner in which the record and verification of the services of Police officers is maintained. A method of annual verification, which commends itself to Government, has already been introduced in the Chingleput district and His Excellency in Council is pleased to direct that this practice shall be extended to all other Civil departments. The Collector's circular explaining the procedure is annexed to this order for the information of all other Collectors and Heads of offices. The only difficulty in introducing this system will be the initial verification, which must of course deal with the whole of the previous service of each individual, and in many cases involve references to other offices and the taking of affidavits

and oral evidence. But this will have to be done only once, and each subsequent verification will be concerned only with the incidents that have occurred since the date of the last annual certificate of the verifying officer. Moreover, when an officer retires, the detailed verification which now takes place will not be required, so that the introduction of the system of annual check will entail no extra work in the long run, except in cases of retirement without pension, but will probably result in much saving of labor.

6. For the Land Revenue establishments the verifying officer will be the Treasury Deputy Collector, but as regards other branches of the Administration, the Government must leave it to Heads of Departments to direct by whom this duty is to be undertaken. Copies of the instructions issued by Heads of Departments should be forwarded for the information of Government.

7. The orders issued from time to time regarding the maintenance of service books and the prompt preparation of applications for pensions or gratuities have been so frequently disregarded that His Excellency in Council is compelled with regret to require for a time the submission of returns showing how far effect has been given to the instructions contained in the preceding paragraphs. These should be furnished by each Department every quarter and each should specify the name of the office, the total number of employés for whom service books are required to be maintained, and the number of these which were verified up to the end of the preceding quarter and in the quarter to which the return relates. Any delay that may have occurred in the progress of the work should be explained in a note. When the verification of services has once been brought up to date in any office, the return may be discontinued, but all inspecting officers should be careful to see when they examine the records of an office that the annual verification required by this order has been duly made.

(True Extract.)

H. A. STUART,
Under Secretary to Government.

To all Heads of Departments.

[Annexure.

ANNEXURE.

CIRCULAR MEMORANDUM.

It has hitherto been the practice of the District to have Service Registers of officers, whether in the "superior" or "inferior" grades, brought up annually to the end of each official year, and then to have them verified by the Divisional Officer or Treasury Deputy Collector according as the individual concerned might be employed under a Divisional Officer or in the Collector's office, but the Accountant-General has recently drawn the attention of the Collector to the fact that this practice is not in accordance with the terms of the Civil Pension Code, which requires that all changes affecting the position of an officer should be recorded within the month in which the change takes place, and not after the close of the official year, and that in the "Service Book" every step in an officer's official life should be recorded *contemporaneously* with its occurrence, and be at once attested by the Head of his office. The Collector, therefore, issues the following instructions for the preparation and upkeep of the Service Registers :—

A Clerk or Accountant of each office will be especially entrusted with the duty of seeing to the correct preparation and maintenance of Service Registers and will be held personally responsible for any errors or neglect.

In the Collector's office—

Sheristadar's and Vernacular Correspondence Departments, with the Vernacular Record Department.	The 25 rupees Clerk.
English Correspondence Department, with the English Record Department.	Do.
English and Vernacular Account Departments.	The 25 rupees English Accountant.
The Press Department	The Clerk who keeps the Press Accounts.
Treasury Department	The Treasury Accountant.
In the Sub-Collector's and General Charge Deputy Collector's offices.	Any Clerk whom the Sub-Collector or Deputy Collector may depute.
In the Tahsildars' Cutcherries	The second 20 rupees Gumastah.
In the Deputy Tahsildars' Cutcherries	The first Gumastah.

2. It will be the duty of these several Clerks, Accountants and Gumastahs to note in each servant's book every change as it takes place, and then to take the book to his Departmental Superior and have the change initialled and duly attested, viz., in the Sheristadar's or Vernacular Correspondence Departments, to the Huzur Sheristadar; in the English Correspondence Department, to the English Head Clerk; in the Sub-Collector's office, to the Sub-Division Sheristadar; in Taluks, to the Taluk Sheristadar, &c.

3. Such Departmental Superior will, after satisfying himself that the entry made by the Clerk is correct, take the book to the Head of his office, viz., Collector, Sub-Collector, Deputy Collector, Tahsildar or Deputy Tahsildar, as the case may be, and have the entry duly attested.

4. Once a year the books must be sent to be verified by the Treasury Deputy Collector in accordance with Board's Standing Order No. 257, and as all the books of the District cannot be done at once, the following distribution of the work is ordered :—

Offices.	When to be sent to the Treasury Deputy Collector.
Collector's office, all Departments	5th January.
Sub-Collector's office	15th February.
General Charge Deputy Collector's office	15th March.
Madurántakam Taluk and Uttramerur Deputy Tahsildar ...	5th April.
Chingleput Taluk	5th May.
Conjeeveram Taluk and Striperumbudur Deputy Tahsildar..	5th June.
Tiruvallúr Taluk and Sattiavédu Deputy Tahsildar ...	5th July.
Saidápet Taluk and Poonamallee Deputy Tahsildar ...	5th August.
Ponnéri Taluk	5th September.

5. The Treasury Deputy Collector will arrange to have the books verified with as little delay as possible and return them to the office whence received, bringing to the notice of the Head of the office or Divisional Officer any instance of error or neglect that may be observed in the upkeep of any book.

6. The Clerks entrusted with the duty of keeping these books, as above, will bear in mind that the chief points to be attended to by them are to see that—

(1) all dates of commencement and termination of service in an appointment with the rate of pay are correctly noted,
(2) all leaves (except casual) duly recorded,
(3) suspensions noted,
(4) cause of termination of service, whether by promotion, transfer, degradation, &c., duly given,

(5) that all erasures or interpolations are duly initialled by the Head of the office,
(6) that the necessary signatures of the officers, &c., in the proper columns are obtained,
(7) that no certificates of a personal character are entered in column 8, and
(8) that the surname or house name is always correctly given in column 1, page 1.

7. When a servant is transferred from one office to another the necessary entry of termination, reason, &c., will be made in the office from which the transfer is made, the entry will be duly attested by the Head of that office and the book will then be transmitted to the Head of the office to which the servant has been transferred, who will thenceforward have the book duly kept up in his office. The officer thus receiving the book will, however, be at liberty to return it if he should find any error or omission in it and have the error rectified or omission supplied, and the book retransmitted.

8. The date of commencement of service will be the date from which a servant draws the pay of an appointment, and the date of termination the date from which he ceases to draw the pay of that appointment. Periods occupied in transit from one appointment to join another will thus be reckoned as service in the appointment, the pay of which the servant is allowed during transit.

9. Effect is to be at once given to these instructions, and the transmission of the books to the Treasury Deputy Collector for verification in accordance with paragraph 4 above will begin from the commencement of 1882.

10. Divisional Officers are further requested to make it convenient, either during the Jamabundy, or when on tour in their Taluks, to inspect the Service Books kept in the Tahsildar's and Deputy Tahsildar's Cutcherries in their Divisions and to see that they are duly kept in accordance with these instructions, and take due notice of any instance of neglect or omission.

Saidápet, 10th November 1881.

J. F. PRICE,
Collector.

Exd. P. L. Pereira.

B.A. 250.3 W.H. 16/8/88

Transmitted

Wynaad Planters Association
Vayitri, 11th July, 1888.

To
The Honorary Secretary,
Wynaad Planters Association

To
The Chief Secretary,
Department of Public Works
Madras

Sir

I am instructed to forward you the enclosed Copy of a Resolution passed at the last meeting of this Association on July 4th with regard to the condition of the Vayitri—Choundale road, to point out in detail the reasons the Association has for the dissatisfaction it has expressed, & to offer to undertake the upkeep of the Road if the present allotment of R335/. a mile is handed over to [illegible]

[illegible] if there were no funds [illegible] of the Road, the Executive [illegible] in his letter No 378. dated [illegible] that R922/. were spent [illegible] of the three miles of [illegible] October 1887. & May last, exclusive [illegible] Kunnath Bridge, but that metal [illegible] could not be spread till October next."

In his previous letter No 357. dated June 14th. the Executive Engineer informed me that "the usual Repair Grant of R335/. has been available since April" but in the second letter he says he hopes to get it sanctioned soon. He also states that the Road requires fresh formation & Metalling to reduce the present roughness which can however

only be done by a special allotment, the Repair Grant being inadequate, & that work of this nature is limited for this season to the end of the line of the Vaipiti – Tundalee Road South of Sholadi."

There is no doubt the road does require fresh formation & Metalling. But, the Complaint of the Association is, that, for 1922/. the Amount spent from October to May last, which is half as much again as is allowed for the upkeep of portions of the same road in charge of Natives, & with an available balance from last years allotment of £65/ still in hand, the three miles of this road in charge of the Public Works Department ought not to be in their Condition they now are. Beg to state from personal observation that the drains on either side of the road have not been cleared of weeds & Grass & are in consequence choked that the water as a rule runs along the road & not in the drains. In many places masses of thorns overhang the road sufficient to tear a rider from his horse, should he have the misfortune to have to use the road except in broad daylight. In one place there is a broken Culvert with a hole big enough to break the legs of man or beast out in bad weather or after dark. These are all defects that could be Remedied in any weather & would certainly not cost more than the £138/ in hand.

With regard to the new work done for the 1922/ spent from October to May last, there is a small quantity of Metal Collected at places on the Road side, but certainly nothing like sufficient to fill up the holes in the Road or to account for so large a sum of money. I am informed that the Repairs actually Carried out last year consisted of filling these holes with large stones & Red soil & each of these holes is now filled

* by pick Natives who contract to use the line of road

with Red mud & in Contrast to the dark Colour of the metalled portions, I cannot understand what other work has been done. It is impossible to drive a carriage of any sort over the Road & the mass of mud formed on the portions Repaired render Cart traffic very difficult.

In Conclusion I beg to state that J.B. Winter is a man who has done a great deal of good work on this line of Road & whose work has been much approved by Govt. Officers is willing to undertake the Charge of this Section & I trust you will see your way to accepting the Associations offer to undertake the upkeep of the three miles of Road between Vaipiti & Tundalee on the Customary allotment of £35/ a mile.

I have the honor to be
Sir
Your most Obedient Servant

Enclosure No. 1891 of 16/7/88
from the Supdg. Engineer
Circle

West Coast Division Office
Trivandrum 21 July 1888

From Colonel J. Stubs R.E.
Executive Engineer
West Coast Division

To The Superintending Engineer
IV Circle

Sir

I have the honor to state with regard to your reference No. 4162 dated 24 July 1888 that any difficulty in connection with the three miles of road from Vaypin to Chinedate had been originally due to the re-metalling of the line from Cattur to Pattalur a piece of road lately worked during divided into two separate contracts at the principal halfway place Vaypin and only one of these having been let to Cattur contractor

2. This accounts for what happened the Executive Engineer would have wished to see the road in order and would have done so but the road is entrusted on one side to the Vaypin toll keeper and worn away on the other

3. If the division point had been at

Referred

4

Ashtamudale, where the Gudalur traffic leaves the Mysore road, this small portion would have been called at the same time as the rest.

No. 4. The last of the correspondence however in no-wise affects the Association's perhaps title, maintained, is as to their offer of a contract for maintenance of three miles.

5. I knew this bit of road having been over it two or three times before the rains began. A liberal expenditure has been incurred in repairing the Mandale Bridge approach but the metal is quite poor. Thorough and repairs can only be done with gravel in the dry weather and such metal and stone covered with reeds as can be afforded during the rains.

6. There was no dangerous hole there, but if any of the members of the Association had called the attention of the Assistant Engineer to it who is constantly up and down to Vaytri, the defect would, there no doubt, have been put to rights promptly.

7. I rather think the Association's Secretary

Secretary had the Calendar, while I had the official year in view when writing and the recent decision of Government that the Repairs should be Imperial required fresh sanction from altering the source of funds for repairs.

8. As to a Contract, though the Assistant Engineer might be inclined to differ, I am not averse to giving out the Repairs of the three miles in this case as there is a direct element of self interest in a member of the Association whose market Coimpo Vaytri is looking after them, and who, I understand, has already the repairs of the Gudalur Branch Road from the Board. The saving would be in petty supervision which, at a place like Vaytri absorbs so much of a small repair grant.

9. But my Condition would be, that the amount of Rs 350 a mile be only payable in advance at the rate of, say Rs 30 per mile a month, and that the Petty Contract be terminable on my giving one Calendar months notice.

I
