CHIEF SECRETARY'S GOVERNMENT
6 FEB 90

Colonial Secretary's Office.
Colombo 28 January 1890

No 10

GOVT OF MADRAS
7 FEB 90
REVENUE DEPARTMENT

Sir

Referring to letter No 94 of the 14th ultimo, acknowledging yours No 7332 Revenue Department on the subject of Quinine manufactured at the Government Cinchona Factory at Nadavatam, I am directed to transmit to you the annexed copy of a report by the Principal Civil Medical Officer of Ceylon and I am to enquire whether the supply desired by Dr Heyne can be spared.

I am Sir
Your Obedient Servant
[illegible]
for Colonial Secretary.

The Chief Secretary
To Government,
Fort St. George

Report referred to

I have the honor to state in reply that I caused an analysis of the specimen of Quinine to be made by Mr. Cochran Analyst & Lecturer on Chemistry at the Medical College and he reports that it is of "first class quality, and that it contains not less than 97½ % of pure crystalline sulphate of quinine". He further adds that the latest quotation for pure sulphate of quinine is 1/3d per oz in London, and he thinks the specimen from India, sent to him for analysis, cannot be over valued at that. I shall be glad to recommend the purchase of Quinine from the Madras Govt. Manufactory at this rate, but before any order is given I wish to know whether we can be supplied without fail regularly every Quarter with about 200-

W. T. R. Cayley

MCS 16 Feb.

Hope this assistance may be capable of fulfilment but I rather doubt.

WLS 16 Feb

Has extended cultivation of Cinchona in Ceylon rendered this supply of Quinine unnecessary? Dr Lawson's letter dated 1 Nov 89 to be returned.

Gen. mis

Ordered that the following letter be despatched
