20TH OCTOBER 1890, No. 826, REVENUE.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following letter from M. A. LAWSON, Esq., Government Botanist and Director of Government Cinchona Plantations, &c., Nilgiris, to the Secretary to Government, Revenue Department, dated Naduvatam, 28th September 1890, No. 43:—

With reference to G.O., No. 706, dated the 4th September 1890, Revenue, I am directed in paragraph 5 to reduce the price of the two hundred pounds of quinine sold to the Bombay Government from *Rs. 3,493-4-1* to *Rs. 3,338-9-7*. This shall be done, but as it will entail considerable alterations in my explanatory note on the budget, I must ask for an extension of a few days of the date at which my note ought to be sent in, as for the purpose of making the alterations I shall have to return to Ootacamund, and I cannot conveniently be spared from here just now.

2. With reference to paragraph 6, I have the honor to assure you that every possible exertion is being made, and indeed has been made, during the past year to push on the manufacture of quinine as fast as possible, and I can also, I think, assure Government that if the full amount of 4,000 lb. is not turned out before the end of the current official year, the output will come very near to that estimate; but at any rate there can be no doubt that a sufficiency of quinine will be made to supply all probable demands.

3. With reference to paragraph 7 of the same Government Order, I cannot recommend that Government should dispose of any of the bark which they have at present in stock, as in the course of the next few years I shall be able to use the whole of it in the factory in addition to the usual annual output. I have also given other reasons for not selling the bark in my letter, No. 5, dated the 28th April 1890.

4. There is no danger whatever of the bark deteriorating by keeping; the bark which has been lying in stock for the last six years is in every respect as sound as it was in the year in which it was harvested.

SIR,

With reference to G.O. No. 706 dated the 4th September 1890, Revenue, I am directed in para 5 to produce the price of the two hundred pounds of quinine sold to the Bombay Government, from R. 3493-4-1 to R. 3338-7-7. This shall be done, but as it will entail considerable alterations in my Explanatory Note on the Budget, I must ask for an extension of a few days of the date at which my note ought to be sent in, as for the purpose of making the alterations, I shall have to retain it Ootacamund, and I cannot conveniently be spared from here just now.

2. With reference to para 6, I have the honor to assure you that every possible exertion is being made, and indeed, has been made during the past year, to push on the manufacture of quinine, as fast as possible; and I can also, I think, assure Government that if the full amount of receipts is not turned out before the end of the current official year, the output will come very near to that Estimate; but at any rate there can be no doubt that a sufficiency of quinine will be made to supply all probable demands.

3. With reference to para 7 of the same G. O. I cannot recommend that Government should dispose of any of the bark, which they have at present in stock, as in the course of the next few years I shall be able to use the whole of it, in the Factory in addition to the usual annual output. I have also given other reasons for not selling the bark in my letter No. 5 dated the 28th April 1890.
