Not to be folded or roughly handled

No. 2877 South Canara Collector's Office, Mangalore 25 July 1891

From,

W. A. Bradie Esquire,
Ag. Collector of South Canara.

To,

The Secretary to the Commissioners of Land Revenue
Madras.

Sir,

Forwarding G.O. 1) 15-9-90 No. 733

With reference to Board's Proceedings Mis: No: 6462 dated 10th October 1890, I have the honor to report that out of the 46 packets of Sulphate of quinine received from the Government Botanist 25 packets were at once issued to the Taluk Officials of the tracts of the district in which malarial fever is most prevalent and their reports show that the contents of 22 packets were retailed in single 5 grain doses almost entirely during the last two months. The delay in their disposal is principally attributable to the lateness of the south-west monsoon

the commencement of which is the time when fever usually prevails most generally in this district. The remaining lot of 21 packets has also been sent out on fresh indents received from the above officials in the course of last three weeks.

2 The people who have tried the medicine appear to be of opinion that it is effectual in cases of malarial fever and gives immediate relief to the patient. From the fresh applications now coming in from the Taluks and the above facts I consider that the drug will find a ready sale in this district every year between the months of May and August which is generally considered the fever season.

3 As there appears to be a demand for these powders and the recent arrangement for adding Purgative powders to the packets will likely tend to popularise the medicine among the people, I have indented separately on the

Vide Board's Pro: No 382 dated 29th June 1891.

the Government Botanist for a further supply of 50 packets for distribution.

I have the honor to be,
Sir,
Your most obedient Servant

Commanded
Ag: Collector
