GOVT. MADRAS REV. DEPT. 16 AUG 91

To the Principal Secretary
Her Majesty's Government
Madras

Sir

Having read in the English
newspapers that your Government are
taking into Consideration the introduction of
Quinine among the native population of India,
as the best remedy against all kinds of fever
we beg to submit to your notice our
Sulphate and Muriate of Quinine.

The price of quinine-(Cinchona)
-bark has fallen so very low that it hardly
any longer pays planters in India and Ceylon
to collect and ship their bark to England.
It would therefore perhaps seem in the

interest of H. M. Indian Government or more directly, of the growers of Cinchona bark in India, to favour a larger consumption of quinine in India since the same could not fail to have a very beneficial effect upn a large article of Indian export.

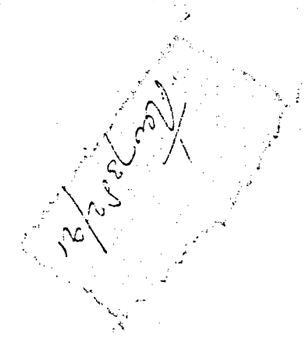

We are Considerable Manufacturers of Quinine and Supply the English + American Markets with very large quantities, in fact our Mark B + S is well known in every Country. Your Government may therefor depend upn receiving a firstrate article, while our Market price is at all times cheaper than that of Messrs Howard + Sons of London.

We respectfully beg to inquire for what quantities + under what forms and conditions our firm might eventually be permitted to tender for supply of quinine to your Government.

We are, Sir

Your most obedient Servants

C. F. Boehringer + Soehne

ABSTRACT.

Govt - mis (No 4746) 3rd September 1891

Messrs Boehringer and Sons will be informed that no supplies of Quinine are required from them, as the Govt is itself engaged in the manufacture of the drug.
