GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Land Revenue), dated 23rd August 1892, No. 464:—

THE HON. MR. H. W. BLISS.

Read—the following letter from J. THOMSON, Esq., Collector of the Chingleput District, to the Secretary to the Commissioners of Land Revenue, dated Saidápet, 16th August 1892, Ref. or No. 2837-Eng.:—

With reference to Board's Proceedings, Mis. No. 4301, dated 15th July 1892, I have the honour to submit a draft notification for the retransfer to the Chingleput district of the tank-beds transferred therefrom to Madras in the year 1877. This notification is a copy of that issued in 1877, except that the names of the holders of the lands entered as the boundaries of the several plots have been altered wherever necessary, and survey Nos. 7 and 18 added to the lands forming the western boundary of the plot within the highest water-mark of the Chetpat tank for the reasons stated in my letter, Ref. on No. 1128-Ver., dated 27th April 1892.

2. The piece of land referred to in paragraph 4 of Government Order, No. 996, Judicial, dated 26th May 1892, is a block of about 40 acres comprised in paimaish Nos. 298 and 299 of zemin Adyar village to the south of the present water-course of the Adyar river. Ten acres of this are in the occupation of certain ryots who hold patta under the Zemindar of Adyar, and the remaining 30 acres have been taken up by the Buckingham Canal Department. The bulk of this extent will be under water when the Adyar river is flooded. The boundary stones for the Adyar village ought to have been fixed in the northern limits of this block, but they have actually been fixed at the time of demarcation to the south of this block, the result being that the block, though really forming part of Adyar village, looks as if it were included in the Madras limits. It is learned from local inquiry that the boundary stones were not fixed on the line of the village boundary, as it was apprehended that they would be washed away by floods in the rainy season, and were therefore fixed on high ground to the south of the block.

3. The Superintendent of Madras Survey, whom I consulted on the subject, states that there is no information on record in his office to show why the land in question was demarcated out of the Chingleput district in 1865, but that there can be little doubt that the stones were planted on high ground for fear of their being washed away—*vide* his letter, No. 1837 M., dated 24th July 1892, copy enclosed.

ENCLOSURE No. 1.

From H. O'C. CARDOZO, Esq., Superintendent, Madras Survey, to the Collector of the Chingleput District, dated Godávári District, 24th July 1892, No. 1837-M.

I have the honour to state that there is no information on record in this office to show why the land in question was demarcated out of the Chingleput district boundary in 1865; but there can be little doubt that, as you surmise in your letter to the Board, dated 29th Decem-
