Statistics.

Simla, the 29th July 1892.

SIR,

IN paragraph 13 of the Government of India's Resolution No. ¹⁹/₂₀, dated the 20th July 1891, forwarding revised forms for the returns of agricultural statistics, it was stated that "no general review of the statistics is required with the returns, but if only to save return references, they should invariably be supplemented with a brief notice of remarkable variations or discrepancies requiring explanation." Experience has shown the necessity for more definite instructions on the subject; and I am now directed to request that, should

His Excellency the Governor in Council
see no objection, orders may be issued that, as far as possible, all differences in excess of 10 per cent. between the figures of the year of report and the previous year should, except in cases of ordinary fluctuations in cultivation, be explained in an appendix to the tables which should be drawn up in the form enclosed. Where general causes sufficiently account for differences detailed explanations need not be given.

I have the honour to be,

SIR,

Your most obedient Servant,

J. W. P. Mackenzie

Under-Secretary to the Government of India.
