Proceedings of the Board of Revenue

(Land Revenue),

Dated 31st August 1892,

No. 5467 mis:

Mr. E. Gibson.

Mr. A. J. Arundel.

READ Government order Revenue Department, dated 9th August 1892. No. 3568.

Resolution.

The Board thinks that the suggestions of the Government of India, viz that the distribution of galap along with quinine be discontinued; that the Postal Department be used as a distributing agency for the quinine, the Postmasters being remunerated, like stamp vendors, by a discount on sales; and that the drug be issued to vendors in an uncoloured form and in small closed covers, might well be put into practice as an experiment in a few selected districts in the Presidency. Say, Kurnool, Gooty, Vizagapatnam, Guntur and Malabar. If the system was properly worked it should certainly increase the consumption of the drug. The Post Master would in the Board's opinion be a more efficacious because less "suspect" distributing Agency than Police or revenue officials.

3. Court of Wards Managers might also be entrusted

entrusted to advantage with packets for sale by their
subordinates. The Board thinks that the packets
should be made up at some central place or
places and have the contents printed in ^{the} vernacular
as well as in English on the outside.
