Mr. Logan.

READ Again the following reference to the Collector of Madras, dated 12th July 1892:-

The Collector of Madras is requested to report the area under "Species - rubra" and "Calisaya" during 1891-92 and to state what became of the 89 acres shown as planted with "Var. com - dainica" in the preceding year's return. It should also be reported why no areas were shown as planted with "Calisaya" and "Calisaya (the Varieties)" in the return for 1890-91, though from the remarks entered in the return for 1891-92, it would appear that these plants were on the ground during 1890-91 also.
