Forwarding Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture) Dated 25th April 1893 No. 2664 Misc:

Proceedings of the Board of Revenue
(Revenue Settlement, Land Records and Agriculture)
Dated 25th April 1893 No. 2664 Misc:

Read again: Boards Proceedings dated 28th February 1893, No. 1320 this: soliciting the early sanction of Government for utilising the services of Karnams in preparing the accounts necessary for introducing the new rates of settlement into certain taluks of Bellary and proposing to submit similar proposals for the Tanjore District also, recorded in G.O. Revenue Department dated 21st March 1893, No. 250.

Read again also Boards Proceedings, dated 6th April 1893 No. 1937 this: requesting the Collector of Tanjore to report if he sees any objection to the employment of Karnams in the preparation of accounts connected with the introduction of settlement.

Read also the following letter from the Collector of Tanjore, dated 16 April 1893 No. 234.

"With reference to the Proceedings of the Board of Revenue (R.L.S.) dated 6th April 1893 No. 1937 Misc: I have the honor to state that the proposal to utilize the services of the Karnams in preparing the accounts necessary for the introduction of the new settlement on the terms specified by the Board, seems to me to be very proper and I have no objection to urge against it.

Resolution.

Referring to para 3 of the Proceedings dated 28-2-93 No. 1320 this: read again above, the Board begs to state that the Deputy Commissioners of Revenue Settlement Parties Nos. II, III & IV who had been consulted regarding the employment of Karnams in the Tanjore District on account work connected with the introduction of the new settlement rates, have accepted the proposal, and separate orders have been passed on the detailed reports submitted by them.

2. The following statement shows the number of subdivisions of Survey fields to be dealt with in each Taluk and the number of temporary hands that would be required to complete the work within a year if the work had to be done by such agency:—

3. It will be observed that the number of subdivisions of fields to be dealt with in this District is exceptionally large and as a consequence of this, the amount of account work to be done in connection with the introduction of the new rates will be very heavy for each subdivision will form a separate item in the accounts to be written up at the time of Settlement. If a separate temporary staff is to be employed, as many as 486 hands will be required. The cost of such a large establishment, even if it could be obtained, would be very heavy, but by utilizing the services of the karnams in preparing the necessary accounts, it would be possible to effect a saving of about Rs. 36,600, while the experience and knowledge of settlement details, which the karnams will thus acquire will also be of very great advantage to them and to the Revenue Staff of the District. It is proposed to employ the karnams on Settlement work for only about fifteen days in each month, so that they may be able to attend to their ordinary Revenue duties in their villages during the remainder of the month, while the Settlement staff would be employed in checking the accounts prepared. By this arrangement the necessity for appointing substitutes for the karnams would be obviated and the ordinary work of the villages would also not be impeded. The karnams, when employed on Settlement, may be paid a remuneration of three rupees per mensem per addition to their salaries.

4. The Collector Mr. Winter Cotham has no objection to urge to the proposal and the Board, therefore, requests the early sanction of Government to carrying out the arrangement as it has been arranged to utilize the services of karnams from 1st May next, or as soon as the Jamabandy Settlement of each taluk is over, so that the necessary preliminary accounts may be written up and completed in time to admit of the new rates of Settlement being introduced directly they are sanctioned by Government.
